(b) Escapes of deleterious exotic wildlife must be reported immediately to the department.

(c) The recapture or death of escaped deleterious exotic wildlife must be reported immediately to the department.

(9) Secure facility

(a) All deleterious exotic wildlife will be held in a secure facility. For the purpose of this rule, a secure facility is an enclosure so constructed as to prevent danger to the environment or wildlife of the state, including escape of deleterious exotic wildlife specimens or ingress of resident wildlife ungulates (hoofed animals). The adequacy of the facility shall be determined by the director or agents of the director.

(b) For deleterious exotic wildlife listed in subsections (1)(b)(iv) and (1)(b)(v), the "secure facility" must comply with the fencing requirements in subsection (10) unless otherwise authorized by the director in writing.

(10) Fencing requirements

(a) Perimeter fences must be, at a minimum, eight feet above ground level for their entire length. The bottom six feet must be mesh of sufficient size to prevent resident wildlife ungulates (hoofed animals) from entering and deleterious exotic wildlife from escaping. Supplemental wire required to attain a height of eight feet may be smooth, barbed, or woven wire (at least 12-1/2 gauge) with strands spaced not more than six inches apart.

(b) Perimeter fences constructed of high tensile wire must be supported by a post or stay at minimum intervals of eight feet.

(c) Perimeter fences must be at least 12-1/2 gauge woven wire, 14-1/2 gauge high-tensile woven wire, chain link, non-climbable woven fence, or other fence approved by the director.

(i) If the wire used is not a full eight feet in height, it must be overlapped one row and securely fastened at every other vertical row or woven together with cable.

(d) Electric fencing materials may be used on perimeter fences only as a supplement to conventional fencing materials.

(e) All gates in the perimeter fences must be self-closing, equipped with two locking devices, and installed only in locations that have been approved by the director. Double gates may be required at points in the perimeter fences subject to frequent vehicle traffic that is not related to activities involving the holding of deleterious exotic wildlife.

(f) Posts used in the perimeter fences must be:

(i) Wood (pressure treated), five-inch minimum diameter or an equivalent as approved by the director;

(ii) Spaced no more than twenty-four feet apart with stays or supports at eight foot intervals between the posts;

(iii) Extended at least eight feet above ground level;

(iv) Corners braced with wood or with an equivalent material as approved by the director.

(g) Fences must be maintained at all times to prevent deleterious exotic wildlife from escaping or resident wildlife ungulates (hoofed animals) from entering the enclosure. If such animals do pass through, under, or over the fence because of any topographic feature or other conditions, the person possessing deleterious exotic wildlife must immediately supplement the fence to prevent continued passage.

(h) For any fence existing prior to February 13, 1993, a person may petition the director in writing for a variance from the above fencing requirements. Any such petition must be filed no later than May 31, 1993 and must identify all aspects in which the existing fence does not meet the fencing requirements contained herein. On approval of the director, such person may maintain such existing fence with normal repair. However, any extension or relocation of existing fence must meet the fencing requirements contained herein.

(11) Marking requirements

(a) All live specimens of deleterious exotic wildlife except those listed in subsections (1)(a) and (1)(b), shall be permanently and individually identified by methods approved by the director,

(b) Identification assigned to an individual animal may not be transferred to any other animal.

(d) All lawful progeny of deleterious exotic wildlife must be tagged and tattooed by December 31 of the year of birth or upon leaving the holding facility, whichever is earlier.

(e) Where allowed, if an animal is sold or transferred within the state, the tag and tattoo must accompany the animal. The new owner or possessor shall not renumber the animal.

(f) Where allowed, live specimens of deleterious exotic wildlife shall be marked prior to importation.

(g) No unmarked deleterious exotic wildlife may be sold or otherwise transferred from the holding facility.

(12) Testing of specimens

(a) Where allowed, prior to entry into the state of Washington, a person importing any member of the Genus *Cervus* which is identified in subsection (1)(v) herein must submit records of genetic tests, conducted by a professionally recognized laboratory to identify red deer genetic influence (genetic material from any member of any subspecies, race, or species of the elk-red deer-wapiti complex *Cervus elaphus* not indigenous to the state of Washington). Such testing shall be at the possessor's expense. Animals which are deemed by department of wildlife biologists upon examination to exhibit either: Behavioral (vocalization), morphological (size, rump patch, color) or biochemical indications of such influence (hemoglobin, superoxide dismutase, transferrin and post-transferrin, or others to be developed) may not be imported.

