10 (c) When developing the financial plan for the project, the 11 department shall assume that all maintenance and operation costs for 12 the new facility are to be covered by tolls collected on the toll 13 facility and not by the motor vehicle account.

14 (15) The department shall itemize all future requests for the construction of buildings on a project list and submit them through 15 the transportation executive information system as part of 16 the 17 department's 2018 budget submittal. It is the intent of the legislature that new facility construction must be transparent and 18 19 not appropriated within larger highway construction projects.

20 (16) Any advisory group that the department convenes during the 21 2017-2019 fiscal biennium must consider the interests of the entire 22 state of Washington.

(17) It is the intent of the legislature that a new I-5/Exit 274 23 Interchange project in Blaine be funded with \$12,100,000 24 of connecting Washington account-state funds in the 2023-2025 fiscal 25 biennium and be changed accordingly on the LEAP transportation 26 document referenced in subsection (1) of this section. 27 This new 28 project would create a new southbound off-ramp on Interstate 5 at Exit 274 onto Peace Portal Drive and a direct northbound connection 29 to Blaine's industrial area from the existing northbound off-ramp by 30 reconfiguring it to tie into Odell Street. 31

(18) It is the intent of the legislature that for the I-5 JBLM 32 Corridor Improvements project (M00100R), the department 33 shall 34 actively pursue \$50,000,000 in federal funds to pay for this project to supplant state funds in the future. \$50,000,000 in connecting 35 Washington account funding must be held in unallotted status during 36 the 2021-2023 fiscal biennium. These funds may only be used after the 37 38 department has provided notice to the office of financial management that it has exhausted all efforts to secure federal funds from the 39 40 federal highway administration and the department of defense.

(19) \$93,500,000 of the connecting Washington account—state
 appropriation is provided solely for the SR 167/SR 509 Puget Sound
 Gateway project (M00600R). Any savings on the project must stay on
 the Puget Sound gateway corridor until the project is complete.

(20)(a) In making budget allocations to the Puget Sound Gateway 5 project, the department shall implement the project's construction as 6 7 а single corridor investment. The department shall develop a coordinated corridor construction and implementation plan for state 8 route number 167 and state route number 509 in collaboration with 9 affected stakeholders. Specific funding allocations must be based on 10 where and when specific project segments are ready for construction 11 12 to move forward and investments can be best optimized for timely 13 project completion. Emphasis must be placed on avoiding gaps in fund 14 expenditures for either project.

(b) The secretary of transportation must develop a memorandum of 15 understanding with local project stakeholders that identifies a 16 17 schedule for stakeholders to provide local matching funds for the Puget Sound Gateway project. Criteria for eligibility of local match 18 includes matching funds and equivalent in-kind contributions 19 including, but not limited to, land donations. The memorandum of 20 21 understanding must be finalized by July 1, 2018. The department must 22 submit a copy of the memorandum of understanding to the transportation committees of the legislature and report regularly on 23 24 the status of the requirements outlined in this subsection (20)(b) and (c) of this subsection. 25

of developing 26 (C) During the course the memorandum of 27 understanding, the department must evaluate the project schedules to determine if there are any benefits to be gained by moving the 28 project schedule forward. Additionally, the department must consider 29 completing a full single-point urban interchange at the junction of 30 state route number 161 (Meridian avenue) and state route number 167 31 32 and a full single-point urban interchange at the junction of state route number 509 and 188th Street. If the department receives 33 additional funds from an outside source for this project, the funds 34 must be applied toward the completion of these two full single-point 35 urban interchanges. 36

37 (21) It is the intent of the legislature that, for the I-5/North 38 Lewis County Interchange project (L2000204), the department develop 39 and design the project with the objective of significantly improving 40 access to the industrially zoned properties in north Lewis

county. The design must consider the county's process of
 investigating alternatives to improve such access from Interstate 5
 that began in March 2015.

4 (22) \$600,000 of the motor vehicle account—state appropriation is
5 provided solely for the department to complete an interchange
6 justification report (IJR) for the U.S. 2 trestle (L1000158),
7 covering the state route number 204 and 20th Street interchanges at
8 the end of the westbound structure.

9 (a) The department shall develop the IJR in close collaboration 10 with affected local jurisdictions, including Snohomish county and the 11 cities of Everett, Lake Stevens, Marysville, Snohomish, and Monroe.

