

RCW 46.71.011 Definitions. For purposes of this chapter:

(1) An "aftermarket body part" or "nonoriginal equipment manufacturer body part" is an exterior body panel or nonstructural body component manufactured by someone other than the original equipment manufacturer and supplied through suppliers other than those in the manufacturer's normal distribution channels.

(2) "Automotive repair" includes but is not limited to:

(a) All repairs to vehicles subject to chapter 46.16A RCW that are commonly performed in a repair facility by a motor vehicle technician including the diagnosis, installation, exchange, or repair of mechanical or electrical parts or units for any vehicle, the performance of any electrical or mechanical adjustment to any vehicle, or the performance of any service work required for routine maintenance or repair of any vehicle. However, commercial fleet repair or maintenance transactions involving two or more vehicles or ongoing service or maintenance contracts involving vehicles used primarily for business purposes are not included;

(b) All work in facilities that perform one or more specialties within the automotive repair service industry including, but not limited to, body collision repair, refinishing, brake, electrical, exhaust repair or installation, frame, unibody, front-end, radiators, tires, transmission, tune-up, and windshield; and

(c) The removal, replacement, or repair of exterior body panels, the removal, replacement, or repair of structural and nonstructural body components, the removal, replacement, or repair of collision damaged suspension components, and the refinishing of automotive components.

(3) "Automotive repair facility" or "repair facility" means any person, firm, association, or corporation who for compensation engages in the business of automotive repair or diagnosis, or both, of malfunctions of motor vehicles subject to licensure under chapter 46.16A RCW and repair and refinishing auto-body collision damage as well as overall refinishing and cosmetic repairs.

(4) A "rebuilt" part consists of a used assembly that has been dismantled and inspected with only the defective parts being replaced.

(5) A "remanufactured" part consists of a used assembly that has been dismantled with the core parts being remachined and all other parts replaced with new parts so as to provide performance comparable to that found originally. [2011 c 171 § 92; 1993 c 424 § 2.]

Intent—Effective date—2011 c 171: See notes following RCW 4.24.210.

Severability—Effective date—1993 c 424: See notes following RCW 46.71.005.
