The system is funded by member and employer contributions and 40 percent of the fire insurance premium tax.

Employers are required to participate in the death, disability, and medical benefit plans collectively referred to as the relief benefits offered by the system, but participation in the pension component is optional and participants must enroll to be covered by the plan. Relief benefits are available to members covered under the relief provisions of the Volunteer Fire Fighters' and Reserve Officers' Relief and Pension Act who are injured in the performance of duty.

Eligibility for retirement pension benefits from the system begins after ten years of service as a member. The amount of the pension increases for each five years of service beyond the minimum ten years and for payments made into the pension portion of the system. The maximum pension is vested with 25 years of service and 25 payments into the pension fund. Full retirement benefits are available at age 65, and early retirement benefits are available to members with 25 years of service on an actuarially reduced basis beginning at age 60. The maximum pension benefit is \$300 per month.

At any time prior to retirement, or at the time of retirement, a member of the system may purchase retirement pension coverage for years of eligible service prior to the member's enrollment in the system, or for years of service credit lost due to the withdrawal of the member's pension contributions. A member choosing to purchase such retirement pension coverage must make a contribution to the system equal to the actuarial value of the resulting benefit increase. The municipality that the member serves may contribute some or all of the amount required to purchase coverage.

**Summary of Bill:** Beginning July 1, 2019, the pension paid to members of the system is increased from a maximum of \$300. Beginning on January 1, 2020, the maximum benefit of \$350 is increased by \$10 per month for each year that the retirement fee is paid beyond 25 years.

The annual disability relief fee for each member of the system is increased from \$30 to \$50. The annual pension fee is increased from \$60 to \$90, half of which may continue to be paid by the member at the employer's choice.