12 (b) Within the amount provided for the IJR, the department must 13 address public outreach and the overall operational approval of the 14 IJR.

15 (c) The department shall complete the IJR and submit the final 16 report to the governor and the transportation committees of the 17 legislature by July 1, 2018.

(23)(a) The legislature recognizes that the city of Mercer Island 18 19 has unique access issues that require the use of Interstate 90 to leave the island and that this access may be affected by the I-90/ 20 21 Two-Way Transit and HOV Improvements project. One of the most heavily 22 traveled on-ramps from Mercer Island to the westbound Interstate 90 general purpose lanes is from Island Crest Way. The department must 23 24 continue to consult with the city of Mercer Island and the other signatories to the 1976 memorandum of agreement to preserve access 25 provided to Mercer Island by the Island Crest Way on-ramp, and thus 26 27 grandfather in the current use of the on-ramp for both high occupancy vehicles as well as vehicles seeking to access the general purpose 28 29 lanes of Interstate 90. The department must consider all reasonable access solutions, including allowing all vehicles to use the Island 30 Crest Way on-ramp to access the new high occupancy vehicle lane with 31 32 a reasonable and safe distance provided for single-occupancy vehicles to merge into the general purpose lanes. 33

(b) A final access solution for Mercer Island must consider the
following criteria: Safety; operational effects on all users,
including maintaining historic access to Interstate 90 provided from
Mercer Island by Island Crest Way; enforcement requirements; and
compliance with state and federal law.

1 (c) The department may not restrict by occupancy the westbound 2 on-ramp from Island Crest Way until a final access solution that 3 meets the criteria in (b) of this subsection has been reached.

4 (24) \$2,000,000 of the Interstate 405 express toll lanes
5 operations account—state appropriation is provided solely for the
6 I-405 NB Hard Shoulder Running - SR 527 to I-5 project (L1000163).

7 (25) The legislature finds that there are sixteen companies involved in wood preserving in the state that employ four hundred 8 workers and have an annual payroll of fifteen million dollars. Before 9 10 the department's switch to steel quardrails, ninety percent of the twenty-five hundred mile quardrail 11 system was constructed of preserved wood and one hundred ten thousand wood guardrail posts were 12 13 produced annually for state use. Moreover, the policy of using steel 14 posts requires the state to use imported steel. Given these findings, where practicable, and until June 30, 2019, the department shall 15 16 include the design option to use wood guardrail posts, in addition to 17 steel posts, in new guardrail installations. The selection of posts must be consistent with the agency design manual policy that existed 18 19 before December 2009.

(26) For the SR 526 Corridor Improvements project (N52600R), the 20 21 department shall look holistically at the state route number 526 22 corridor from the state route number 526/Interstate 5 interchange at the east end to the southwest Everett industrial area and Boeing's 23 24 west access road on the west end. The department, working with 25 affected jurisdictions and stakeholders, shall select project elements that best maximize mobility and congestion relief in the 26 27 corridor and draw from project elements identified in a practical solutions process. 28

(27) It is the intent of the legislature that for the I-5/Slater Road Interchange - Improvements project (L1000099), \$2,000,000 of connecting Washington account—state funds be added in the 2021-2023 fiscal biennium and \$10,100,000 of connecting Washington account state funds be added in the 2023-2025 fiscal biennium, and that the LEAP transportation document referenced in subsection (1) of this section be updated accordingly.

36 (28)(a) For projects funded as part of the 2015 connecting 37 Washington transportation package listed on the LEAP transportation 38 document identified in subsection (1) of this section, if the 39 department expects to have substantial reappropriations for the

1 2019-2021 fiscal biennium, the department may, on a pilot basis, 2 apply funding from a project with an appropriation that cannot be 3 used for the current fiscal biennium to advance one or more of the 4 following projects:

- 5 (i) SR 20/Sharpes Corner Vicinity Intersection (L1000112);
- 6 (ii) I-5/Marvin Road/SR 510 Interchange (L1100110);
- 7 (iii) I-5/Northbound On-ramp at Bakerview (L2000119);

8 (iv) US 395/Ridgeline Intersection (L2000127);

9 (v) I-90/Eastside Restripe Shoulders (L2000201);

- 10 (vi) SR 240/Richland Corridor Improvements (L2000202);
- 11 (vii) SR 14/Bingen Overpass (L2220062);
- 12 (viii) US Hwy 2 Safety (N00200R);
- 13 (ix) SR 520/148th Ave NE Overlake Access Ramp (L1100101);
- 14 (x) SR 28/SR 285 North Wenatchee Area Improvements (L2000061);

15 (xi) I-5/Rebuild Chambers Way Interchange Improvements
16 (L2000223);

17

- (xii) SR 28 East Wenatchee Corridor Improvements (T10300R);
- 18 (xiii) SR 3/Belfair Bypass New Alignment (T30400R); or

19 (xiv) SR 510/Yelm Loop Phase 2 (T32700R).

