Prefiled 12/31/18. Read first time 01/14/19. Referred to Committee on Health & Long Term Care.

1 AN ACT Relating to protecting youth from tobacco products and
2 vapor products by increasing the minimum legal age of sale of tobacco
3 and vapor products; amending RCW 26.28.080, 70.155.005, 70.155.010,
4 70.345.010, 70.155.020, 70.345.070, 70.345.100, 70.155.030,
5 70.345.080, and 70.155.120; creating a new section; and providing an
6 effective date.

7 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

8 **Sec. 1.** RCW 26.28.080 and 2016 1st sp.s. c 38 s 1 are each
9 amended to read as follows:

10 (1) (~~Every~~) A person who sells or gives, or permits to be sold
11 or given, to any person under the age of (~~eighteen~~) twenty-one
12 years any cigar, cigarette, cigarette paper or wrapper, tobacco in
13 any form, or a vapor product is guilty of a gross misdemeanor.

14 (2) It is not a defense to a prosecution for a violation of this
15 section that the person acted, or was believed by the defendant to
16 act, as agent or representative of another.

17 (3) For the purposes of this section, "vapor product" has the
18 same meaning as provided in RCW 70.345.010.

19 **Sec. 2.** RCW 70.155.005 and 1993 c 507 s 1 are each amended to
20 read as follows:

1 (1) The legislature finds that chapter ..., Laws of 2019 (this
2 act) furthers the public health, safety, and welfare by reducing
3 youth access to addictive and harmful products.

4 (2) While present state law prohibits the sale and distribution
5 of tobacco and vapor products to ((minors)) youth under the age of
6 eighteen, youth obtain ((tobacco)) these products with ease.
7 ((Availability and lack of enforcement put tobacco products in the
8 hands of youth.))

9 (3) The legislature recognizes that many people who purchase
10 cigarettes for minors are between the ages of eighteen to twenty. By
11 decreasing the number of eligible buyers in high school, raising the
12 minimum legal age to sell tobacco and vapor products will decrease
13 the access of students to tobacco products. According to the 2014
14 healthy youth survey, forty-one percent of tenth graders say it is
15 "sort of easy" to "very easy" to get cigarettes. Nationally, among
16 youth who smoke, more than twice as many get their cigarettes from
17 social sources than from a store or vending machine.

18 (4) The legislature recognizes that ninety-five percent of
19 smokers start by the age of twenty-one.

20 (5) The legislature recognizes that jurisdictions across the
21 country are increasing the age of sale for tobacco products to
22 twenty-one. As of October 2018, six states (California, Hawaii,
23 Maine, Massachusetts, New Jersey, and Oregon), the District of
24 Columbia, the territory of Guam, and more than three hundred fifty
25 cities and counties in twenty-one states have raised the minimum
26 legal sales age to twenty-one. Approximately thirty percent of the
27 population of the United States is covered by such a policy.

28 (6) The legislature recognizes the scientific report issued by
29 the national institute of medicine, one of the most prestigious
30 scientific authorities in the United States, which predicted that
31 increasing the age of sale for tobacco products in the United States
32 to twenty-one will significantly reduce the number of adolescents and
33 young adults who start smoking, reduce deaths from smoking, and
34 immediately improve the health of adolescents, young adults, young
35 mothers, and their children.

36 (7) The legislature recognizes the national institute of medicine
37 report predicted increasing the tobacco sale age will make the
38 greatest difference among those ages fifteen to seventeen, who will
39 no longer be able to pass for legal age and will have a harder time
40 getting tobacco products from older classmates and friends. The

1 national institute of medicine report also predicted raising the
2 minimum age for the sale of tobacco products in the United States to
3 twenty-one will, over time, reduce the smoking rate by about twelve
4 percent and smoking-related deaths by ten percent.

5 (8) The legislature recognizes scientific study of the brain is
6 increasingly showing that the brain continues to be highly vulnerable
7 to addictive substances until age twenty-five. Nicotine adversely
8 affects the development of the cerebral cortex and hippocampus in
9 adolescents.

10 (9) The legislature recognizes that a strategy of increasing the
11 minimum legal age for alcohol was highly successful in reducing
12 adverse effects of alcohol consumption. A national drinking age of
13 twenty-one resulted in reduced alcohol consumption among youth,
14 decreased alcohol dependence, and has led to significant reductions
15 in drunk driving fatalities.

16 (10) The legislature recognizes that if the age of sale is raised
17 to twenty-one, eighteen to twenty year olds will likely substitute
18 other in-store purchases for cigarettes. The legislature recognizes
19 that when Needham, Massachusetts raised the smoking age to twenty-one
20 in 2005, no convenience stores went out of business.

21 (11) The legislature recognizes that reducing the youth smoking
22 rate will save lives and reduce health care costs. Every year, two
23 billion eight hundred ten million dollars in health care costs can be
24 directly attributed to tobacco use in Washington. Smoking-caused
25 government expenditures cost every Washington household eight hundred
26 twenty-one dollars per year.

27 (12) Federal law requires states to enforce laws prohibiting sale
28 and distribution of tobacco products to minors in a manner that can
29 reasonably be expected to reduce the extent to which the products are
30 available to minors. It is imperative to effectively reduce the sale,
31 distribution, and availability of tobacco products to minors.

32 **Sec. 3.** RCW 70.155.010 and 2009 c 278 s 1 are each amended to
33 read as follows:
