CERTIFICATION OF ENROLLMENT

SUBSTITUTE SENATE BILL 5068

67th Legislature 2021 Regular Session

Passed by the Senate February 25, 2021 Yeas 46 Nays 0

President of the Senate

Passed by the House April 5, 2021 Yeas 96 Nays 1

CERTIFICATE

I, Brad Hendrickson, Secretary of the Senate of the State of Washington, do hereby certify that the attached is SUBSTITUTE SENATE
BILL 5068 as passed by the Senate and the House of Representatives on the dates hereon set forth.

Secretary

Speaker of the House of Representatives

Approved

FILED

Secretary of State State of Washington

Governor of the State of Washington

SUBSTITUTE SENATE BILL 5068

Passed Legislature - 2021 Regular Session

State of Washington 67th Legislature 2021 Regular Session

By Senate Ways & Means (originally sponsored by Senators Randall, Rivers, Billig, Cleveland, Conway, Darneille, Das, Dhingra, Frockt, Hasegawa, Hunt, Keiser, Kuderer, Liias, Lovelett, Muzzall, Nguyen, Nobles, Saldaña, Salomon, Stanford, Warnick, and Wilson, C.)

READ FIRST TIME 02/19/21.

1 AN ACT Relating to improving maternal health outcomes by 2 extending coverage during the postpartum period; adding a new section 3 to chapter 74.09 RCW; and creating new sections.

4 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

5 <u>NEW SECTION.</u> Sec. 1. (1) In Washington and across the country, 6 maternal mortality rates continue to be unacceptably high. The 7 maternal mortality rate in the United States is higher than in most 8 developed countries. Approximately 700 people die each year in the 9 United States due to pregnancy-related conditions. The majority of 10 these deaths are preventable.

11 (2)National and state maternal mortality data reveals 12 significant racial and ethnic disparities. Nationally, black women 13 are two to three times more likely to die from a pregnancy-related 14 cause than white women. In this state, data from the maternal mortality review panel reveals that American Indian and Alaska Native 15 16 women are six to seven times as likely to die from a pregnancy-17 related cause than white women. Significant disparities in maternal 18 mortality rates also exist for Hispanic, Asian, and multiracial women 19 in Washington.

20 (3) Over 50 percent of pregnancy-related deaths in Washington 21 state are women enrolled in medicaid. In 2019, medicaid covered almost 37,000 births which is nearly half of the total of nonmilitary
 births in Washington state.

3 (4) The centers for disease control and prevention find 4 pregnancy-related deaths occur up to one year postpartum, and data 5 shows that health needs continue during that entire year. In 6 Washington, nearly one-third of all pregnancy-related deaths and the 7 majority of suicides and accidental overdoses occurred between 43 and 8 365 days postpartum.

(5) The maternal mortality review panel has identified access to 9 health care services and gaps in continuity of care, especially 10 11 during the postpartum period, as factors that contribute to 12 preventable pregnancy-related deaths. In their October 2019 report to the legislature, the panel recommended ensuring funding and access to 13 14 postpartum care and support through the first year after pregnancy. 15 The panel also recommended addressing social determinants of health, 16 structural racism, provider biases, and other social inequities to 17 reduce maternal mortality in priority populations.

18 (6) Approximately 50,000 people also experience serious 19 complications from childbirth each year, resulting in increased 20 medical costs, longer hospitalization stays, and long-term health 21 effects.

(7) Postpartum medicaid coverage currently ends 60 days after 22 23 pregnancy, creating an unsafe gap in coverage. Continuity of care is critical during this vulnerable time, and uninterrupted health care 24 25 coverage provides birthing parents with access to stable and consistent care. Extending health care coverage through the first 26 year postpartum is one of the best tools for increasing access to 27 28 care and improving maternal and infant health. A health impact review published by the state board of health found very strong evidence 29 that this policy would decrease inequities by race and ethnicity, 30 31 immigration status, socioeconomic status, and geography.

32 (8) During the public health emergency, a federal maintenance of 33 effort requirement has extended medicaid coverage beyond 60 days postpartum. This extension is critical, with pregnancy-related deaths 34 increasing due to COVID-19. Pregnant women are more likely to be 35 admitted to the intensive care unit and receive invasive ventilation 36 37 and are at increased risk of death compared to nonpregnant women. The pandemic has also exacerbated the behavioral health challenges 38 39 normally faced in the pregnancy and postpartum period. It has also 40 highlighted and contributed to increased housing crises. Even outside

p. 2

of the pandemic, research shows that pregnancy can increase a woman's risk of becoming homeless, and pregnant women face significantly greater health risks while unstably housed. The legislature is committed to continuing coverage for this population beyond the maintenance of effort requirement.