(b) The director may require a person currently possessing any member of the Genus *Cervus* which are identified in subsection (1)(v) herein to submit records of genetic tests, conducted by a professionally recognized laboratory to identify red deer genetic influence (genetic material from any member of any subspecies, race, or species of the elk-red deer-wapiti complex *Cervus elaphus* not indigenous to the state of Washington), for each individual cervid to the department. Such testing shall be at the possessor's expense. The director may require that any animal identified a red deer or having nonindigenous genetic influence be destroyed, removed from the state, or neutered.

(c) The director may require that all specimens of deleterious exotic wildlife lawfully in captivity be tested for brucellosis (*brucella abortus*), tuberculosis (*mycobacterium bovis* and *mycobacterium tuberculosis*), meningeal worm (*Paralophostrongylus tenuis*), and muscle worm (*Elaphostrongylus cervis*) in accordance with the procedures specified in department of agriculture WAC 16-54-035 as now or hereafter amended and/or for other disease or parasites determined to pose a risk to wildlife. The results of such tests shall be filed with the director as required.

(13) Reporting

(a) A person holding deleterious exotic wildlife in captivity shall submit a completed report no later than March 30, 1993 and then no later than January 31 of each year, or as otherwise required by the director, on a form provided by the department.

(b) Upon having reason to believe that deleterious exotic wildlife held pursuant to this rule have been exposed to or contracted a dangerous or contagious disease or parasite, the director may order inspection of such animals by a licensed, accredited veterinarian or inspection agent. Inspection shall be at the expense of the possessor.

(c) The director shall determine when destruction of animals, quarantine, or disinfection is required at any facility holding deleterious exotic wildlife pursuant to this rule. If the director determines that destruction, quarantine, or disinfection is required, a written order shall be issued to the possessor describing the procedure to be followed and the time period for carrying out such actions. Such activities shall be at the expense of the possessor.

(16) Quarantine area

(a) Any facility holding deleterious exotic wildlife must have an approved quarantine facility within its exterior boundary or submit an action plan to the director that guarantees access to an approved quarantine facility within the state of Washington.

(i) An approved quarantine facility is one that meets criteria set by the Washington state department of agriculture.

(ii) The quarantine area must meet the tests of isolation, separate feed and water, escape security, and allowances for the humane holding and care of its occupants for extended periods of time.

(b) Should the imposition of a quarantine become necessary, the possessor must provide an on-site quarantine facility or make arrangements at such possessor's expense to transport the animals to the approved quarantine facility named in the quarantine action plan.

(17) Seizure

(a) The department of wildlife may seize any unlawfully possessed deleterious exotic wildlife.

(b) The cost of any seizure and/or holding of deleterious exotic wildlife may be charged to the possessor of such animals.

WAC 232-12-181 Livestock grazing on department of fish and wildlife lands. All persons wishing to apply for a grazing permit should contact the Washington Department of Fish and Wildlife, 600 North Capitol Way, Olympia, Washington 98501-1091.

(1) The director is authorized to enter into grazing permits when the director determines that a grazing permit will be consistent with the desired ecological condition for those lands or the department's strategic plan. Except for temporary permits, or permits that are being renewed or renegotiated with existing permittees, grazing permits shall first be submitted to the commission, which may review the permit to ensure it conforms with commission policy. If, within thirty days, the commission has not disapproved the permit, the director shall be deemed authorized to enter into that permit.

(2) The director shall negotiate grazing permits with potential grazing operators to ensure the highest benefits to fish and wildlife. The director may advertise and sell a permit to use department lands for grazing at public auction to the highest bidder. The director is authorized to reject any and all bids if it is determined to be in the best interest of the fish and wildlife to do so.

(3) The term of each grazing permit shall be no greater than five years. When an existing permit expires or is about to expire, the director may renew the permit for up to another five years, renegotiate the grazing permit with the existing permittee, negotiate a new permit with a new grazing operator, or sell the permit at public auction to the highest bidder. The director is authorized to reject any and all bids if it is determined to be in the best interest of the fish and wildlife to do so. The director may grant a term longer than five years only with the prior approval of the commission.