(b) At least ten business days before advancing a project pursuant to this subsection, the department must notify the office of financial management and the transportation committees of the legislature. The advancement of a project may not hinder the delivery of the projects for which the reappropriations are necessary for the 2019-2021 fiscal biennium.

(29) Within existing resources and in consultation with local communities, the department shall begin planning efforts, including traffic data collection, analysis and evaluation, scoping, and environmental review, for roundabouts at the intersection of state route number 900 and SE May Valley Road and at the intersection of state route number 169 and Cedar Grove Road SE.

32 (30) Among the options studied as part of the SR 410 Corridor 33 Study project (L1000174), the department shall examine the mobility 34 and safety benefits of replacing or expanding the White River bridge 35 between Enumclaw and Buckley to four lanes and removing the trestle.

MISCELLANEOUS 2017-2019 FISCAL BIENNIUM

37 <u>NEW SECTION.</u> Sec. 701. INFORMATION TECHNOLOGY PROJECTS

1 (1) All appropriations for designated information technology projects in this act must be placed in unallotted status and must not 2 be expended before the office of the chief information officer 3 certifies that the project complies with state information technology 4 and security policy and strategies. At a minimum, the office of the 5 6 chief information officer must certify, if the chief information officer deems appropriate, that the project meets critical project 7 success factors, aligns with statewide technology strategy and 8 architecture, reuses existing technology services and solutions, 9 minimizes custom development, complies with security and other policy 10 requirements, and uses modularized, component-based architectures. 11 12 The office of the chief information officer must evaluate the project at the appropriate stages. The office of the chief information 13 officer must notify the office of financial management and the 14 legislative fiscal committees each time it certifies a project is 15 16 ready to proceed with the next stage. Appropriations may then be 17 allotted for that certified phase only.

18 (2) The chief information officer may suspend or terminate a 19 project at any time if the chief information officer determines that 20 the project is not meeting or not expected to meet anticipated 21 performance and technology outcomes. Once suspension or termination 22 occurs, the agency shall not make additional expenditures on the 23 project without approval of the chief information officer.

24 The following projects are subject to the conditions, 25 limitations, and review provided in this section: Department of 26 Transportation - Labor System Replacement, Department of Transportation - New Ferry Division Dispatch System, Department of 27 28 Transportation - Land Mobile Radio System Replacement, and Department 29 of Transportation - New CSC System and Operator.

35 *<u>NEW SECTION.</u> Sec. 702. SETTLEMENT FUNDS EXPENDITURE

36 The legislature finds that it is appropriate to provide a 37 framework for the administration of mitigation funds provided to the 38 state as a beneficiary under the terms of the consent decrees entered 39 into by the United States, Volkswagen AG, and other participating

parties that settle emissions-related claims for 2.0 and 3.0 liter 1 2 diesel vehicles of certain models and years. The legislature deems department of ecology the responsible agency 3 the for the administration and expenditure of funds provided by the trustee under 4 the terms of the consent decrees, including the development of a 5 б mitigation plan to guide the use of the funds, whether or not the 7 department receives funds directly for projects included in the plan.

The legislature also finds that a framework to govern the 8 9 administration of mitigation funds requires appropriations, guiding principles, allocation of funds, consideration of agencies' roles, 10 11 legislative oversight, and ancillary provisions. Accordingly, the omnibus capital budget for the department of ecology includes the 12 13 necessary provisions to administer the mitigation funds and the development of the mitigation plan. With respect to this act and 14 15 transportation governance generally, these provisions require: The 16 participation of legislators from the transportation committees as 17 part of a legislative work group; consultation by the department of ecology with the department of transportation on several components 18 of the plan development and implementation; and consideration of and 19 coordination with the several transportation programs and policies 20 21 that intersect with potential mitigation actions that may become part 22 of the plan. The department of transportation is directed to work with the department of ecology as needed to facilitate the plan 23 24 development and implementation.

