Chapter 220-44 WAC
COASTAL WATERS—MARINE FISH

WAC

220-44-050

Coastal bottomfish catch limits.

WAC 220-44-050 Coastal bottomfish catch limits.

It is unlawful to possess, transport through the waters of the state, or land in any Washington state port bottomfish taken from Marine Fish-Shellfish Management and Catch Reporting Areas 29, 58B, 59A, 59B, 60A, 61, 62, or 63 in excess of the amounts or less than the minimum sizes shown below for the species indicated. All weights are in round pounds:

(1) The following definitions apply to this section:

(a) Cumulative limit. A cumulative limit is the maximum amount of fish that may be taken and retained, possessed or landed per vessel per calendar month, without a limit on the number of landings or trips. The cumulative limit includes all fish harvested by a vessel during the month, whether taken in limited entry or open access fisheries. Once a cumulative limit has been achieved, an operator may begin fishing on the next cumulative limit so long as the fish are not landed until after the beginning of the next cumulative limit.

(b) Vessel trip. A vessel trip is defined as having occurred upon the initiation of transfer of catch from a fishing vessel.

(c) Vessel trip limit. The amount of fish that may not be exceeded per vessel trip. All fish aboard a fishing vessel upon the initiation of transfer of catch are to be counted towards the vessel trip limit.

(d) Daily trip limit. The maximum amount of fish that may be taken and retained, possessed, or landed per vessel from a single fishing trip in 24 consecutive hours, starting at 0001 hours local time.

(e) Groundfish limited entry fishery - Fishing activity by a trawl, setline or bottomfish pot equipped vessel that has received a federal limited entry permit issued by the National Marine Fisheries Service endorsed for the qualifying gear type.

(f) Groundfish open access fishery - Fishing activity by a vessel equipped with setline or bottomfish pot gear that has not received a federal limited entry permit, or a vessel using gear other than trawl, setline or bottomfish pot gear.

(g) Dressed length - The dressed length of a fish is the distance from the anterior insertion of the first dorsal fin to the tip of the tail.

(2) Groundfish limited entry fishery limits. The following limits apply to the groundfish limited entry fishery in Coastal Marine Fish-Shellfish Management and Catch Reporting Areas 58B, 59A, 59B, 60A, 61, 62, and 63, and apply to all listed bottomfish species and species complexes taken in Puget Sound Marine Fish-Shellfish Management and Catch Reporting Area 29:

(a) Pacific Ocean perch - Cumulative limit of 6,000 pounds. No minimum size.

(b) Widow rockfish - Cumulative limit of 30,000 pounds. No minimum size.

(c) Shortbelly rockfish - No maximum poundage. No minimum size.

(d) Black rockfish - The vessel trip limit for black rockfish for commercial fishing vessels using hook-and-line gear between the U.S. Canada border and Cape Alava (48°09'30" N. latitude) and between Destruction Island (47°40'00" N. latitude) and Leadbetter Point (46°38'10" N. latitude), is 100 pounds (round weight) or 30 percent by weight of all fish on board including salmon, whichever is greater, per vessel trip.

(e) *Sebastes complex* - All species of rockfish except Pacific Ocean perch, widow, shortbelly and thornyhead (*Sebastolobus spp.*).

(i) North of Cape Lookout and south of Cape Lookout if no declaration has been made - Cumulative limit of 35,000 pounds, of which no more than 14,000 pounds may be yellowtail rockfish and no more than 6,000 pounds may be canary rockfish. No minimum size on any species in this category.

(ii) South of Cape Lookout - Cumulative limit of 50,000 pounds of which no more than 30,000 pounds may be yellowtail rockfish and no more than 6,000 pounds may be canary rockfish, provided the licensee has made a declaration as follows:

(A) The declaration must be made at least 12 hours prior to departing from port by telephoning the department Montesano office at (360) 249-4628, between the hours of 8:00 a.m. and 4:30 p.m., Monday through Friday. The declarer will receive a declaration number from the department.

(B) The declaration must include: Vessel name; federal limited entry permit number; operator's name, phone number and address; anticipated date and port of departure; anticipated date and port of return.

