NEW SECTION.  
Sec. 201. FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES

(1) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act. Appropriations made in this act to the department of social and health services shall initially be allotted as required by this act. Subsequent allotment modifications shall not include transfers of moneys between sections of this act except as expressly provided in this act, nor shall allotment modifications permit moneys that are provided solely for a specified purpose to be used for other than that purpose.

(2) The department of social and health services shall not initiate any services that require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

(3) The legislature finds that medicaid payment rates, as calculated by the department pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population in the geographic area. The legislature finds that cost reports, payment data from the federal government, historical utilization, economic data, and
clinical input constitute reliable data upon which to determine the
payment rates.

(4) The department shall to the maximum extent practicable use
the same system for delivery of spoken-language interpreter services
for social services appointments as the one established for medical
appointments in the health care authority. When contracting directly
with an individual to deliver spoken language interpreter services,
the department shall only contract with language access providers who
are working at a location in the state and who are state-certified or
state-authorized, except that when such a provider is not available,
the department may use a language access provider who meets other
certifications or standards deemed to meet state standards, including
interpreters in other states.

(5) Information technology projects or investments and proposed
projects or investments impacting time capture, payroll and payment
processes and systems, eligibility, case management, and
authorization systems within the department of social and health
services are subject to technical oversight by the office of the
chief information officer.

(6)(a) The department shall facilitate enrollment under the
medicaid expansion for clients applying for or receiving state funded
services from the department and its contractors. Prior to open
enrollment, the department shall coordinate with the health care
authority to provide referrals to the Washington health benefit
exchange for clients that will be ineligible for medicaid.

(b) To facilitate a single point of entry across public and
medical assistance programs, and to maximize the use of federal
funding, the health care authority, the department of social and
health services, and the health benefit exchange will coordinate
efforts to expand HealthPlanfinder access to public assistance and
medical eligibility staff. The department shall complete medicaid
applications in the HealthPlanfinder for households receiving or
applying for public assistance benefits.

(7)(a) The appropriations to the department of social and health
services in this act must be expended for the programs and in the
amounts specified in this act. However, after May 1, 2020, unless
prohibited by this act, the department may transfer general fund—
state appropriations for fiscal year 2020 among programs and
subprograms after approval by the director of the office of financial
management. However, the department may not transfer state
appropriations that are provided solely for a specified purpose except as expressly provided in (b) through (d) of this subsection.

(b) To the extent that transfers under (a) of this subsection are insufficient to fund actual expenditures in excess of fiscal year 2020 caseload forecasts and utilization assumptions in the long-term care, developmental disabilities, and public assistance programs, the department may transfer state appropriations that are provided solely for a specified purpose.

(c) Within the mental health program, the department may transfer appropriations that are provided solely for a specified purpose within and between subprograms as needed to fund actual expenditures through the end of fiscal year 2020.

(d) Within the developmental disabilities program, the department may transfer appropriations that are provided solely for a specified purpose within and between subprograms as needed to fund actual expenditures through the end of fiscal year 2020.

(e) The department may not transfer appropriations, and the director of the office of financial management may not approve the transfer, unless the transfer is consistent with the objective of conserving, to the maximum extent possible, the expenditure of state funds. The director of the office of financial management shall notify the appropriate fiscal committees of the senate and house of representatives in writing seven days prior to approving any allotment modifications or transfers under this subsection. The written notification shall include a narrative explanation and justification of the changes, along with expenditures and allotments by budget unit and appropriation, both before and after any allotment modifications or transfers.

(8) The health care authority, the health benefit exchange, the department of social and health services, the department of health, and the department of children, youth, and families shall work together within existing resources to comprise the health and human services enterprise coalition (the coalition). The coalition, led by the health care authority, must be a multi-organization collaborative that provides strategic direction, cross-organizational project support, and federal funding guidance across the coalition organizations. By October 31, 2019, the coalition must submit a report to the governor and the legislature to share the plan, status, funding needs, and next steps for the health and human services coalition projects. The coalition shall collaborate with the office
of the chief information officer and is subject to the conditions,
limitations, and review provided in section 950 of this act unless
otherwise agreed upon by the office of the chief information officer
and the office of financial management.

