9 "outpatient"

10

EFFECT: Removes the requirement to provide education on all pharmacological treatment options to patients seeking treatment for opioid use disorder or alcohol use disorder as applied to hospitals and psychiatric hospitals, including behavioral health agencies that are units within a hospital or psychiatric hospital. Removes the requirement that the patient education discuss forms of treatment that are covered by the patient's insurance (retains the requirement to discuss clinically appropriate forms of treatment).

Specifies that reimbursement by the health carriers, the Public Employees Benefits Board and the School Employees Benefits Board, and managed care organizations to hospitals and psychiatric hospitals for opioid overdose reversal medication and long-acting injectable buprenorphine applies when provided on an outpatient basis.