(C) Phone declarations must be followed by a written declaration, signed by the operator and mailed or delivered to the Montesano office at 48 Devonshire Road, Montesano, WA 98563, prior to the day of departure. Forms are available at that office or from coastal processors.

(D) No fishing north of Cape Lookout is allowed after declaring for fishing south of Cape Lookout until the vessel has landed at a Washington or Oregon port and notified the Montesano office during business hours.

(iii) There is a maximum cumulative limit for landings from both north and south of Cape Lookout of 50,000 pounds of which no more than 30,000 pounds may be yellowtail rockfish and no more than 6,000 pounds may be canary rockfish.

(iv) Wholesale fish dealers purchasing more than 30,000 pounds of the *Sebastes complex* or 14,000 pounds of yellowtail rockfish must enter the declaration number on the fish receiving ticket.

(f) DTS Complex - (sablefish, dover sole and thornyhead rockfish) - Cumulative limit of 35,000 pounds, of which no more than 20,000 pounds may be thornyhead rockfish of which no more than 4,000 pounds may be shortspine thornyheads.

(g) Sablefish

(i) Trawl vessels - Cumulative limit of 6,000 pounds. Vessel trip limit of 1,000 pounds or 25 percent of the DTS complex, whichever is greater (the sablefish allowance equals .33 x the combined weight of dover sole and thornyhead rockfish). In the trip limit, no more than 500

pounds may be sablefish less than 22 inches total length. Sablefish total length of 22 inches is equivalent to dressed length of 15.5 inches. To convert sablefish from dressed weight to round weight, multiply the dressed weight by 1.6.

(ii) Nontrawl vessels - Daily trip limit of 300 pounds (round weight). No minimum size.

(h) Pacific whiting - No vessel trip limit. No minimum size.

(i) Lingcod - Cumulative limit of 20,000 pounds. Total length minimum size limit of 22 inches. Lingcod total length of 22 inches is equivalent to dressed length of 18 inches. To convert lingcod from dressed weight to round weight, multiply the dressed weight by 1.5.

(3) Groundfish open access fishery limits. The following limits apply to the ground fish open access fishery in Coastal Marine Fish-Shellfish Management and Catch Reporting Areas 58B, 59A, 59B, 60A, 61, 62, and 63, and apply to all listed species and species complexes taken in Puget Sound Marine Fish-Shellfish Management and Catch Reporting Area 29. Notwithstanding the provisions of this subsection, no groundfish open access fishery limit may exceed a groundfish limited entry fishery daily, vessel or cumulative limit:

(a) Sablefish - Daily trip limit of 300 pounds (round weight). No minimum size.

(b) Rockfish.

Vessel trip limit of 10,000 pounds. Cumulative trip limit of 35,000 pounds.

(c) Lingcod - Cumulative limit of 20,000 pounds. Total length minimum size limit of 22 inches. Lingcod total length of 22 inches is equivalent to dressed length of 18 inches. To convert lingcod from dressed weight to round weight, multiply the dressed weight by 1.5.

(4) It is unlawful for the operator of any vessel during unloading of the catch and prior to its being weighed or leaving the unloading facility to intermix with any other species a species or category of bottomfish having a cumulative limit, vessel trip limit, or a daily trip limit.

(5) The fishers copy of all fish receiving tickets showing landings of species provided for in this section must be retained aboard the landing vessel for 90 days after landing.

WAC 220-95-011 Repealed. See Disposition Table at beginning of this chapter.

WAC 220-95-013 1995 Salmon disaster relief license buy-back program established—Fund allocation—Expiration. (1) The National Marine Fisheries Service has designated the department as the administering agency for distribution of Northwest Emergency Assistance Plan funds to buy back salmon licenses from license holders who are affected by reductions in salmon fishing needed to conserve Columbia River threatened and endangered salmon stocks. The state of Washington in consultation with the National Marine Fisheries Service believes the program should be designed to purchase licenses from fisheries that are dependent on chinook and coho salmon and are affected by the Endangered Species Act. The department hereby designates this program as the 1995 salmon disaster relief license buy-back program (program).