To ensure compliance with legislative directive budget requirements and terms and conditions of the waiver, the authority shall implement the waiver and reporting requirements with oversight from the office of financial management. The legislature finds that appropriate management of the innovation waiver requires better analytic capability, transparency, consistency, timeliness, accuracy, and lack of redundancy with other established measures and that the patient must be considered first and foremost in the implementation and execution of the demonstration waiver. In order to effectuate these goals, the authority shall: (i) Require the Dr. Robert Bree collaborative and the health technology assessment program to reduce the administrative burden upon providers by only requiring performance measures that are nonduplicative of other nationally established measures. (b) No more than $305,659,000 of the general fund—federal appropriation and no more than $157,284,000 of the general fund—local appropriation may be expended for transformation through accountable communities of health described in initiative 1 of the medicaid transformation demonstration wavier under healthier Washington, including preventing youth drug use, opioid prevention and treatment, and physical and behavioral health integration. The authority shall not increase general fund—state expenditures under this initiative. If by the third year of the demonstration waiver there are not measurable, improved patient outcomes and financial returns, the Washington state institute for public policy will conduct an audit of the accountable communities of health, in addition to the process set in place through the independent evaluation required by the agreement with centers for medicare and medicaid services.

(c) No more than $79,829,000 of the general fund—federal appropriation may be expended for supported housing and employment

(e) Sufficient amounts are appropriated in this subsection to
implement the medicaid expansion as defined in the social security

(f) The legislature finds that medicaid payment rates, as
calculated by the health care authority pursuant to the
appropriations in this act, bear a reasonable relationship to the
costs incurred by efficiently and economically operated facilities
for providing quality services and will be sufficient to enlist
enough providers so that care and services are available to the
extent that such care and services are available to the general
population in the geographic area. The legislature finds that the
cost reports, payment data from the federal government, historical
utilization, economic data, and clinical input constitute reliable
data upon which to determine the payment rates.

(g) Based on quarterly expenditure reports and caseload
forecasts, if the health care authority estimates that expenditures
for the medical assistance program will exceed the appropriations,
the health care authority shall take steps including but not limited
to reduction of rates or elimination of optional services to reduce
expenditures so that total program costs do not exceed the annual

(m) $6,000,000 of the general fund—federal appropriation is provided solely for supplemental payments to nursing homes operated by public hospital districts. The public hospital district shall be responsible for providing the required nonfederal match for the supplemental payment, and the payments shall not exceed the maximum allowable under federal rules. It is the legislature's intent that the payments shall be supplemental to and shall not in any way offset or reduce the payments calculated and provided in accordance with part E of chapter 74.46 RCW. It is the legislature's further intent that costs otherwise allowable for rate-setting and settlement against payments under chapter 74.46 RCW shall not be disallowed solely because such costs have been paid by revenues retained by the nursing home from these supplemental payments. The supplemental payments are subject to retrospective interim and final cost settlements based on the nursing homes' as-filed and final medicare cost reports. The timing of the interim and final cost settlements
shall be at the health care authority's discretion. During either the
interim cost settlement or the final cost settlement, the health care
authority shall recoup from the public hospital districts the
supplemental payments that exceed the medicaid cost limit and/or the
medicare upper payment limit. The health care authority shall apply
federal rules for identifying the eligible incurred medicaid costs

governor and legislature by November 1, 2020, and by November 1,
2021, that evaluate whether savings continue to exceed costs for this
program. If the certified public expenditures (CPE) program in its
current form is no longer cost-effective to maintain, the health care
authority shall submit a report to the governor and legislature
detailing cost-effective alternative uses of local, state, and
federal resources as a replacement for this program. During fiscal
year 2020 and fiscal year 2021, hospitals in the program shall be
paid and shall retain one hundred percent of the federal portion of
the allowable hospital cost for each medicaid inpatient fee-for-
service claim payable by medical assistance and one hundred percent
of the federal portion of the maximum disproportionate share hospital
payment allowable under federal regulations. Inpatient medicaid
payments shall be established using an allowable methodology that
approximates the cost of claims submitted by the hospitals. Payments
made to each hospital in the program in each fiscal year of the
biennium shall be compared to a baseline amount. The baseline amount
will be determined by the total of (i) the inpatient claim payment
amounts that would have been paid during the fiscal year had the
hospital not been in the CPE program based on the reimbursement rates

The grants will be recalculated and redistributed as the baseline is updated during the fiscal year. The grant payments are subject to an interim settlement within eleven months after the end of the fiscal year. A final settlement shall be performed. The appropriations in this subsection are subject to the following conditions and limitations:

(a) For the purposes of this subsection, amounts provided for behavioral health organizations shall also be available for the health care authority to contract with entities that assume the responsibilities of behavioral health organizations in regions in which the health care authority is purchasing medical and behavioral health services through fully integrated contracts pursuant to RCW 71.24.380.

