

RCW 70A.100.010 Legislative declaration. The legislature hereby finds that an adequate supply of potable water for domestic, commercial, and industrial use is vital to the health and well-being of the people of the state. Readily available water for use in public water systems is limited and should be developed and used efficiently with a minimum of loss or waste.

In order to maximize efficient and effective development of the state's public water supply systems, the department of health shall assist water purveyors by providing a procedure to coordinate the planning of the public water supply systems. [1991 c 3 § 365; 1977 ex.s. c 142 § 1. Formerly RCW 70.116.010.]