(2) The rules provided for in this chapter implement the provisions of the Northwest Emergency Assistance Plan as published in the *Federal Register*, and appeals as to which fishery license holders may apply for relief and the maximum level of monetary relief offered are to be made to the National Marine Fisheries Service.

(3) The department allocates the available federal funding for the program to the following categories in the following amounts:

- | | |
|---|----------------|
| (a) Salmon troll licenses and salmon delivery licenses | \$1,700,000.00 |
| (b) Willapa Harbor-Columbia River and Grays Harbor-Columbia River gill net licenses | \$1,700,000.00 |
| (c) Salmon charter licenses | \$ 300,000.00 |

- | | |
|----------------------------|---------------|
| (d) Program administration | \$ 300,000.00 |
|----------------------------|---------------|

Program administration funds that will not be used will be reallocated to license purchases.

(4) The program expires March 31, 1996, or upon the distribution of all available funds, whichever occurs first.

[Statutory Authority: RCW 75.08.080. 95-07-012 (Order 95-20), § 220-95-013, filed 3/3/95, effective 4/3/95.]

WAC 220-95-016 Repealed. See Disposition Table at beginning of this chapter.

WAC 220-95-018 Program eligibility. Only persons meeting the following criteria are eligible to participate in the program.

(1) The person participated in the coastal, Columbia River, Grays Harbor or Willapa Bay commercial salmon fisheries and had income derived from one of those fisheries in at least one year during the period 1986 through 1991 and has not participated nor will participate in a Northwest Emergency Assistance Plan jobs program; and

(2) The person possessed or was eligible to possess one of the following Washington state salmon fishery licenses in 1994:

- (a) Salmon troll license (RCW 75.28.110 (1)(f));
- (b) Salmon delivery license (RCW 75.28.113);
- (c) Salmon gill net—Grays Harbor-Columbia River (RCW 75.28.110 (1)(a));
- (d) Salmon gill net—Willapa Bay-Columbia River (RCW 75.28.110 (1)(c));
- (e) Salmon charter (RCW 75.28.095 (1)(b)); and

(3) The person incurred an uninsured loss computed under the federal plan requirements as follows: The maximum amount of uninsured loss under the program is the difference between the highest gross income derived from designated salmon fishing activity (including incidental catch provided that some salmon are included within the catch) during any calendar year 1986 through 1991 (the base year), less the sum of the least amount of gross income derived from salmon fishing activities during any calendar year from 1992 through 1994, plus any federal unemployment compensation received during that year, plus any federally funded training received during that year (the comparison year). The maximum amount payable under the program is 2.25 times the uninsured loss, but not to exceed \$100,000.00 to any individual for all payments received from the program. For purposes of calculating income, the license holder must and may only use income from salmon fisheries in the coastal waters of Washington, Oregon, and California, the waters of Grays Harbor and Willapa Bay, and the waters of the Columbia River.

[Statutory Authority: RCW 75.08.080. 95-07-012 (Order 95-20), § 220-95-018, filed 3/3/95, effective 4/3/95.]

(3) Income used in the calculation of offers that are accepted may not be used in the calculation of any other offer.

(4) The license holder may offer the license for any amount up to the maximum allowable under the program.

(5) An offer is not made unless a complete offer is received by the department. In order for an offer to be complete, the following must be received:

(i) For salmon troll, salmon delivery and gill net license fishing activity, the only acceptable supporting documents are official state fish receiving tickets, official state fish landing receipts, or computer generated landing lists that have been certified by a state agency or the Pacific States Marine Fisheries Commission to be true and correct copies. All landings count in calculation of base and comparison year incomes.

(ii) For salmon charter license fishing activity, acceptable supporting documents are trip tickets identifying the species targeted, the number of anglers, and the date of the trip or, if such tickets are unavailable, the department will accept a letter of endorsement from a charterboat association or charterboat booking office indicating salmon fishing was a major component of earnings, and, if such a letter is provided, will review the total income of the applicant for the base and comparison years.

(c) Copies of Internal Revenue Service returns for the base and comparison years are required from salmon charter license applicants who use income other than that shown on trip tickets and may be required for salmon troll, salmon delivery, and gill net license applicants claiming a percentage of income shown on fish tickets.
