AN ACT Relating to the potency of marijuana products; amending RCW 69.50.375 and 69.50.325; reenacting and amending RCW 69.50.357 and 69.50.101; creating a new section.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

NEW SECTION. Sec. 1. (1) The legislature finds that high-potency marijuana products are increasingly prevalent in the market. Whereas the THC concentration of marijuana-infused edible products is limited to ten percent by state law and the THC concentration of marijuana flower is biologically limited, there is currently no limit on the potency of marijuana concentrates such as THC-infused vape oils. These types of high-potency marijuana products are available with a THC concentration of almost one hundred percent THC. Prior to Washington and other states legalizing marijuana sales, many of these high-potency products did not exist or were not widely available. In 2019, sales of high-potency marijuana concentrates represent nearly forty percent of total sales of marijuana products.

(2) The legislature finds that health professionals and researchers continue to find an association between the use of high-potency marijuana and the occurrence of psychotic disorders. A 2019 study analyzed data from patients with first-episode psychosis and found that, compared with participants who reported never having used
cannabis, "participants who used high-potency cannabis daily had four-times higher odds of psychosis in the whole sample, with a five-times increase in London and a nine-times increase in Amsterdam." The study defined high-potency cannabis as a potency greater than ten percent. Further, the study found that its findings are consistent with previous evidence suggesting that the use of high-potency marijuana has more harmful mental health effects than use of less-potent marijuana.

(3) Therefore, the legislature intends to limit the potency of marijuana concentrates that may be sold in the state.

Sec. 2. RCW 69.50.357 and 2017 c 317 s 13 and 2017 c 131 s 1 are each reenacted and amended to read as follows:

(1)(a) Retail outlets may not sell products or services other than marijuana concentrates, useable marijuana, marijuana-infused products, or paraphernalia intended for the storage or use of marijuana concentrates, useable marijuana, or marijuana-infused products.

(b) Except as provided in RCW 69.50.375(5), retail outlets may not sell marijuana concentrates with a THC concentration greater than ten percent THC.

(c)(i) Retail outlets may receive lockable boxes, intended for the secure storage of marijuana products and paraphernalia, and related literature as a donation from another person or entity, that is not a marijuana producer, processor, or retailer, for donation to their customers.

(ii) Retail outlets may donate the lockable boxes and provide the related literature to any person eligible to purchase marijuana products under subsection (2) of this section. Retail outlets may not use the donation of lockable boxes or literature as an incentive or as a condition of a recipient's purchase of a marijuana product or paraphernalia.

(iii) Retail outlets may also purchase and sell lockable boxes, provided that the sales price is not less than the cost of acquisition.

(2) Licensed marijuana retailers may not employ persons under twenty-one years of age or allow persons under twenty-one years of age to enter or remain on the premises of a retail outlet. However, qualifying patients between eighteen and twenty-one years of age with a recognition card may enter and remain on the premises of a retail
outlet holding a medical marijuana endorsement and may purchase products for their personal medical use. Qualifying patients who are under the age of eighteen with a recognition card and who accompany their designated providers may enter and remain on the premises of a retail outlet holding a medical marijuana endorsement, but may not purchase products for their personal medical use.

(3)(a) Licensed marijuana retailers must ensure that all employees are trained on the rules adopted to implement this chapter, identification of persons under the age of twenty-one, and other requirements adopted by the state liquor and cannabis board to ensure that persons under the age of twenty-one are not permitted to enter or remain on the premises of a retail outlet.

(b) Licensed marijuana retailers with a medical marijuana endorsement must ensure that all employees are trained on the subjects required by (a) of this subsection as well as identification of authorizations and recognition cards. Employees must also be trained to permit qualifying patients who hold recognition cards and are between the ages of eighteen and twenty-one to enter the premises and purchase marijuana for their personal medical use and to permit qualifying patients who are under the age of eighteen with a recognition card to enter the premises if accompanied by their designated providers.

(4) Except for the purposes of disposal as authorized by the state liquor and cannabis board, no licensed marijuana retailer or employee of a retail outlet may open or consume, or allow to be opened or consumed, any marijuana concentrates, useable marijuana, or marijuana-infused product on the outlet premises.

(5) The state liquor and cannabis board must fine a licensee one thousand dollars for each violation of any subsection of this section. Fines collected under this section must be deposited into the dedicated marijuana account created under RCW 69.50.530.

Sec. 3. RCW 69.50.375 and 2015 c 70 s 10 are each amended to read as follows:

(1) A medical marijuana endorsement to a marijuana retail license is hereby established to permit a marijuana retailer to sell marijuana for medical use to qualifying patients and designated providers. This endorsement also permits such retailers to provide marijuana at no charge, at their discretion, to qualifying patients and designated providers.
(2) An applicant may apply for a medical marijuana endorsement concurrently with an application for a marijuana retail license.

(3) To be issued an endorsement, a marijuana retailer must:

(a) Not authorize the medical use of marijuana for qualifying patients at the retail outlet or permit health care professionals to authorize the medical use of marijuana for qualifying patients at the retail outlet;

(b) Carry marijuana concentrates and marijuana-infused products identified by the department under subsection (4) of this section;

(c) Not use labels or market marijuana concentrates, useable marijuana, or marijuana-infused products in a way that make them intentionally attractive to minors;

(f) Meet other requirements as adopted by rule of the department or the state liquor and cannabis board.

(4) The department, in conjunction with the state liquor and cannabis board, must adopt rules on requirements for marijuana concentrates, useable marijuana, and marijuana-infused products that may be sold, or provided at no charge, to qualifying patients or designated providers at a retail outlet holding a medical marijuana endorsement. These rules must include:

(a) THC concentration, CBD concentration, or low THC, high CBD ratios appropriate for marijuana concentrates, useable marijuana, or marijuana-infused products sold to qualifying patients or designated providers;

(b) Labeling requirements including that the labels attached to marijuana concentrates, useable marijuana, or marijuana-infused products contain THC concentration, CBD concentration, and THC to CBD ratios;

(c) Other product requirements, including any additional mold, fungus, or pesticide testing requirements, or limitations to the...
types of solvents that may be used in marijuana processing that the
department deems necessary to address the medical needs of qualifying
patients;

useable marijuana, or marijuana-infused products; and

(e) Training requirements for employees.

(5) Only marijuana retailers who hold a medical marijuana
endorsement issued under this section may sell marijuana concentrates
with a THC concentration greater than ten percent THC. Marijuana
concentrates with a THC concentration greater than ten percent may be
sold only to qualifying patients and designated providers who are
entered into the medical marijuana authorization database and who
hold a valid recognition card.

(6) A marijuana retailer holding an endorsement to sell marijuana
to qualifying patients or designated providers must train its
employees on:

and the use of equipment to enter qualifying patients and designated
providers into the medical marijuana authorization database;

(b) Recognition of valid recognition cards; and