4 (b) Toll charges shall not be assessed on transit buses and 5 vanpool vehicles owned or operated by any public agency.

б (c) The department shall establish performance standards for the 7 state route 167 high occupancy toll lane pilot project. The department must automatically adjust the toll charge, using dynamic 8 tolling, to ensure that toll-paying single-occupant vehicle users are 9 only permitted to enter the lane to the extent that average vehicle 10 11 speeds in the lane remain above forty-five miles per hour at least 12 ninety percent of the time during peak hours. The toll charge may vary in amount by time of day, level of traffic congestion within the 13 14 highway facility, vehicle occupancy, or other criteria, as the commission may deem appropriate. (d) The commission shall periodically review the toll charges to
determine if the toll charges are effectively maintaining travel
time, speed, and reliability on the highway facilities.

(3) The department shall monitor the state route 167 high occupancy toll lane pilot project and shall annually report to the transportation commission and the legislature on operations and findings. At a minimum, the department shall provide facility use data and review the impacts on:

The department shall analyze aggregate use data and conduct, as needed, separate surveys to assess usage of the facility in relation to geographic, socioeconomic, and demographic information within the corridor in order to ascertain actual and perceived questions of equitable use of the facility.

38 (4) The department shall modify the pilot project to address 39 identified safety issues and mitigate negative impacts to high 40 occupancy vehicle lane users. (5) Authorization to impose high occupancy vehicle tolls for the
 state route 167 high occupancy toll pilot project expires if either
 of the following two conditions apply:

4 (a) If no contracts have been let by the department to begin 5 construction of the toll facilities associated with this pilot 6 project within four years of July 24, 2005; or

7 (b) If high occupancy vehicle tolls are being collected on June
8 30, ((2017)) 2019.

21 **Sec. 905.** 2016 c 14 s 205 (uncodified) is amended to read as 22 follows:

23 FOR THE TRANSPORTATION COMMISSION

24	Motor Vehicle Account—State Appropriation ((\$2,667,000))
25	<u>\$2,516,000</u>
26	Motor Vehicle Account—Federal Appropriation \$500,000
27	Multimodal Transportation Account—State
28	Appropriation
29	TOTAL APPROPRIATION
30	<u>\$3,128,000</u>

The appropriations in this section are subject to the following conditions and limitations:

(1) \$300,000 of the motor vehicle account—state appropriation is provided solely to continue evaluating a road usage charge as an alternative to the motor vehicle fuel tax to fund investments in transportation. The evaluation must include monitoring and reviewing work that is underway in other states and nationally. The commission may coordinate with the department of transportation to jointly

1 pursue any federal or other funds that are or might become available 2 and eligible for road usage charge pilot projects. The commission 3 must reconvene the road usage charge steering committee, with the 4 same membership authorized in chapter 222, Laws of 2014, and report 5 to the governor's office and the transportation committees of the 6 house of representatives and the senate by December 15, 2015.

(2) \$150,000 of the motor vehicle account—state appropriation is 7 provided solely for the commission to use an outside survey firm to 8 conduct three transportation surveys during the 2015-2017 fiscal 9 biennium. The commission must consult with the joint transportation 10 committee when deciding on the survey topics and design to ensure the 11 12 survey results will deliver the data, information, and analysis for 13 future transportation policy and strategic planning decisions in a 14 manner useful to the legislature.

(3)(a) The legislature finds that, while some travel times have 15 improved through Interstate 405 between the junctions with Interstate 16 17 5 on the north end and NE 6th Street in the city of Bellevue on the south end, especially for transit trips, the implementation of the 18 express toll lane system has made travel more difficult for a number 19 of other drivers and trips. To provide some relief to drivers, the 20 21 legislature encourages the commission to expedite consideration of 22 the elimination of tolls during evening nonpeak hours, weekends, and holidays, to the extent that such a change will improve commuters' 23 24 experience on this portion of Interstate 405. The legislature further finds that the commission, as the tolling authority of the state, 25 should act swiftly, working in conjunction with the department of 26 27 transportation's comprehensive effort to tackle obstacles adversely affecting commutes on this portion of Interstate 405, to drive 28 29 improved results for the users of this critical corridor as soon as 30 is practicable.

