136-130 Regional prioritization of RAP projects.

Chapter 136-130 WAC**REGIONAL PRIORITIZATION OF RAP PROJECTS****WAC**

136-130-050 Project prioritization in northeast region (NER).
 136-130-070 Project prioritization in southwest region (SWR).

WAC 136-130-050 Project prioritization in northeast region (NER). Each county in the NER may submit projects requesting RATA funds not to exceed twenty-five percent of the NER biennial apportionment. Each project shall be rated in accordance with the NER RAP rating procedures. The NER biennial apportionment shall be divided into the following categories at the percentages shown, provided sufficient projects are submitted for prioritization in each category:

- Category 1 - Ten percent for bridge projects where RATA funds are used as a match for federal bridge replacement funds;
- Category 2 - Forty-five percent for reconstruction of rural collectors; and
- Category 3 - Forty-five percent for resurfacing, restoration, rehabilitation (3R) type projects on rural collectors.

In the event that no projects or an insufficient number of projects are submitted in any of the above categories to utilize the RATA funds set aside for the category, all remaining funds in that category or categories shall be divided among the remaining categories as the county road administration board deems appropriate. The intent is to divide all available funds into categories having a sufficient number of submitted projects to fully utilize the funds available at each allocation during the biennium.

Bridge projects may be submitted requesting RATA funds under one of the following conditions:

(1) Bridges must be approved for federal bridge replacement funding and RATA funds shall be used only as a match for such federal funding. Bridges will be ranked for RATA funding using the WSDOT priority list and may be added to the NER Category 1 priority array at any time during the biennium upon approval of the Bridge for Federal Bridge replacement funding.

(2) A stand-alone bridge project may be submitted as an ordinary RAP project provided that its priority rating has been computed by the bridge rating method in the NER RAP rating procedures. Such projects shall not be considered for funding from the bridge reserve described above.

(3) A RAP project may include a bridge when the cost of the bridge does not exceed twenty percent of the total project cost.

NER RAP rating points for reconstruction projects, 3R projects or non-federal bridge replacement projects shall be assigned on the basis of one hundred points for a condition rating and fifty points for a service rating. The priority rating equals the sum of two and one half times the product of the service rating to the 1.25 power and the common logarithm of the number obtained by dividing one hundred by the condition rating. A total of ten points representing local significance may be added to one project included in each county's biennial submittal. A total of up to ten points representing missing links definition may also be added to one project included in each county's biennial submittal. Prioritization of NER projects shall be on the basis of total NER RAP rating points shown on the appropriate project worksheet and the prospectus form of the project application.

WAC 136-130-070 Project prioritization in southwest region (SWR). Each county in the SWR may submit projects

requesting RATA funds not to exceed thirty percent of the SWR biennial apportionment. No bridge replacement projects will be funded. Each project shall be rated in accordance with the SWR RAP rating procedures. SWR RAP rating points shall be assigned on the basis of fifty road condition points, consisting of twenty-five points for structural condition and twenty-five points for surface condition, fifty points for geometrics, ten points for traffic volume and ten points for traffic accidents, except that portland cement concrete surfaces and asphalt surfaces with cement concrete bases shall have fifty points for road surface condition and no points for structural condition and except that gravel roads shall have thirty-five points maximum for surface condition, and fifteen points maximum for roadbed width in geometrics and no other geometric points. Prioritization of SWR projects shall be on the basis of total SWR RAP rating points shown on the project worksheets and the prospectus form of the project application.
