**WAC 180-16-162 Strike defined—Presumption of approved program operation—Strikes—Exception—Approval/disapproval of program during strike period—Work stoppages and maintenance of approved programs for less than one hundred eighty days not condoned.** (1) Strike defined. For the purpose of this section the term "strike" shall mean: A concerted work stoppage by employees of a school district of which there has been a formal declaration by their recognized representative and notice of the declaration has been provided to the district by the recognized representative at least two calendar school days in advance of the actual stoppage.

(2) Presumption of approved program. It shall be presumed that all school days conducted during a school year for which the state board of education has granted annual program approval are conducted in an approved manner, except for school days conducted during the period of a strike. The following shall govern the approval or disapproval of a program conducted during the period of a strike:

(a) Upon the submission of a written complaint of substandard program operation by a credible observer, the state superintendent of public instruction may investigate the complaint and program being operated during the strike.

(b) The district's program shall be deemed disapproved if the investigation of the state superintendent establishes a violation of one or more of the following standards or, as the case may be, such deviations as have been approved by the state board:

- (i) All administrators must have proper credentials;
- (ii) WAC 180-16-220(2) which requires that all teachers have proper credentials;
- (iii) The school district shall provide adequate instruction for all pupils in attendance;
- (iv) Adequate provisions must be made for the health and safety of all pupils;
- (v) The local district shall have a written plan for continuing the school program during this period; and
- (vi) The required ratio of enrolled pupils to certificated personnel for the first five days shall not exceed 60 to 1, for the next five days shall not exceed 45 to 1 and thereafter shall not exceed 30 to 1.

(c) Program disapproval shall be effective as of the day following transmittal of a notice of disapproval by the state superintendent and shall apply to those particular school days encompassed in whole or in part by the remainder of the strike period.

(d) The decision of the state superintendent shall be final except as it may be reviewed by and at the option of the state board of education.

(e) The program shall be deemed approved during those days of operation for which a trial court order ordering striking employees to work is in effect.

(3) Work stoppages. Nothing in this section or WAC 180-16-191 through 180-16-225 shall be construed as condoning or authorizing any form of work stoppage which dis-

rupts any portion of the planned educational program of a district or the maintenance of an approved program for less than the minimum number of school days required by law, except as excused for apportionment purposes by the superintendent of public instruction pursuant to RCW 28A.150.290.

**WAC 180-16-195 Annual reporting and review process.** (1) **Annual school district reports.** A review of each school district's kindergarten through twelfth grade program shall be conducted annually for the purpose of determining compliance or noncompliance with basic education program approval requirements. On or before the first Monday in November of each school year, each school district superintendent shall complete and return the program assurance form (OSPI Form 1497) distributed by the state board of education. The form shall be designed to elicit data necessary to a determination of a school district's compliance or noncom-

pliance with basic education program approval requirements. Data reported by a school district shall accurately represent the actual status of the school district's program as of the first school day in October and as thus far provided and scheduled for the entire current school year. The form shall be signed by:

- (a) The school board president or chairperson, and
- (b) The superintendent of the school district.

**(2) State board staff review.**

(a) State board of education staff shall review each school district's program assurance form, conduct on-site monitoring visits of randomly selected school districts, as needed and subject to funding support, and prepare recommendations and reports for presentation to the state board of education: Provided, That, if a school district's initial program assurance form does not establish compliance with the basic education program approval requirements, the district shall be provided the opportunity to explain the deficiency or deficiencies. School districts which foresee that they will not be able to comply with the program approval requirements, or that are deemed by the state board to be in noncompliance, may petition for a waiver on the basis of substantial lack of classroom space as set forth in WAC 180-16-225 and instructional hours offering requirements under WAC 180-18-030.

(b) School districts may use the personnel and services of the educational service district to assist the district and schools in the district that are out of compliance with basic education program approval requirements.

**(3) Annual certification of compliance or noncompliance—Withholding of funds for noncompliance.**

(a) At the annual spring meeting of the state board of education, or at such other meeting as the board shall designate, the board shall certify by motion each school district as being in compliance or noncompliance with the basic education program approval requirements.