(b) $9,919,000 of the general fund—state appropriation for fiscal year 2020, $13,701,000 of the general fund—state appropriation for fiscal year 2021, and $18,061,000 of the general fund—federal appropriation are provided solely for the authority and behavioral health organizations to continue to contract for implementation of high-intensity programs for assertive community treatment (PACT) teams. In determining the proportion of medicaid and nonmedicaid funding provided to behavioral health organizations with PACT teams, the authority shall consider the differences between behavioral health organizations in the percentages of services and other costs associated with the teams that are not reimbursable under medicaid. The authority may allow behavioral health organizations which have nonmedicaid reimbursable costs that are higher than the nonmedicaid allocation they receive under this section to supplement these funds with local dollars or funds received under (f) of this subsection. The authority and behavioral health organizations shall maintain consistency with all essential elements of the PACT evidence-based practice model in programs funded under this section.
(c) From the general fund—state appropriations in this subsection, the authority shall assure that behavioral health organizations reimburse the department of social and health services aging and long term support administration for the general fund—state cost of medicaid personal care services that enrolled behavioral health organization consumers use because of their psychiatric disability.

(d) $1,760,000 of the general fund—federal appropriation is provided solely for the authority to maintain a pilot project to put peer bridging staff into each behavioral health organization as part of the state psychiatric liaison teams to promote continuity of service as individuals return to their communities.

(e) $81,930,000 of the general fund—state appropriation for fiscal year 2020 and $81,930,000 of the general fund—state appropriation for fiscal year 2021 are provided solely for persons and services not covered by the medicaid program. To the extent possible, levels of behavioral health organization spending must be maintained in the following priority order: Crisis and commitment services; community inpatient services; and residential care services, including personal care and emergency housing assistance. These amounts must be distributed to behavioral health organizations proportionate to the fiscal year 2017 allocation of flexible nonmedicaid funds. The authority must include the following language in medicaid contracts with behavioral health organizations unless they are provided formal notification from the center for medicaid and medicare services that the language will result in the loss of federal medicaid participation: "The contractor may voluntarily provide services that are in addition to those covered under the state plan, although the cost of these services cannot be included when determining payment rates unless including these costs are specifically allowed under federal law or an approved waiver."

(f) The authority is authorized to continue to contract directly, rather than through contracts with behavioral health organizations for children's long-term inpatient facility services.

(g) $1,204,000 of the general fund—state appropriation for fiscal year 2020 and $1,204,000 of the general fund—state appropriation for fiscal year 2021 are provided solely to reimburse Pierce and Spokane counties for the cost of conducting one hundred eighty-day commitment hearings at the state psychiatric hospitals.
(h) Behavioral health organizations may use local funds to earn additional federal medicaid match, provided the locally matched rate does not exceed the upper-bound of their federally allowable rate range, and provided that the enhanced funding is used only to provide medicaid state plan or waiver services to medicaid clients. Additionally, behavioral health organizations may use a portion of the state funds allocated in accordance with (f) of this subsection to earn additional medicaid match, but only to the extent that the application of such funds to medicaid services does not diminish the level of crisis and commitment, community inpatient, residential care, and outpatient services presently available to persons not eligible for medicaid.

(i) $2,291,000 of the general fund—state appropriation for fiscal year 2020 and $2,291,000 of the general fund—state appropriation for fiscal year 2021 are provided solely for mental health services for mentally ill offenders while confined in a county or city jail and for facilitating access to programs that offer mental health services upon release from confinement. The authority must collect information from the behavioral health organizations on their plan for using these funds, the numbers of individuals served, and the types of services provided and submit a report to the office of financial management and the appropriate fiscal committees of the legislature by December 1st of each year of the biennium.

(j) Within the amounts appropriated in this section, funding is provided for the authority to develop and phase in intensive mental health services for high needs youth consistent with the settlement agreement in *T.R. v. Dreyfus and Porter*.

