AN ACT Relating to helping former foster youth and unaccompanied youth experiencing homelessness access and complete college and registered apprenticeships; amending RCW 28B.117.005, 28B.117.010, 28B.117.020, 28B.117.030, 28B.117.040, 28B.77.250, 28B.117.050, and 28B.76.526; adding new sections to chapter 28B.117 RCW; creating a new section; repealing RCW 28B.117.070, 28B.117.901, and 28B.117.902; and repealing 2013 c 182 s 11 (uncodified).

8 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

9 Sec. 1. RCW 28B.117.005 and 2013 c 39 s 11 are each amended to 10 read as follows:

11 (1)(a) ((The legislature finds that in Washington, there are more 12 than seven thousand three hundred children in foster family or group care. These children face unique obstacles and burdens as they 13 14 transition to adulthood, including lacking continuity in their 15 elementary and high school educations. As compared to the general 16 population of students, twice as many foster care youth change 17 schools at least once during their elementary and secondary school 18 careers, and three times as many change schools at least three times. 19 Only thirty-four percent of foster care youth graduate from high 20 school within four years, compared to seventy percent for the general 21 population. Of the former foster care youth who earn a high school

1 diploma, more than twenty-eight percent earn a high school equivalency certificate as provided in RCW 28B.50.536 instead of a 2 traditional high school diploma. This is almost six times the rate of 3 the general population. Research indicates that holders of high 4 5 school equivalency certificates tend not to be as economically 6 successful as the holders of traditional high school diplomas. Only 7 twenty percent of former foster care youth who earn a high school degree enroll in college, compared to over sixty percent of the 8 9 population generally. Of the former foster care youth who do enroll 10 in college, very few go on to earn a degree. Less than two percent of former foster care youth hold bachelor's degrees, compared to twenty-11 12 eight percent of Washington's population generally.

13 (b) Former foster care youth face two critical hurdles to enrolling in college. The first is a lack of information regarding 14 15 preparation for higher education and their options for enrolling in 16 higher education. The second is finding the financial resources to fund their education. As a result of the unique hurdles and 17 challenges that face former foster care youth, a disproportionate 18 number of them are part of society's large group of marginalized 19 20 youth and are at increased risk of continuing the cycle of poverty and violence that frequently plagues their families. 21

(c) Former foster care youth suffer from mental health problems 22 at a rate greater than that of the general population. For example, 23 24 one in four former foster care youth report having suffered from 25 posttraumatic stress disorder within the previous twelve months, compared to only four percent of the general population. Similarly, 26 27 the incidence of major depression among former foster care youth is 28 twice that of the general population, twenty percent versus ten 29 percent.

30 (d) There are other barriers for former foster care youth to 31 achieving successful adulthood. One-third of former foster care youth 32 live in households that are at or below the poverty level. This is three times the rate for the general population. The percentage of 33 former foster care youth who report being homeless within one year of 34 leaving foster care varies from over ten percent to almost twenty-35 five percent. By comparison, only one percent of the general 36 37 population reports having been homeless at sometime during the past 38 year. One in three former foster care youth lack health insurance, compared to less than one in five people in the general population. 39

One in six former foster care youth receive cash public assistance.
 This is five times the rate of the general population.

3 (e) Approximately twenty-five percent of former foster care youth 4 are incarcerated at sometime after leaving foster care. This is four 5 times the rate of incarceration for the general population. Of the 6 former foster care youth who "age out" of foster care, twenty-seven 7 percent of the males and ten percent of the females are incarcerated 8 within twelve to eighteen months of leaving foster care.

9 (f) Female former foster care youth become sexually active more 10 than seven months earlier than their nonfoster care counterparts, 11 have more sexual partners, and have a mean age of first pregnancy of 12 almost two years earlier than their peers who were not in foster 13 care.

14 (2) The legislature intends to create the passport to college 15 promise pilot program. The pilot program will initially operate for a 16 six-year period, and will have two primary components, as follows:

17 (a) Significantly increasing outreach to foster care youth 18 between the ages of fourteen and eighteen regarding the higher 19 education opportunities available to them, how to apply to college, 20 and how to apply for and obtain financial aid; and

(b) Providing financial aid to former foster care youth to assist 21 with the costs of their public undergraduate college education.)) The 22 legislature finds that with the creation of the passport to college 23 promise program this state took a significant step toward providing 24 25 higher education opportunities to youth and alumni of foster care. The passport to college promise program not only provides financial 26 27 aid to former foster youth but, just as important, it recognizes the critical role of wraparound services and provides early outreach to 28 foster care youth regarding postsecondary higher educational 29 30 opportunities. Since 2007, the passport to college promise program has increased the number of former foster youth enrolling in higher 31 32 education and working toward college degrees.