(b) A certification of compliance shall be effective for the then current school year subject to any subsequent ad hoc review and determination of noncompliance as may be deemed necessary by the state board of education or advisable by the superintendent of public instruction. In addition, a certification of compliance shall be effective tentatively for the succeeding school year until such time as the state board takes its annual action certifying compliance or noncompliance with the program approval requirements.

(c) A certification of noncompliance shall be effective until program compliance is assured by the school district to the satisfaction of state board of education staff, subject to review by the state board. Basic education allocation funds shall be deducted from the basic education allocation of a school district that has been certified as being in noncompliance unless such district has received a waiver from the state board for such noncompliance, pursuant to WAC 180-16-225 or 180-18-030, or assurance of program compliance is subsequently provided for the school year previously certified as in noncompliance and is accepted by the state board.

(d) The withholding of basic education allocation funding from a school district shall not occur for a noncompliance if the school district has remediated the noncompliance situation within sixty school business days from the time the district receives notice of the noncompliance from the state board of education. The state board of education may extend

the sixty days timeline only if the district demonstrates by clear and convincing evidence that sixty days is not reasonable to make the necessary corrections. For the purposes of this section, a school business day shall mean any calendar day, exclusive of Saturdays, Sundays, and any federal and school holidays upon which the office of the superintendent of the school district is open to the public for the conduct of business. A school business day shall be concluded or terminated upon the closure of said office for the calendar day.

(e) The superintendent of public instruction, or his/her designee, after notification by the state board of education to a school district regarding an existing noncompliance, shall enter into a compliance agreement with the school district that shall include, but not be limited to, the following criteria:

(i) A deadline for school district remediation of the noncompliance(s), not to exceed sixty school business days per noncompliance as specified in (d) of this subsection.

(ii) A listing of all the noncompliance areas and the necessary terms that must be satisfied in each area in order for the school district to gain compliance status. This listing also shall specify additional deadlines for the accomplishment of the stated terms if different from the final deadline as specified in subsection (1) of this section.

(iii) A closing statement specifying that a school district's failure to remediate a noncompliance by the determined deadline shall result in the immediate withholding of the district's basic education allocation funding by the superintendent of public instruction.

(iv) The date and the signatures of the superintendent of the school district, the chair of the district's board of directors, and the superintendent of public instruction, or his/her designee, to the agreement. A copy of the completed compliance agreement shall be sent to the chairperson of the school district's board of directors and the school district superintendent.

(f) In the event a school district fails to sign the compliance agreement within five school business days from the date of issuance or does not satisfy the terms of the signed compliance agreement within the designated amount of time, the superintendent of public instruction shall withhold state funds for the basic education allocation until program compliance is assured based on the following procedure:

(i) For the first month that a noncompliance exists following the conditions as specified in (f) of this subsection, the superintendent of public instruction shall withhold twenty-five percent of the state funds for the basic education allocation to a school district.

(ii) For the second month that a noncompliance exists following the conditions as specified in (f) of this subsection, the superintendent of public instruction shall withhold fifty percent of the state funds for the basic education allocation to a school district.

(iii) For the third month that a noncompliance exists following the conditions as specified in (f) of this subsection, the superintendent of public instruction shall withhold seventy-five percent of the state funds for the basic education allocation to a school district.

(iv) For the fourth month, and every month thereafter, that a noncompliance exists following the conditions as specified in (f) of this subsection, the superintendent of public instruction shall withhold one hundred percent of the state

funds for the basic education allocation to a school district until compliance is assured.

(g) Any school district may appeal to the state board of education the decision of noncompliance by the state board of education. Such appeal shall be limited to the interpretation and application of these rules by the state board of education. Such appeal shall not stay the withholding of any state funds pursuant to this section. The state board of education may not waive any of the basic education entitlement requirements as set forth in this chapter, except as provided in WAC 180-16-225 or 180-18-030.