(4) A temporary permit may be granted by the director to satisfy short-term needs where benefits to wildlife management programs and the public interest can be demonstrated. The term of a temporary permit shall not exceed one year and no fee need be charged.

(5) Except for temporary permits lasting less than two weeks, each grazing permit proposal shall be accompanied by a domestic livestock grazing management plan that includes a description of ecological impacts, desired ecological condition, fish and wildlife benefits, a monitoring plan, and an evaluation schedule for lands that will be grazed by livestock. The department shall inspect the site of a grazing permit no less than two times each year. The director shall retain the right to alter any provision of the plan as required to benefit fish or wildlife management, public hunting and fishing, or other recreational uses.

(6) The director may cancel a permit (a) for noncompliance with the terms and conditions of the permit, or (b) if the area described in the permit is included in a land use plan determined by the agency to be a higher and better use, or (c)

if the property is sold or conveyed, or (d) if damage to wildlife or wildlife habitat occurs.

(7) All lands covered by any grazing permit agreement shall at all times be open to public hunting, fishing and other wildlife recreational uses unless such lands have been closed by action of the commission or emergency order of the director.

(b) "Disabled hunter permit" means a permit, card, or endorsement to a license issued by the department to any person with a permanent disability who applies to the department and presents such evidence as the director may require showing that the applicant is a person with a qualifying disability. Upon approval of the application, the department will issue a vehicle identification placard. A designated hunter companion card will be issued with a hunting license.

(c) "Designated hunter companion" means a person who assists a hunter with a disability in the stalking, shooting, tracking, retrieving, or tagging of game birds and game animals.

(d) "Designated hunter companion card" means an identification card issued by the department to the hunter with a disability.

(e) "Blind or visually impaired" means a central visual acuity that does not exceed 20/200 in the better eye with corrective lenses, or the widest diameter of the visual field does not exceed twenty degrees.

(f) "Accompany" means the hunter with a disability and the designated hunter companion are in the physical presence of each other, not to exceed a 1/4-mile separation. While stalking or shooting an animal, the hunter with a disability and the designated hunter companion must have a form of reliable and direct communication.

(g) "Special use permit" means a permit issued by the department to a person with a specific permanent disability as a reasonable accommodation. The special use permit allows for a specific act or acts to include, but not be limited to, use of adaptive mechanical, electrical, or specialty equipment or devices that aid the person in hunting.

(h) "Person with a disability" means:

(i) A person who has a permanent disability and is not ambulatory over natural terrain without a lower extremity prosthesis or must permanently use a medically prescribed assistive device for mobility, including, but not limited to, a wheelchair, crutch, cane, walker, or oxygen bottle; or

(ii) A person who has a permanent disability and is physically incapable of holding and safely operating a firearm or other legal hunting device.

This definition includes, but is not limited to, persons with a permanent upper or lower extremity impairment who have lost the use of one or both upper or lower extremities, or who have a severe limitation in the use of one or both upper or lower extremities, or who have a diagnosed permanent disease or disorder which substantially impairs or severely inter-

(2) The designated hunter companion must accompany the hunter with a disability when stalking or shooting game on behalf of the hunter with a disability. The hunter with a disability or the designated hunter companion must immediately cut, notch, or date any required tag. The tag must be affixed to the carcass of the game bird or animal as soon as is reasonably possible after killing the game.

(3) The designated hunter companion does not need to accompany the hunter with a disability while tracking an animal wounded by either hunter, or while tagging or retrieving a downed animal on behalf of the hunter with a disability.

(4) It is unlawful for a designated hunter companion to assist a hunter with a disability unless the designated hunter companion has the designated hunter companion identification card on his or her person.

(5) It is unlawful for a hunter with a disability to shoot from a motor vehicle, unless the vehicle is stopped, the motor is turned off and the vehicle is removed from the maintained portion of a public highway. If the roadway is not paved, and it is impossible for the hunter with a disability to completely remove the vehicle from the roadway, then the hunter may shoot from the vehicle if the vehicle is as far off the roadway as possible. A disabled hunter vehicle identification placard must be displayed.

(6) It is unlawful for any person to possess a loaded firearm in or on a motor vehicle, except if the person is a hunter with a disability and the vehicle is in compliance with subsection (5) of this section.

(7) Game birds or game animals killed, tagged or retrieved by a designated hunter companion on behalf of a hunter with a disability do not count against the designated hunter companion's bag or possession limit.