(b) Recognizing the success of creating pathways for foster youth 33 34 to access higher education, the legislature now seeks to create an 35 additional postsecondary pathway through access to registered apprenticeships or recognized preapprenticeships. Former foster and 36 unaccompanied homeless youth face critical hurdles to accessing 37 registered apprenticeships and recognized preapprenticeships. The 38 first is a lack of information regarding preparation for and 39 40 enrolling in registered apprenticeships or recognized preapprenticeships. The second is finding the financial resources to begin and continue in an apprenticeship or preapprenticeship. As a result of the unique hurdles and challenges that face youth in and alumni of foster care and unaccompanied homeless and former homeless youth, a disproportionate number of them are part of society's large group of marginalized youth.

7 (c) The legislature reiterates its earlier recognition of the critical role education plays in improving outcomes for youth in and 8 alumni of foster care and unaccompanied homeless and former homeless 9 youth, as well as the key role played by wraparound services in 10 providing continuity and seamless transitions to postsecondary 11 12 credential programs. With the creation of a parallel pathway with a passport for registered apprenticeships or recognized 13 preapprenticeships, including for the provision of wraparound 14 services, the legislature strives to make Washington the leader in 15 the nation with respect to foster and unaccompanied homeless youth 16 17 graduating from high school and enrolling in and achieving a postsecondary credential. 18

19 (d) The legislature further finds that students experiencing homelessness face similar challenges and educational outcomes as 20 their peers in foster care. In 2016, fifty-three and two-fifths 21 percent of Washington youth experiencing homelessness graduated from 22 23 high school on time, compared to seventy-nine percent of their peers. 24 Students experiencing homelessness are more likely to be students of 25 color, chronically absent, and have lower test scores in reading and math. Homeless students may also be former foster youth and foster 26 youth may be formerly homeless students. Similar to youth in foster 27 care, students experiencing homelessness need opportunities for 28 financial aid, wraparound services, and early outreach regarding 29 postsecondary higher educational opportunities and apprenticeships. 30

31 (2) It is the intent of the legislature to create the passport to 32 careers program with two programmatic pathways: The passport to college promise program and the passport to apprenticeship 33 opportunities. The passport to careers program expands upon the 34 passport to college promise program created in 2007 to include a 35 program of financial assistance for eligible youth and young adults 36 to participate in apprenticeship or preapprenticeship programs called 37 the passport to apprenticeship opportunities program. The passport to 38 39 careers program will have three primary components:

1 (a) Outreach to foster and unaccompanied homeless youth and young 2 adults regarding the higher education and registered apprenticeship 3 opportunities available to them, how to apply, and how to apply for 4 and obtain financial aid; 5 (b) Provide financial support to former foster and unaccompanied

6 <u>homeless youth to assist with the costs of their public undergraduate</u> 7 <u>college education or provide financial assistance to meet</u> 8 <u>apprenticeship or preapprenticeship program minimum qualifications</u> 9 <u>and occupational-specific costs and the supportive services to help</u> 10 <u>them apply and complete a registered apprenticeship or recognized</u> 11 <u>preapprenticeship; and</u> 12 (c) Measurably increase the number of foster and homeless youth

12 <u>(c) Measurably increase the number of foster and nomeress youth</u>
13 <u>accessing and completing higher education or registered</u>
14 <u>apprenticeship programs and successfully entering and retaining</u>
15 <u>employment.</u>

16 **Sec. 2.** RCW 28B.117.010 and 2012 c 163 s 2 are each amended to 17 read as follows:

The nongovernmental entity or 21 entities must facilitate the educational progress, graduation, and postsecondary plan initiation of eligible youth. The contract must be 22 outcome driven with a stated goal of improving the graduation rates 23 and postsecondary plan initiation of eligible youth by two percent 24 25 per year over five school year periods starting with the 2016-17 26 school year and ending with the 2021-22 school year. With each new contract, a baseline must be established at the end of the first year 27 of service provision. 28