(4) The provisions of subsection (3)(f) of this section shall not apply if the noncompliance is related to the district's fiscal condition and results in the implementation of a financial plan under RCW 28A.505.140(3).

(2) **Annual school building approval.**

(a) Each school in the district shall be approved annually by the school district board of directors under an approval process determined by the district board of directors.

(b) At a minimum the annual approval shall require each school to have a school improvement plan that is data driven, promotes a positive impact on student learning, and includes a continuous improvement process that shall mean the ongoing process used by a school to monitor, adjust, and update its school improvement plan. For the purpose of this section "positive impact on student learning" shall mean:

(i) Supporting the goal of basic education under RCW 28A.150.210, "...to provide students with the opportunity to become responsible citizens, to contribute to their own economic well-being and to that of their families and communities, and to enjoy productive and satisfying lives...";

(d) The school improvement plan shall address, but is not limited to:

**WAC 180-16-225 Waiver—Substantial lack of classroom space—Grounds and procedure.** (1) **Grounds.** The state board of education may waive one or more of the basic education allocation entitlement requirements set forth in WAC 180-16-200 through 180-16-220(1) only if a school district's failure to comply with such requirement(s) is found by the state board to be caused by substantial lack of classroom space.

As a condition to a waiver based on substantial lack of classroom space the state board will consider and a school district must demonstrate, at least, that the facilities of the school district do not contain enough classroom space or

other space that can reasonably be converted into classroom space, and that necessary classroom space may not reasonably be acquired by lease or rental to enable the district to comply with the referenced entitlement requirements.

(2) **Waiver procedure.** In order to secure a waiver pursuant to subsection (1) of this section a school district must submit a petition together with a detailed explanation and documentation in support of its request not later than thirty days prior to either:

(a) The state board of education meeting immediately preceding commencement of the school year; or

(b) The March (or such other meeting as the state board shall have established) meeting of the board at which the board will consider certifications of compliance and noncompliance with these entitlement requirements.

A school district that can reasonably foresee an inability to comply with entitlement requirements by reason of substantial lack of classroom space should petition for a waiver as early as the state board meeting immediately preceding commencement of the school year in order to allow for the possibility that the request may be denied.

**WAC 180-18-055 Alternative high school graduation requirements.** (1) The shift from a time and credit based system of education to a standards and performance based education system will be a multiyear transition. In order to facilitate the transition and encourage local innovation, the state board of education finds that current credit-based graduation requirements may be a limitation upon the ability of high schools and districts to make the transition with the least amount of difficulty. Therefore, the state board will provide districts and high schools the opportunity to create and implement alternative graduation requirements.

(2) A school district, or high school with permission of the district board of directors, or approved private high school, desiring to implement a local restructuring plan to provide an effective educational system to enhance the educational program for high school students, may apply to the state board of education for a waiver from one or more of the requirements of chapter 180-51 WAC.

(3) The state board of education may grant the waiver for a period up to four school years.

(4) The waiver application shall be in the form of a resolution adopted by the district or private school board of directors which includes a request for the waiver and a plan for restructuring the educational program of one or more high schools which consists of at least the following information:

- (a) Identification of the requirements of chapter 180-51 WAC to be waived;
- (b) Specific standards for increased student learning that the district or school expects to achieve;
- (c) How the district or school plans to achieve the higher standards, including timelines for implementation;
- (d) How the district or school plans to determine if the higher standards are met;
- (e) Evidence that the board of directors, teachers, administrators, and classified employees are committed to working cooperatively in implementing the plan;
- (f) Evidence that students, families, parents, and citizens were involved in developing the plan; and
- (g) Identification of the school years subject to the waiver.

(2009 Ed.)

(5) The plan for restructuring the educational program of one or more high schools may consist of the school improvement plans required under WAC 180-16-220, along with the requirements of subsection (4)(a) through (d) of this section.