(k) The authority must establish minimum and maximum funding levels for all reserves allowed under behavioral health organization contracts and insert contract language that clearly states the requirements and limitations. The authority must monitor and ensure that behavioral health organization reserves do not exceed maximum levels. The authority must monitor behavioral health organization revenue and expenditure reports and must require a behavioral health organization to submit a corrective action plan on how it will spend its excess reserves within a reasonable period of time, when its reported reserves exceed maximum levels established under the contract. The authority must review and approve such plans and monitor to ensure compliance. If the authority determines that a behavioral health organization has failed to provide an adequate
excess reserve corrective action plan or is not complying with an approved plan, the authority must reduce payments to the behavioral health organization in accordance with remedial actions provisions included in the contract. These reductions in payments must continue until the authority determines that the behavioral health organization has come into substantial compliance with an approved excess reserve corrective action plan.

(1) $3,079,000 of the general fund—state appropriation for fiscal year 2020, $3,079,000 of the general fund—state appropriation for fiscal year 2021, and $2,892,000 of the general fund—federal appropriation are provided solely for the authority to increase rates for community hospitals that provide a minimum of two hundred medicaid psychiatric inpatient days. The authority must increase both medicaid and nonmedicaid psychiatric per-diem reimbursement rates for these providers within these amounts. The amounts in this subsection include funding for additional hold harmless payments resulting from the rate increase. The authority shall prioritize increases for hospitals not currently paid based on provider specific costs using a similar methodology used to set rates for existing inpatient facilities and the latest available cost report information. Rate increases for providers must be set so as not to exceed the amounts provided within this subsection. The rate increase related to nonmedicaid clients must be done to maintain the provider at the same percentage as currently required under WAC 182-550-4800.

(m) The number of beds allocated for use by behavioral health organizations at eastern state hospital shall be one hundred ninety two per day. The number of nonforensic beds allocated for use by behavioral health organizations at western state hospital shall be five hundred fifty-seven per day. In fiscal year 2019, the authority reduced the number of beds allocated for use by behavioral health organizations at western state hospital by thirty beds to allow for the repurposing of a civil ward at western state hospital to provide forensic services. The authority was directed to contract with community hospitals or freestanding evaluation and treatment centers to provide long-term inpatient care beds as defined in RCW 71.24.025. These contracted beds shall be allocated to the behavioral health organizations in lieu of beds at the state hospitals and be incorporated in their allocation of state hospital patient days of care for the purposes of calculating reimbursements pursuant to RCW
71.24.310. It is the intent of the legislature to continue the policy of expanding community based alternatives for long term civil commitment services that allow for state hospital beds to be prioritized for forensic patients.

(n) $11,405,000 of the general fund—state appropriation for fiscal year 2020, $11,405,000 of the general fund—state appropriation for fiscal year 2021, and $8,840,000 of the general fund—federal appropriation are provided solely to maintain enhancements of community mental health services. The authority must contract these funds for the operation of community programs in which the authority determines there is a need for capacity that allows individuals to be diverted or transitioned from the state hospitals including but not limited to: (i) Community hospital or free standing evaluation and treatment services providing short-term detention and commitment services under the involuntary treatment act to be located in the geographic areas of the King behavioral health organization, the Spokane behavioral health organization outside of Spokane county, and the Thurston Mason behavioral health organization; (ii) one new full program of an assertive community treatment team in the King behavioral health organization and two new half programs of assertive community treatment teams in the Spokane behavioral health organization and the Pierce behavioral health organization; and (iii) three new recovery support services programs in the Great Rivers behavioral health organization, the greater Columbia behavioral health organization, and the north sound behavioral health organization. In contracting for community evaluation and treatment services, the authority may not use these resources in facilities that meet the criteria to be classified under federal law as institutions for mental diseases. If the authority is unable to come to a contract agreement with a designated behavioral health organization for any of the services identified above, it may consider contracting for that service in another region that has the need for such service.

(4) CLASSIFIED STAFF ALLOCATIONS

Allocations for classified staff units providing school building-level and district-wide support services for the 2019-20 and 2020-21 school years are determined using the formula-generated staff units provided in RCW 28A.150.260 and pursuant to this subsection, and adjusted based on each district's annual average full-time equivalent student enrollment in each grade.

fossils from those lands, except as provided in RCW 79.64.130, or the
appraised value of these resources when transferred to a public
agency under RCW 79.22.060, except as provided in RCW 79.22.060(4),
must be distributed as follows:

(a) For state forestlands acquired through RCW 79.22.040 or by
exchange for lands acquired through RCW 79.22.040:

the board may increase the twenty-five percent limitation up to
twenty-seven percent.

