

RCW 70.58A.005 Purpose. (1) Protection of public health requires a vital records system that provides proof of vital life events and gathers population health data for assessment, evaluation, research, and other public health purposes. An efficient and effective vital records system is a foundational public health service to support a healthy and productive population.

(2) The purpose of this chapter is to provide a framework for ongoing administration of a single comprehensive vital records system in the state that is operated and maintained by the department, under the supervision of the state registrar, to preserve the security, integrity, and confidentiality of state vital records and vital statistics, established under RCW 43.70.130 and this chapter. [2019 c 148 s 1.]