(6) The application also shall include documentation that the school is successful as demonstrated by indicators such as, but not limited to, the following:

- (a) The school has clear expectations for student learning;
- (b) The graduation rate of the high school for the last three school years;
- (c) Any follow-up employment data for the high school's graduate for the last three years;

- (e) Use of student portfolios to document student learning;
- (f) Student scores on the high school Washington assessments of student learning;
- (g) The level and types of family and parent involvement at the school;
- (h) The school's annual performance report the last three school years; and
- (i) The level of student, family, parent, and public satisfaction and confidence in the school as reflected in any survey done by the school the last three school years.

(7) A waiver of WAC 180-51-060 may be granted only if the district or school provides documentation and rationale that any noncredit based graduation requirements that will replace in whole or in part WAC 180-51-060, will support the state's performance-based education system being implemented pursuant to RCW 28A.630.885, and the noncredit based requirements meet the minimum college core admissions standards as accepted by the higher education coordinating board for students planning to attend a baccalaureate institution.

(8) A waiver granted under this section may be renewed upon the state board of education receiving a renewal request from the school district board of directors. Before filing the request, the school district shall conduct at least one public meeting to evaluate the educational requirements that were implemented as a result of the waiver. The request to the state board shall include information regarding the activities and programs implemented as a result of the waiver, whether higher standards for students are being achieved, assurances that students in advanced placement or other postsecondary options programs, such as but not limited to: College in the high school, running start, and tech-prep, shall not be disadvantaged, and a summary of the comments received at the public meeting or meetings.

(9) The state board of education shall notify the state board for community and technical colleges, the higher education coordinating board and the council of presidents of any waiver granted under this section.

(10) Any waiver requested under this section will be granted with the understanding that the state board of education will affirm that students who graduate under alternative graduation requirements have in fact completed state requirements for high school graduation in a nontraditional program.

(11) Any school or district granted a waiver under this chapter shall report annually to the state board of education,

in a form and manner to be determined by the board, on the progress and effects of implementing the waiver.

**WAC 180-51-001 Education reform vision.** (1) The state is shifting from a time and credit-based system of education to a standards and performance-based education system. Certain ways of thinking about time must shift in order to support the ongoing implementation of school reform. The board's long-term vision of a performance-based education system includes:

(a) No references to grade levels or linking a student's educational progress to a particular age. Instead, learning is

viewed in terms of developmental progress, academically and vocationally, so that while the curriculum may be sequential the student moves through it at her or his developmental pace, regardless of age;

(b) An understanding that in the absence of other important information, a student's grade point average and performance on the Washington assessment of student learning do not provide a complete picture of the student's abilities and accomplishments;

(c) An understanding that our concept of school needs to expand and take into account that education and learning are about connected learning experiences, which can and do occur inside and outside the physical boundaries of a school building; and

(d) An understanding that students do not all learn in the same way (there are multiple learning styles), that teachers do not all instruct in the same way (there are multiple teaching styles and strategies), and these facts suggest that it should be possible to assess students' performance and achievement in multiple ways while maintaining common, high expectations and standards for learning.

(2) Long-term, as the performance-based education system continues to evolve, the state board of education believes that there should be an on-going review of assessment administration issues. The state board envisions a time when state assessments are administered during one or more assessment windows annually. During these times, students are allowed to take the appropriate norm-referenced or criterion-referenced state assessment based upon the collective determination by the student, the student's parent(s), teacher(s), and counselor that the student is developmentally ready to take the assessment, rather than because the student is a particular age or is in a particular grade.

[Statutory Authority: RCW 28A.230.090, 00-19-108, § 180-51-001, filed 9/20/00, effective 10/21/00.]

**WAC 180-51-003 Intent of graduation requirements.**

(1) The state board of education is responsible for establishing minimum high school graduation requirements that appropriately balance:

(a) Statewide public expectations for all graduating students;

(b) High, meaningful, and fair requirements every student can meet;

(c) The unique characteristics of and differing resources among all school districts and high schools in Washington; and

(d) Recognition that some students' educational plans may not include college or may include application for admission to a postsecondary institution one year or more after being granted a high school diploma.