(ii) Any balance remaining must be paid to the county in which
the land is located or, for counties participating in a land pool
created under RCW 79.22.140, to each participating county
proportionate to its contribution of asset value to the land pool as
determined by the board. Payments made under this subsection are to
be paid, distributed, and prorated, except as otherwise provided in
this section, to the various funds in the same manner as general
taxes are paid and distributed during the year of payment.

(iii) Any balance remaining, paid to a county with a population
of less than sixteen thousand, must first be applied to the reduction
of any indebtedness existing in the current expense fund of the
county during the year of payment.
(iv) With regard to moneys remaining under this subsection 1 (1)(a), within seven working days of receipt of these moneys, the 2 department shall certify to the state treasurer the amounts to be 3 distributed to the counties. The state treasurer shall distribute 4 funds to the counties four times per month, with no more than ten 5 days between each payment date.

(b) For state forestlands acquired through RCW 79.22.010 or by 6 exchange for lands acquired through RCW 79.22.010, except as provided 7 in RCW 79.64.120:

(i) Fifty percent shall be placed in the forest development 8 account.

The portion to be distributed to the state general fund shall 16 be based on the regular school levy rate under RCW 84.52.065 (1) and 17 (2) and the levy rate for any maintenance and operation special 18 school levies. With regard to the portion to be distributed to the 19 counties, the department shall certify to the state treasurer the 20 amounts to be distributed within seven working days of receipt of the 21 money. The state treasurer shall distribute funds to the counties 22 four times per month, with no more than ten days between each payment 23 date. The money distributed to the county must be paid, distributed, 24 and prorated to the various other funds in the same manner as general 25 taxes are paid and distributed during the year of payment.

(2) A school district may transfer amounts deposited in its debt 26 service fund pursuant to this section into its capital projects fund 27 as authorized in RCW 28A.320.330.

Sec. 967. RCW 79.105.150 and 2018 c 299 s 914 are each amended 30 to read as follows:

(1) After deduction for management costs as provided in RCW 31 79.64.040 and payments to towns under RCW 79.115.150(2), all moneys 32 received by the state from the sale or lease of state-owned aquatic 33 lands and from the sale of valuable material from state-owned aquatic 34 lands shall be deposited in the aquatic lands enhancement account
which is hereby created in the state treasury. After appropriation, these funds shall be used solely for aquatic lands enhancement projects; for the purchase, improvement, or protection of aquatic lands for public purposes; for providing and improving access to the lands; and for volunteer cooperative fish and game projects. During the ((2013-2015, 2015-2017, and)) 2017-2019 and 2019-2021 fiscal biennia, the aquatic lands enhancement account may be used to support the shellfish program, the ballast water program, hatcheries, the Puget Sound toxic sampling program and steelhead mortality research at the department of fish and wildlife, the knotweed program at the department of agriculture, actions at the University of Washington for reducing ocean acidification, which may include the creation of a center on ocean acidification, the Puget SoundCorps program, and support of the marine resource advisory council and the Washington coastal marine advisory council. During the ((2013-2015 and)) 2017-2019 and 2019-2021 fiscal biennia, the legislature may transfer from the aquatic lands enhancement account to the geoduck aquaculture research account for research related to shellfish aquaculture. During the 2015-2017 fiscal biennium, the legislature may transfer moneys from the aquatic lands enhancement account to the marine resources stewardship trust account.

(2) In providing grants for aquatic lands enhancement projects, the recreation and conservation funding board shall:

(a) Require grant recipients to incorporate the environmental benefits of the project into their grant applications;

(b) Utilize the statement of environmental benefits, consideration, except as provided in RCW 79.105.610, of whether the applicant is a Puget Sound partner, as defined in RCW 90.71.010, whether a project is referenced in the action agenda developed by the Puget Sound partnership under RCW 90.71.310, and except as otherwise provided in RCW 79.105.630, and effective one calendar year following the development and statewide availability of model evergreen community management plans and ordinances under RCW 35.105.050, whether the applicant is an entity that has been recognized, and what gradation of recognition was received, in the evergreen community recognition program created in RCW 35.105.030 in its prioritization and selection process; and

(c) Develop appropriate outcome-focused performance measures to be used both for management and performance assessment of the grants.
(3) To the extent possible, the department should coordinate its performance measure system with other natural resource-related agencies as defined in RCW 43.41.270.

