

RCW 70A.455.060 Plastic food service products/film products—

Identification. (1) (a) A producer of plastic food service products or film products that meet ASTM standard specification D6400 or ASTM standard specification D6868 must ensure that the items are readily and easily identifiable from other plastic food service products or plastic film products in a manner that is consistent with the federal trade commission guides.

(b) Film bags are exempt from the requirements of this section, and are instead subject to the requirements of RCW 70A.455.050.

(2) For the purposes of this section, "readily and easily identifiable" products must:

(a) Be labeled with a logo indicating the product has been certified by a recognized third-party independent verification body as meeting the ASTM standard specification;

(b) Be labeled with the word "compostable," where possible, indicating the food packaging or film product has been tested by a recognized third-party independent body and meets the ASTM standard specification;

(c) Meet industry standards for being distinguishable upon quick inspection in both public sorting areas and in processing facilities;

(d) If the product is a plastic food service product or food contact film product, be at least partially colored or partially tinted green, beige, or brown, or have a green, beige, or brown stripe or band at least .25 inches wide; and

(e) If the product is a nonfood contact film product, be at least partially colored or partially tinted green or have a green stripe or band at least .25 inches wide and display the word "compostable."

(3) It is encouraged that each product described in subsection (1) of this section display labeling language via printing, embossing, or compostable adhesive stickers using, when possible, either the colors green, beige, or brown that contrast with background product color for easy identification.

(4) Graphic elements are encouraged to increase legibility of the word "compostable" and overall product distinction that may include text boxes, stripes, bands, or a green, beige, or brown tint of the product.

(5) A producer is required to comply with this section only to the extent that the labeling requirements do not conflict with the federal trade commission guides. [2022 c 180 s 805; 2020 c 20 s 1446; 2019 c 265 s 6. Formerly RCW 70.360.060.]