(2) In order to support the continuing refinement of the standards and performance-based system of education, encourage and facilitate local innovation, and realize the vision under WAC 180-51-001, it is the intent of the state board of education to enact changes that will:

(a) Align the statewide minimum high school graduation requirements with the goal of the basic education act under RCW 28A.150.210 and the mission of the common school system under WAC 392-400-210;

(b) Allow districts the optional discretion to define and award high school credit based on demonstrated performance that is not tied to a state minimum number of hours of instruction or instructional activities;

(c) Assure that the essential academic learning requirements developed under RCW 28A.655.070(2) are taught in the high school curriculum;

(d) Assure that students are aware of the connection between their education and possible career opportunities as referenced in RCW 28A.150.210(4) and WAC 392-415-090; and

(e) Assure that students are provided the opportunity to effectively prepare for the secondary Washington assessment of student learning and earn the certificate of academic achievement required under RCW 28A.655.061(2) recognizing that the certificate of academic achievement, along with other state and local requirements, represents attainment of the knowledge and skills that are necessary for high school graduation.

(3) It is the state board's view that the creative development and application of integrated curriculum within existing resources will significantly facilitate the implementation of the graduation requirements under WAC 180-51-061. The board strongly encourages districts to:

(a) Implement curriculum that includes courses that incorporate the best applied, theoretical, academic or vocational features as authorized under RCW 28A.230.010;

(b) Emphasize the integration of academic and vocational education in educational pathways as required under RCW 28A.655.060 (3)(c); and

(c) Consider using the model curriculum integrating vocational and academic education as it is developed by the superintendent of public instruction under RCW 28A.300.-235.

At least one credit in laboratory science is required which shall be defined locally. Assessment shall include the tenth grade Washington assessment of student learning beginning 2010.

(d) Two and one-half **social studies** credits that at minimum align with the state's essential academic learning

requirements in civics, economics, geography, history, and social studies skills at grade ten and/or above plus content that is determined by the district. The assessment of achieved competence in this subject area is to be determined by the local district although state law requires districts to have "assessments or other strategies" in social studies at the high school level by 2008-09. In addition, districts shall require students to complete a classroom-based assessment in civics in the eleventh or twelfth grade also by 2008-09. The state superintendent's office has developed classroom-based assessment models for districts to use (RCW 28A.230.095). The social studies requirement shall consist of the following mandatory courses or equivalencies:

(i) One credit shall be required in United States history and government which shall include study of the Constitution of the United States. No other course content may be substituted as an equivalency for this requirement.

(ii) Under the provisions of RCW 28A.230.170 and 28A.230.090, one-half credit shall be required in Washington state history and government which shall include study of the Constitution of the state of Washington and is encouraged to include information on the culture, history, and government of the American Indian people who were the first inhabitants of the state.

However, the course should only count as a high school credit if the academic level of the course exceeds the requirements for seventh and eighth grade classes and the course would qualify for high school credit, because the course is similar or equivalent to a course offered at a high school in the district as determined by the school district board of directors (RCW 28A.230.090 (4)).

(B) The study of the United States and Washington state Constitutions shall not be waived, but may be fulfilled through an alternative learning experience approved by the local school principal under written district policy.

(C) Secondary school students who have completed and passed a state history and government course of study in another state may have the Washington state history and government requirement waived by their principal. The study of the United States and Washington state Constitutions required under RCW 28A.230.170 shall not be waived, but may be fulfilled through an alternative learning experience approved by the school principal under a written district policy.

(D) After completion of the tenth grade and prior to commencement of the eleventh grade, eleventh and twelfth grade students who transfer from another state, and who have or will have earned two credits in social studies at graduation, may have the Washington state history requirement waived by their principal if without such a waiver they will not be able to graduate with their class.

(iii) One credit shall be required in contemporary world history, geography, and problems. Courses in economics, sociology, civics, political science, international relations, or

related courses with emphasis on current problems may be accepted as equivalencies.

(e) Two **health and fitness** credits that at minimum align with current essential academic learning requirements at grade ten and/or above plus content that is determined by the local school district. The assessment of achieved competence in this subject area is to be determined by the local district although state law requires districts to have "assessments or other strategies" in health and fitness at the high school level by 2008-09. The state superintendent's office has developed classroom-based assessment models for districts to use (RCW 28A.230.095).

