

RCW 70A.500.110 Covered electronic sampling. (1) For program years 2009 through 2014, an independent plan and the standard plan must implement and finance an auditable, statistically significant sampling of covered electronic products entering its program every program year. The information collected must include a list of the brand names of covered electronic products by product type, the number of covered electronic products by product type, the weight of covered electronic products that are identified for each brand name or that lack a manufacturer's brand, the total weight of the sample by product type, and any additional information needed to assign return share.

(2) For program years 2009 through 2014, the sampling must be conducted in the presence of the department or a third-party organization approved by the department. The department may, at its discretion, audit the methodology and the results.

(3) After the fifth program year through the 2014 program year, the department may reassess the sampling required in this section. The department may adjust the frequency at which manufacturers must implement the sampling or may adjust the frequency at which manufacturers must provide certain information from the sampling. Prior to making any changes, the department shall notify the public, including all registered manufacturers, and provide a comment period. The department shall notify all registered manufacturers of any such changes. [2013 c 305 § 5; 2006 c 183 § 11. Formerly RCW 70.95N.110.]

Effective date—2013 c 305: See note following RCW 70A.500.020.