(8) A designated hunter companion shooting game for or who may be shooting game for a hunter with a disability must have a valid hunting license issued by Washington or another state.

WAC 232-28-285 2007-2008 Pilot cougar hunting seasons with the aid of dogs. As used in this section and in the context of pilot cougar hunting seasons, the following definitions apply:

"Accompany" means the dog handler and permit hunter must be in the physical presence of each other at the time dogs are released from a leash or unrestrained or starting a cougar track.

"Pursue" or "pursuit" means dogs are:

- Not on a leash or restrained; or
- Starting a cougar track; or
- In the act of tracking a cougar; or
- At a treed cougar.

Transporting dogs in a motorized vehicle or walking a dog on a leash is not pursuit.

"Dog owner" means a person that owns and hunts with dogs that are capable of detecting, tracking and treeing a cougar.

"Quota" means the targeted harvest goal. The actual harvest level may exceed the quota.

"Kill permit" allows a hunter to pursue or kill cougar.

"Pursuit permit" allows a hunter to pursue cougar.

(1) The pilot cougar-hunting season will allow use of dogs to hunt cougar. The hunts will consist of pursuit-or-kill seasons and pursuit-only seasons, and are allowed only in Chelan, Okanogan, Ferry, Stevens, and Pend Oreille counties.

(2) Pursuit-or-kill seasons:

Cougar may be pursued or killed with the aid of dogs from December 1, 2007, until the female zone quota has been killed, the total zone quota has been killed, or March 31, 2008, whichever occurs first; EXCEPT GMUs 101 and 204 where cougar may be pursued or killed from January 1, 2008, until the female zone quota has been killed, the total zone quota has been killed, or March 31, 2008, whichever occurs first.

(3) Pursuit-only seasons:

(a) If a zone quota is killed prior to March 31, 2008, cougar may be pursued with dogs in all or portions of that zone until March 31, 2008. Hunters may only pursue cougars in designated pursuit only areas identified on their kill or pursuit-only permit. Hunters may not kill cougar during pursuit-only seasons.

(b) Hunters selected for the pursuit-or-kill season (accompanied by up to three of their identified handlers) may participate in a pursuit-only season. Permit hunters that harvest a cougar under a kill permit may continue to pursue cougars until March 31. If a zone quota is killed, the department will also issue pursuit-only permit to hunters drawn at random from the unselected pool of applicants. The director will identify the number of pursuit-only hunters selected.

(4) Hunt areas and kill quotas:

Cougar seasons will be based on a quota system, where permit hunters using dogs may hunt and kill cougar until the allotted numbers of cougar have been killed from each hunt zone or March 31, 2008, whichever occurs first.

(a) Kill quotas start September 1 and will include all cougar killed during seasons with and without the aid of dogs, including cougar seasons under this section, cougar seasons without the aid of dogs authorized under WAC 232-28-272, depredation permits, landowner kill permits, and WDFW depredation authority.

(b) Individual problem cougar will continue to be killed on an as-needed basis utilizing depredation permits, landowner kill permits, and WDFW depredation authority even if these kills result in exceeding a zone quota.

CMU	Hunt Choice	Hunt Zone	Area Description	QUOTA	
				Total	Female
East Cascades North	9001	Okanogan	Those portions of GMUs 203, 209, 215, 218, 233, 224, 231, 239, and 242 within Okanogan County	28	11
	9002	Chelan	Those portions of GMUs 243, 244, 245, 246, 247, 249, 250, and 251 within Chelan County	10	4

	9004	Stevens-Pend Oreille	Those portions of GMUs 105, 108, 111, 113, 117, 121 within Stevens and Pend Oreille counties	38	15

(5) Quota hotline:

Permit hunters participating in a pursuit-or-kill season must call the toll free cougar quota hotline within twenty-four hours prior to each day hunting cougar to determine if the zone quota has been killed and the zone is closed. Hunters who hunt more than one consecutive day must call the quota hotline once daily to determine if the zone quota is killed. Hunters who harvest a cougar with the aid of dogs must notify the department within twenty-four hours of kill (excluding legal state holidays) and provide the hunter's name, date and location of kill, and sex of animal. The raw pelt of a cougar, with proof of sex naturally attached, must be sealed by an authorized department employee within five days of the notification of kill. Any person who takes a cougar must present the cougar skull in such a manner that teeth and biological samples can be extracted to an authorized department employee at the time of sealing.