(b) In accordance with the rule-making authority provided under 31 32 RCW 34.05.350(1)(a), the legislature deems it necessary, for preservation of the general welfare, that operational changes be made 33 to improve the express toll lane program on Interstate 405 and that 34 35 the tolling authority use its emergency rule-making authority to effect such changes in accordance with RCW 47.56.850 and 47.56.880. 36 37 The legislature finds that the need for improvements to the commuter experience on the portion of Interstate 405 identified in (a) of this 38 39 subsection necessitates that such action be taken in an expedited fashion. The tolling authority, with input from the department of 40

1 transportation, shall evaluate the hours and days of operation for the express toll lanes and the minimum high occupancy vehicle 2 passenger requirements for using the express toll lanes, taking into 3 consideration the goals of: Reducing travel time on this portion of 4 Interstate 405, including in the general purpose lanes; reducing the 5 6 cost of traveling within the express toll lanes on this portion of Interstate 405; and maintaining sufficient revenue to pay for this 7 portion of Interstate 405's express toll lane operating costs. This 8 subsection (3) does not create a private right of action. 9

motor 10 \$500,000 of the vehicle account—federal (4)(a) appropriation is provided solely to advance the work completed since 11 12 2011 in evaluating a road usage charge as an alternative to the motor 13 vehicle fuel tax to fund future investments in transportation by completing the work necessary to launch a road usage charge pilot 14 project, with all implementation details for a pilot project 15 identified and incorporated into a pilot project implementation plan. 16

17 (i) Pilot project implementation preparation must include identification of all essential agency roles and responsibilities for 18 19 the pilot project, a selection of the technologies and methodologies to be included, a target number of participants and participant 20 21 characteristics, rigorous specific evaluation criteria by which the 22 pilot project will be assessed, a communication plan for the pilot project that consists of a participant recruitment plan and a plan 23 24 for communicating information about the launch and ongoing progress 25 of the pilot project, and pilot project expenditure and revenue 26 estimates.

(ii) In developing the road usage charge pilot project implementation plan, the commission shall consult and coordinate with the department of transportation, the department of licensing, the department of revenue, and the office of the state treasurer to establish participation and coordination parameters for the project.

32 (b) The commission shall coordinate with the department of transportation to jointly pursue any federal or other funds that are 33 or might become available to fund a road usage charge pilot project. 34 35 Where feasible, grant application content prepared by the commission must reflect the direction provided by the road usage charge steering 36 37 committee on the preferred road usage charge pilot project approach. 38 One or more grant applications may be developed as part of the road 39 usage charge pilot project implementation plan development work, but 40 the pilot project implementation plan must nevertheless include any

details necessary for a full launch of the pilot project not required
 to be included in any grant application.

MISCELLANEOUS 2015-2017 FISCAL BIENNIUM

15 <u>NEW SECTION.</u> Sec. 1201. A new section is added to 2016 c 14 16 (uncodified) to read as follows:

17 The appropriations to the department of transportation in chapter 14, Laws of 2016 and this act must be expended for the programs and 18 in the amounts specified in this act. However, after May 1, 2017, 19 unless specifically prohibited, the department may transfer state 20 appropriations for the 2015-2017 fiscal biennium among operating 21 programs after approval by the director of the office of financial 22 23 management. However, the department shall not transfer state moneys that are provided solely for a specific purpose. The department shall 24 not transfer funds, and the director of the office of financial 25 26 management shall not approve the transfer, unless the transfer is 27 consistent with the objective of conserving, to the maximum extent possible, the expenditure of state funds and not federal funds. The 28 director of the office of financial management shall notify the 29 30 transportation committees of the legislature in writing no fewer than seven days before approving any allotment modifications or transfers 31 32 under this section. The written notification must include a narrative 33 explanation and justification of the changes, along with expenditures 34 and allotments by program and appropriation, both before and after 35 any allotment modifications or transfers.

MISCELLANEOUS

1 <u>NEW SECTION.</u> Sec. 1301. If any provision of this act or its 2 application to any person or circumstance is held invalid, the 3 remainder of the act or the application of the provision to other 4 persons or circumstances is not affected.