(4) The department shall consult with affected interest groups in implementing this section.

(5) Any project designed to address the restoration of Puget Sound may be funded under this chapter only if the project is not in conflict with the action agenda developed by the Puget Sound partnership under RCW 90.71.310.

Sec. 968. RCW 70.105D.070 and 2018 c 299 s 911 are each amended to read as follows:

(1) The state toxics control account and the local toxics control account are hereby created in the state treasury.

terms of such funding are established under a settlement agreement
under RCW 70.105D.040(4) and when the director has found that the
funding will achieve both: (i) A substantially more expeditious or
enhanced cleanup than would otherwise occur; and (ii) the prevention
or mitigation of unfair economic hardship;

(l) Development and demonstration of alternative management
technologies designed to carry out the hazardous waste management
priorities of RCW 70.105.150;

(ii) The amount and terms of the funding are established under a settlement agreement under RCW 70.105D.040(5); and

(iii) The director has found the funding meets any additional criteria established in rule by the department, will achieve a substantially more expeditious or enhanced cleanup than would otherwise occur, and will provide a public benefit in addition to cleanup commensurate with the scope of the public funding;

(r) Petroleum-based plastic or expanded polystyrene foam debris cleanup activities in fresh or marine waters;

(s) Appropriations to the local toxics control account or the environmental legacy stewardship account created in RCW 70.105D.170, if the legislature determines that priorities for spending exceed available funds in those accounts;

(t) During the ((2015–2017 and)) 2017-2019 and 2019-2021 fiscal biennia, the department of ecology's water quality, shorelands, environmental assessment, administration, and air quality programs;

(u) During the ((2013–2015)) 2019-2021 fiscal biennium, actions at the state conservation commission to improve water quality for shellfish;

(v) ((During the 2013–2015 and 2015–2017 fiscal biennia, actions at the University of Washington for reducing ocean acidification;

(w)) During the ((2015–2017 and)) 2017-2019 and 2019-2021 fiscal biennia, for the University of Washington Tacoma soil remediation project; and

((x)) For the 2013-2015 fiscal biennium, moneys in the state toxics control account may be spent on projects in section 3160, chapter 19, Laws of 2013 2nd sp. sess. and for transfer to the local toxics control account;

(y) For the 2013-2015 fiscal biennium, moneys in the state toxics control account may be transferred to the radioactive mixed waste account; and

((z))) (w) For the ((2015–2017 and)) 2017-2019 and 2019-2021 fiscal biennia, forest practices regulation at the department of natural resources.
(4)(a) The department shall use moneys deposited in the local toxics control account for grants or loans to local governments for the following purposes in descending order of priority:

(i) Extended grant agreements entered into under (c)(i) of this subsection;

(ii) Remedial actions, including planning for adaptive reuse of properties as provided for under (c)(iv) of this subsection. The department must prioritize funding of remedial actions at:

(A) Facilities on the department's hazardous sites list with a high hazard ranking for which there is an approved remedial action work plan or an equivalent document under federal cleanup law;

(B) Brownfield properties within a redevelopment opportunity zone if the local government is a prospective purchaser of the property and there is a department-approved remedial action work plan or equivalent document under the federal cleanup law;

(iii) Stormwater pollution source projects that: (A) Work in conjunction with a remedial action; (B) protect completed remedial actions against recontamination; or (C) prevent hazardous clean-up sites;

(iv) Hazardous waste plans and programs under chapter 70.105 RCW;

(v) Solid waste plans and programs under chapters 70.95, 70.95C, 70.95I, and 70.105 RCW;

(vi) Petroleum-based plastic or expanded polystyrene foam debris cleanup activities in fresh or marine waters; and

(vii) Appropriations to the state toxics control account or the environmental legacy stewardship account created in RCW 70.105D.170, if the legislature determines that priorities for spending exceed available funds in those accounts.

(b) Funds for plans and programs must be allocated consistent with the priorities and matching requirements established in chapters 70.105, 70.95C, 70.95I, and 70.95 RCW.

(c) (During the 2013-2015 fiscal biennium, the local toxics control account may also be used for local government stormwater planning and implementation activities.

(d) During the 2013-2015 fiscal biennium, the legislature may transfer from the local toxics control account to the state general fund, such amounts as reflect the excess fund balance in the account.

