

RCW 70A.65.250 Climate investment account. (1)(a) The climate investment account is created in the state treasury. Except as otherwise provided in chapter 316, Laws of 2021, all receipts from the auction of allowances authorized in this chapter must be deposited into the account. Moneys in the account may be spent only after appropriation.

(b) Projects or activities funded from the account must meet high labor standards, including family sustaining wages, providing benefits including health care and employer-contributed retirement plans, career development opportunities, and maximize access to economic benefits from such projects for local workers and diverse businesses. Each contracting entity's proposal must be reviewed for equity and opportunity improvement efforts, including: (i) Employer paid sick leave programs; (ii) pay practices in relation to living wage indicators such as the federal poverty level; (iii) efforts to evaluate pay equity based on gender identity, race, and other protected status under Washington law; (iv) facilitating career development opportunities, such as apprenticeship programs, internships, job-shadowing, and on-the-job training; and (v) employment assistance and employment barriers for justice affected individuals.

(2) Moneys in the account may be used only for projects and programs that achieve the purposes of the greenhouse gas emissions cap and invest program established under this chapter and for tribal capacity grants under RCW 70A.65.305. Moneys in the account as described in this subsection must first be appropriated for the administration of the requirements of this chapter, in an amount not to exceed five percent of the total receipt of funds from allowance auction proceeds under this chapter. Beginning July 1, 2023, and annually thereafter, the state treasurer shall distribute funds in the account that exceed the amounts appropriated for the purposes of this subsection (2) as follows:

(a) Seventy-five percent of the moneys to the climate commitment account created in RCW 70A.65.260; and

(b) Twenty-five percent of the moneys to the natural climate solutions account created in RCW 70A.65.270.

(3) The allocations specified in subsection (2)(a) and (b) of this section must be reviewed by the legislature on a biennial basis based on the changing needs of the state in meeting its clean economy and greenhouse gas reduction goals in a timely, economically advantageous, and equitable manner.

(4) During the 2023-2025 fiscal biennium, the legislature may direct the state treasurer to make transfers of moneys in the climate investment account to the carbon emissions reduction account, the climate commitment account, and the natural climate solutions account.