(6) Kill or pursuit-only permit eligibility:

(a) To apply for a kill or pursuit-only permit under this section, individuals must sign an affidavit provided by the department, certifying under penalty of false swearing under RCW 9A.72.040 that they are a dog owner. The affidavit must be mailed to WDFW by the date and time identified by the director. Individuals not registered as a dog owner will not be issued a permit.

(b) To apply for a kill or pursuit-only permit under this section, individuals must purchase a cougar permit application and submit the application in compliance with WAC 232-28-291 by a date and time identified by the director.

(c) To be eligible for a permit, the participant must be a Washington resident who at the time of application for a permit possesses a valid big game license with cougar as a species option. The permit holder must use dogs while participating in a cougar hunt under this section.

(d) A permit will not be issued to any person who has been convicted of unlawful use of dogs under RCW 77.15.-245 within the five-year period prior to December 1, 2004. Any person issued a permit and who is subsequently convicted of any wildlife offense while participating in a pursuit-or-kill or pursuit-only season, or who violates any condition of the permit, will have the permit revoked and will be ineligible to participate in the remainder of the pilot program.

(7) Permit issuance procedure:

(a) The number of kill permits for a pursuit-or-kill season with the aid of dogs may be established by the director, but will not exceed two times the total cougar quota for each hunt zone.

(b) The department will issue kill or pursuit-only permits to the persons whose applications are drawn at random. Individuals selected will be notified by telephone or mail. Individuals selected must return the signed affidavit to the department's wildlife program in Olympia within fifteen days of being notified. Failure to return the completed affidavit to the department will result in forfeit of the permit. Kill and pursuit-only permits may not be sold or reassigned.

(c) If a female zone quota or total zone quota is not killed in a hunt zone by January 15 (or sooner as identified by the director), then the department will issue kill permits to additional hunters. Hunters will be drawn at random from the unselected pool of applicants and must be a resident of one of the five counties.

(8) Qualifications for participation and requirements:

In addition to the provisions applicable to all cougar hunters:

(a) Successful applicants must complete a training program prior to participating in a pursuit-or-kill season or pursuit-only season with the aid of dogs.

(b) Participants must have their permit issued by the department in their possession while hunting cougar.

(c) Individuals selected for a kill permit may kill and possess two cougar per permit and only the permittee may kill the cougar(s). However, a kill permit holder may not kill a second cougar in a hunt zone until January 15 (or sooner as identified by the director).

Successful applicants must check in with the WDFW hunt coordinator at least one week prior to their first scheduled hunting day and all hunters must hunt over decoys. Quotas may be shifted to other zones during the season to optimize use of the statewide quota and minimize depredation.

Hunting is only permitted by written authorization from the Washington department of fish and wildlife. New hunters and those who did not maintain a valid 2006-07 authorization must review goose identification training materials and score a minimum of 80% on a goose identification test to receive written authorization. Hunters who fail a test must wait 28 days before retesting, and will not be issued a reciprocal authorization until that time.

With written authorization, hunters will receive a harvest report. Hunters must carry the authorization card and harvest report while hunting. Immediately after taking a Canada goose (dusky, lesser/Taverner, cackling, or other subspecies)

Hunters must go directly to the nearest check station and have geese tagged when leaving a hunt site, before 6:00 p.m. If a hunter takes the season bag limit of one dusky Canada goose or does not comply with requirements listed above regarding checking of birds and recording harvest on the harvest report, written authorization will be invalidated and the hunter will not be able to hunt Canada geese in Goose Management Areas 2A and 2B for the remainder of the season and the special late Canada goose season. Hunters qualifying for the season will be placed on a list for participation in this hunt. Washington department of fish and wildlife will assist landowners with contacting qualified hunters to participate in damage control hunts on specific lands incurring goose damage. Participation in this hunt will depend on the level of damage experienced by landowners. The special late Canada goose season will be closed by emergency action if the harvest of dusky Canada geese exceeds 85 for the regular and late seasons. All provisions listed above for Goose Management Area 2A regarding written authorization, harvest reporting, and checking requirements also apply to the special late season; except hunters must confirm their participation at least 24 hours in advance by calling the goose hunting hotline (listed on hunting authorization), and hunters must check out by 5:00 p.m. on each hunt day regardless of success.