(e)) To expedite cleanups throughout the state, the department may use the following strategies when providing grants to local governments under this subsection:

p. 274  SB 5153
Enter into an extended grant agreement with a local government conducting remedial actions at a facility where those actions extend over multiple biennia and the total eligible cost of those actions exceeds twenty million dollars. The agreement is subject to the following limitations:

(A) The initial duration of such an agreement may not exceed ten years. The department may extend the duration of such an agreement upon finding substantial progress has been made on remedial actions at the facility;

(B) Extended grant agreements may not exceed fifty percent of the total eligible remedial action costs at the facility; and

(C) The department may not allocate future funding to an extended grant agreement unless the local government has demonstrated to the department that funds awarded under the agreement during the previous biennium have been substantially expended or contracts have been entered into to substantially expend the funds;

(ii) Enter into a grant agreement with a local government conducting a remedial action that provides for periodic reimbursement of remedial action costs as they are incurred as established in the agreement;

(iii) Enter into a grant agreement with a local government prior to it acquiring a property or obtaining necessary access to conduct remedial actions, provided the agreement is conditioned upon the local government acquiring the property or obtaining the access in accordance with a schedule specified in the agreement;

(iv) Provide integrated planning grants to local governments to fund studies necessary to facilitate remedial actions at brownfield properties and adaptive reuse of properties following remediation. Eligible activities include, but are not limited to: Environmental site assessments; remedial investigations; health assessments; feasibility studies; site planning; community involvement; land use and regulatory analyses; building and infrastructure assessments; economic and fiscal analyses; and any environmental analyses under chapter 43.21C RCW;

(v) Provide grants to local governments for remedial actions related to area-wide groundwater contamination. To receive the funding, the local government does not need to be a potentially liable person or be required to seek reimbursement of grant funds from a potentially liable person;
The director may alter grant matching requirements to create incentives for local governments to expedite cleanups when one of the following conditions exists:

(A) Funding would prevent or mitigate unfair economic hardship imposed by the clean-up liability;

(B) Funding would create new substantial economic development, public recreational opportunities, or habitat restoration opportunities that would not otherwise occur; or

(C) Funding would create an opportunity for acquisition and redevelopment of brownfield property under RCW 70.105D.040(5) that would not otherwise occur;

(vii) When pending grant applications under ((((e)) (c)(iv) and (v) of this subsection (4) exceed the amount of funds available, designated redevelopment opportunity zones must receive priority for distribution of available funds.

((f)) (d) To expedite multiparty clean-up efforts, the department may purchase remedial action cost-cap insurance. (For the 2013-2015 fiscal biennium, moneys in the local toxics control account may be spent on projects in sections 3024, 3035, 3036, and 3059, chapter 19, Laws of 2013 2nd sp. sess.)

(5) Except for unanticipated receipts under RCW 43.79.260 through 43.79.282, moneys in the state and local toxics control accounts may be spent only after appropriation by statute.

(6) No moneys deposited into either the state or local toxics control account may be used for: Natural disasters where there is no hazardous substance contamination; high performance buildings; solid waste incinerator facility feasibility studies, construction, maintenance, or operation; or projects designed to address the restoration of Puget Sound, funded in a competitive grant process, that are in conflict with the action agenda developed by the Puget Sound partnership under RCW 90.71.310. However, this subsection does not prevent an appropriation from the state toxics control account to the department of revenue to enforce compliance with the hazardous substance tax imposed in chapter 82.21 RCW.

(7) ((Except during the 2011-2013 and the 2015-2017 fiscal biennia,)) One percent of the moneys collected under RCW 82.21.030 shall be allocated only for public participation grants to persons who may be adversely affected by a release or threatened release of a hazardous substance and to not-for-profit public interest organizations. The primary purpose of these grants is to facilitate
the participation by persons and organizations in the investigation
andremedying of releases or threatened releases of hazardous
substances and to implement the state’s solid and hazardous waste
management priorities. No grant may exceed sixty thousand dollars.
Grants may be renewed annually. Moneys appropriated for public
participation that are not expended at the close of any biennium
revert to the state toxics control account.

(8) The department shall adopt rules for grant or loan issuance
andperformance. Toaccelerate both remedial action and economic
recovery, the department may expedite the adoption of rules necessary
toimplement chapter 1, Laws of 2013 2nd sp. sess. using the
expedited procedures in RCW 34.05.353. The department shall initiate
theaward of financial assistance by August 1, 2013. Toensure the
adoption of rules will not delay financial assistance, the department
mayadminister the award of financial assistance through interpretive
guidance pending the adoption of rules through July 1, 2014.