6 (9) Pending federal legislation, the helping moms act, would 7 provide federal matching funds to states that provide one year of 8 postpartum coverage under medicaid and the children's health 9 insurance program.

10 (10) The legislature therefore intends to extend health care 11 coverage from 60 days to 12 months postpartum.

12 <u>NEW SECTION.</u> Sec. 2. A new section is added to chapter 74.09 13 RCW to read as follows:

(1) The authority shall extend health care coverage from 60 days postpartum to one year postpartum for pregnant or postpartum persons who, on or after the expiration date of the federal public health emergency declaration related to COVID-19, are receiving postpartum coverage provided under this chapter.

19

(2) By June 1, 2022, the authority must:

(a) Provide health care coverage to postpartum persons who reside
 in Washington state, have countable income equal to or below 193
 percent of the federal poverty level, and are not otherwise eligible
 under Title XIX or Title XXI of the federal social security act; and

(b) Ensure all persons approved for pregnancy or postpartum
 coverage at any time are continuously eligible for postpartum
 coverage for 12 months after the pregnancy ends regardless of whether
 they experience a change in income during the period of eligibility.

(3) Health care coverage under this section must be provided during the 12-month period beginning on the last day of the pregnancy.

31 (4) The authority shall not provide health care coverage under this section to individuals who are eligible to receive health care 32 coverage under Title XIX or Title XXI of the federal social security 33 act. Health care coverage for these individuals shall be provided by 34 35 a program that is funded by Title XIX or Title XXI of the federal social security act. Further, the authority shall make every effort 36 to expedite and complete eligibility determinations for individuals 37 who are presumptively eligible to receive health care coverage under 38 Title XIX or Title XXI of the federal social security act to ensure 39

SSB 5068.PL

the state is receiving the maximum federal match. This includes, but 1 is not limited to, working with the managed care organizations to 2 3 provide continuous outreach in various modalities until the individual's eligibility determination is completed. 4 Beginning January 1, 2022, the authority must submit quarterly reports to the 5 6 caseload forecast work group on the number of individuals who are 7 presumptively eligible to receive health care coverage under Title XIX or Title XXI of the federal social security act but are awaiting 8 for the authority to complete eligibility determination, the number 9 of individuals who were presumptively eligible but are now receiving 10 11 health care coverage with the maximum federal match under Title XIX 12 or Title XXI of the federal social security act, and outreach activities including the work with managed care organizations. 13

14 (5) To ensure continuity of care and maximize the efficiency of 15 the program, the amount and scope of health care services provided to 16 individuals under this section must be the same as that provided to 17 pregnant and postpartum persons under medical assistance, as defined 18 in RCW 74.09.520.

19 (6) In administering this program, the authority must seek any financial participation under the 20 available federal medical 21 assistance program, as codified at Title XIX of the federal social security act, the state children's health insurance program, 22 as 23 codified at Title XXI of the federal social security act, and any other federal funding sources that are now available or may become 24 25 available. This includes, but is not limited to, ensuring the state is receiving the maximum federal match for individuals who are 26 presumptively eligible to receive health care coverage under Title 27 28 XIX or Title XXI of the federal social security act by expediting 29 completion of the individual's eligibility determination.

(7) Working with stakeholder and community organizations and the 30 31 Washington health benefit exchange, the authority must establish a 32 comprehensive community education and outreach campaign to facilitate 33 applications for and enrollment in the program or into a more appropriate program where the state receives maximum federal match. 34 Subject to the availability of amounts appropriated for this specific 35 36 purpose, the education and outreach campaign must provide culturally and linguistically accessible information to facilitate participation 37 in the program, including but not limited to enrollment procedures, 38 39 program services, and benefit utilization.

p. 4

1 (8) Beginning January 1, 2022, the managed care organizations contracted with the authority to provide postpartum coverage must 2 annually report to the legislature on their work to improve maternal 3 health for enrollees, including but not limited to postpartum 4 services offered to enrollees, the percentage of enrollees utilizing 5 6 each postpartum service offered, outreach activities to engage 7 enrollees in available postpartum services, and efforts to collect eligibility information for the authority to ensure the enrollee is 8 9 in the most appropriate program for the state to receive the maximum federal match. 10

11 NEW SECTION. Sec. 3. Unless federal matching funds become available by the effective date of this section, the health care 12 13 authority must submit a waiver request to the federal centers for medicare and medicaid services to allow for the state to receive 14 15 federal match for the coverage of postpartum persons identified in 16 section 2 of this act. The authority shall provide coverage to all 17 eligible postpartum persons identified under section 2 of this act regardless of federal approval of the waiver request. The authority 18 19 must report to the legislature on the status of the waiver request by 20 December 1, 2021, and inform the legislature of any statutory changes 21 necessary to allow the state to receive federal match for the 22 coverage of postpartum persons identified in section 2 of this act.