5 <u>NEW SECTION.</u> Sec. 1302. Except for sections 705 and 706 of this 6 act, this act is necessary for the immediate preservation of the 7 public peace, health, or safety, or support of the state government 8 and its existing public institutions, and takes effect immediately.

9 *<u>NEW SECTION.</u> Sec. 1303. Section 705 of this act takes effect 10 if chapter . . . (Senate Bill No. 5037), Laws of 2017 is enacted by 11 June 30, 2017.

*Sec. 1303 was vetoed. See message at end of chapter.

12 <u>NEW SECTION.</u> Sec. 1304. Section 706 of this act is necessary 13 for the immediate preservation of the public peace, health, or 14 safety, or support of the state government and its existing public 15 institutions, and takes effect July 1, 2017.

Passed by the Senate April 21, 2017. Passed by the House April 20, 2017. Approved by the Governor May 16, 2017, with the exception of certain items that were vetoed. Filed in Office of Secretary of State May 16, 2017.

Note: Governor's explanation of partial veto is as follows:

"I am returning herewith, without my approval as to Sections 209(9), 215(6), 306(17), 702, 705, and 1303, Engrossed Senate Bill No. 5096 entitled:

"AN ACT Relating to transportation funding and appropriations."

Section 209(9), pages 21-22, Department of Transportation, Toll Operations and Maintenance

Section 209(9) directs the Department of Transportation's Toll Operations and Maintenance program to study and report to the legislative transportation committees on the potential of converting two staffed tollbooths on the Tacoma Narrows Bridge to unstaffed. No funding was provided for the study. For this reason, I have vetoed Section 209(9).

Section 215(6), page 27, Department of Transportation, Highway Maintenance

Section 215(6) requires the department to create and maintain a separate maintenance budget for the Hood Canal Bridge. The department is not required to maintain separate budgets for other bridges and roads, and this would limit the department's flexibility to manage its budget. For these reasons, I have vetoed Section 215(6).

Section 306(17), page 43, Department of Transportation, Improvements

Section 306(17) creates a new I-5/Exit 274 interchange project in Blaine to be funded with \$12,100,000 of Connecting Washington Account-State funds in the 2023-25 biennium. It directs the LEAP transportation document referenced in Section 306(1) to be modified accordingly. The I-5/Exit 274 interchange project in Blaine does not appear in LEAP Transportation Document 2017-1, nor is there any information about project scope. This LEAP transportation document should not be amended for a project without sufficient information about its scope and cost. For this reason, I have vetoed Section 306(17).

Section 702, pages 75-76, Settlement Funds Expenditure

Section 702 provides a legislative finding that it is appropriate to provide a framework for the administration of mitigation funds provided to the state as a beneficiary of the consent decree entered into between the United States, Volkswagen AG, and other parties that settle emission-related claims for certain models of diesel vehicles (commonly referred as the VW Settlement). Accordingly, the section provides that the omnibus capital budget for the Department of Ecology includes necessary provisions to administer the mitigation funds and development of the mitigation plan. The Legislature has not adopted an omnibus capital budget. Therefore, it is not possible to determine at this time what provisions the final capital budget may contain nor whether such provisions will be acceptable. For this reason, I have vetoed Section 702.

I will continue to work with the Legislature to ensure prompt administration of the settlement funds under the terms of the consent decree. I also have directed the departments of Ecology and Transportation to jointly develop the proposed mitigation plan for public comment and submittal to the trustee.

Section 705, pages 78-79, DUI Fee

Section 705 amends RCW 46.61.5054. This same statute was amended in two other bills—Section 5 of Senate Bill 5037 and Section 13 of Engrossed Second Substitute House Bill 1614, which I will sign into law on May 16, 2017. The amendment in Engrossed Second Substitute House Bill 1614 renders moot the amendment in Section 705. For this reason, I have vetoed Section 705.

Section 1303, page 157, Effective Date of Section 705

Section 1303 enables Section 705 of the transportation budget to take effect if Senate Bill 5037 is enacted by June 30, 2017. Since I am vetoing Section 705, this section is no longer required. For this reason, I have vetoed Section 1303.

For these reasons I have vetoed Sections 209(9), 215(6), 306(17), 702, 705, and 1303 of Engrossed Senate Bill No. 5096.

With the exception of Sections 209(9), 215(6), 306(17), 702, 705, and 1303, Engrossed Senate Bill No. 5096 is approved."