(9) Except as provided under subsection (3)(k) and (q) of this
section, nothing in chapter 1, Laws of 2013 2nd sp. sess. affects the
ability of a potentially liable person to receive public funding.

(10) ((During the 2015-2017 fiscal biennium the local toxics
control account may also be used for the centennial clean water
program and for the stormwater financial assistance program
administered by the department of ecology.)) During the 2017-2019 fiscal biennium:

(a) The state toxics control account, the local toxics control
account, and the environmental legacy stewardship account may be used
for interchangeable purposes and funds may be transferred between
accounts to accomplish those purposes.

(b) The legislature may direct the state treasurer to make
transfers of moneys in the state toxics control account to the water
pollution control revolving account.

Sec. 969. RCW 90.50A.090 and 2013 c 96 s 2 are each amended to
read as follows:

(1) The water pollution control revolving administration account
is created in the state treasury. All receipts from charges
authorized in this section must be deposited in the account. Moneys
in the account may be spent only after appropriation. Expenditures
from the account may be used only in a manner consistent with this
section.
(2) The department is authorized to assess administration charges as a portion of the debt service for loans issued under the water pollution control revolving fund created in RCW 90.50A.020. The sole purpose of assessing administration charges is to predictably and adequately fund the department's costs of administering the water pollution control revolving fund loan program, as identified in subsection (5) of this section. The department must assess administration charges on each water pollution control revolving fund loan at the point the loan enters repayment status, after July 28, 2013, and rule changes are adopted to implement the administration charge. Loans that are at an interest rate below the established administration charge rate are exempt from the administration charge.

(3) The water pollution control revolving administration account consists of:

(a) Any administration charge levied by the department in conjunction with administration of the water pollution control revolving fund; and

(b) Any other revenues derived from gifts, grants, or bequests pledged to the state for the purpose of administering the water pollution control revolving fund.

(4) The state treasurer may invest and reinvest moneys in the water pollution control revolving administration account in the manner provided by law. All earnings from such investment and reinvestment must be credited to the water pollution control revolving administration account.

(5) Moneys in the water pollution control revolving administration account are to be used for the following water pollution control revolving fund loan program costs:

(a) Administration costs associated with conducting application processes, managing contracts, collecting loan repayments, managing the revolving fund, providing technical assistance, and meeting state and federal reporting requirements; and

(b) Information and data system costs associated with loan tracking and fund management.

(6) Each biennium, the department may spend from the water pollution control revolving administration account an amount no greater than four percent of the water pollution control revolving fund new capital appropriation.

(7) For its 2017-2019 biennial operating budget submittal, and every biennium thereafter, the department must compare the projected...
water pollution control revolving administration account balance and
the projected administration charge income with projected program
costs, including an adequate working capital reserve as defined by
the office of financial management. In its submittal to the office of
financial management, the department may:

(a) Find that the projected administration charge income is
inadequate to fund the cost of administering the program, and that
the rate of the charge must be increased. However, the administration
charge may never exceed one percent on the declining principal loan
balance;

(b) Find that the projected administration charge income exceeds
what is needed to fund the cost of administering the program, and
that the rate of the charge must be decreased;

(c) Find that there is an excess balance in the revolving
administration account, and that the excess must be transferred to
the water pollution control revolving fund to be used for loans; or

(d) Find that there is no need for any rate adjustments or
balance transfers.

(8) At the point where the water pollution control revolving
administration account adequately covers the program administration
costs, the department may no longer use the federal administration
allowance. If a federal capitalization grant is awarded after that
point, all federal capitalization dollars must be used for making
loans.

(9) By December 1, 2018, the department must submit to the
appropriate legislative fiscal committees a report on implementation
of the administration charge, including information on: The amount of
income the administration charge has produced since its inception;
the uses and adequacy of the income for administrative costs; any
excess balances that have been transferred to the water pollution
control revolving fund; and any additional sources that the
department is using for program administration.

(10) During the 2019-2021 fiscal biennium, the legislature may
direct the state treasurer to make transfers of moneys in the water
pollution control revolving administration account to the water
pollution control revolving account.

NEW SECTION. Sec. 970. If any provision of this act or its
application to any person or circumstance is held invalid, the
remainder of the act or the application of the provision to other persons or circumstances is not affected.

NEW SECTION. Sec. 971. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately.
