

**RCW 70A.525.010 Definitions.** The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Covered entity" means a manufacturer of a covered product and a wholesaler, supplier, or retailer that has contractually undertaken responsibility to the manufacturer for the "do not flush" labeling of a covered product.

(2) "Covered product" means a nonflushable nonwoven disposable wipe that is a premoistened wipe constructed from nonwoven sheets and designed and marketed for diapering, personal hygiene, or household hard surface cleaning purposes. A nonflushable nonwoven disposable wipe excludes any wipe product designed or marketed for cleaning or medicating the anorectal or vaginal areas on the human body and labeled "flushable," "sewer safe," "septic safe," or otherwise indicating that the product is appropriate for disposal in a toilet including, but not limited to, premoistened toilet tissue.

(3) "Label" means to represent by statement, word, picture, design, or emblem on a covered product package.

(4) "Principal display panel" means the side of a product package that is most likely to be displayed, presented, or shown under customary conditions of display for retail sale. The term is further defined as follows:

(a) In the case of a cylindrical or nearly cylindrical package, the surface area of the principal display panel constitutes forty percent of the product package, as measured by multiplying the height of the container times the circumference.

(b) In the case of a flexible film package, in which a rectangular prism or nearly rectangular prism stack of wipes is housed within the film, the surface area of the principal display panel constitutes the length times the width of the side of the package when the flexible packaging film is pressed flat against the stack of wipes on all sides of the stack. [2020 c 121 § 2.]