(i) The fitness portion of the requirement shall be met by course work in fitness education. The content of fitness courses shall be determined locally under WAC 180-51-025. Suggested fitness course outlines shall be developed by the office of the superintendent of public instruction. Students may be excused from the physical portion of the fitness requirement under RCW 28A.230.050. Such excused students shall be required to substitute equivalency credits in accordance with policies of boards of directors of districts, including demonstration of the knowledge portion of the fitness requirement.

(ii) "Directed athletics" shall be interpreted to include community-based organized athletics.

(f) One **arts** credit that at minimum is aligned with current essential academic learning requirements at grade ten and/or above plus content that is determined by the local school district. The assessment of achieved competence in this subject area is to be determined by the local district although state law requires districts to have "assessments or other strategies" in arts at the high school level by 2008-09. The state superintendent's office has developed classroom-based assessment models for districts to use (RCW 28A.230.-095). The essential content in this subject area may be satisfied in the visual or performing arts.

(g) One credit in **occupational education**. "Occupational education" means credits resulting from a series of learning experiences designed to assist the student to acquire and demonstrate competency of skills under student learning goal four and which skills are required for success in current and emerging occupations. At a minimum, these competencies shall align with the definition of an exploratory course as proposed or adopted in the career and technical education program standards of the office of the superintendent of public instruction. The assessment of achieved competence in this subject area is determined at the local district level.

(h) Five and one-half electives: Study in a world language other than English or study in a world culture may satisfy any or all of the required electives. The assessment of achieved competence in these subject areas is determined at the local district level.

(i) Each student shall complete a culminating project for graduation. The project shall consist of the student demonstrating both their learning competencies and preparations related to learning goals three and four. Each district shall define the process to implement this graduation requirement, including assessment criteria, in written district policy.

(j) Each student shall have a high school and beyond plan for their high school experience, including what they expect to do the year following graduation.

(k) Each student shall attain a certificate of academic achievement or certificate of individual achievement. The tenth grade Washington assessment of student learning and Washington alternate assessment system shall determine attainment.

(2) State board of education approved private schools under RCW 28A.305.130(5) may, but are not required to, align their curriculums with the state learning goals under RCW 28A.150.210 or the essential academic learning requirements under RCW 28A.655.070.

**WAC 180-90-105 Purpose and authority.** (1) The purpose of this chapter is to establish the procedures and conditions governing the approval of private schools by the state board of education and rescission of such approval.

(2) The authority for this chapter is RCW 28A.195.040 which authorizes the state board of education to promulgate rules and regulations for the approval of private schools for the purpose of implementing RCW 28A.225.010.

[Statutory Authority: RCW 28A.195.040. 03-04-053, § 180-90-105, filed 1/29/03, effective 3/1/03. Statutory Authority: 1990 c 33. 90-17-009, § 180-90-105, filed 8/6/90, effective 9/6/90. Statutory Authority: RCW 28A.02.240. 85-24-056 (Order 23-85), § 180-90-105, filed 12/2/85.]

**WAC 180-90-112 Definitions.** The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Approved private school" means a nonpublic school or nonpublic school district conducting a program consisting of kindergarten and at least grade one, or a program consisting of any or all of grades one through twelve which has been approved by the state board of education in accordance with the minimum standards for approval as prescribed in this chapter.

(2)(a) "Reasonable health requirements" means those standards contained in chapter 248-64 WAC as adopted by the state board of health.

(b) "Reasonable fire safety requirements" means those standards adopted by the state fire marshal pursuant to chapter 48.48 RCW.

(3)(a) "Minor deviation" means a variance from the standards established by these regulations which represents little or no threat to the health or safety of students and school personnel, and which does not raise a question as to the ability of the school to provide an educational program which is in substantial compliance with the minimum standards set forth in WAC 180-90-160, and which, therefore, does not preclude the granting of full approval.

(b) "Major deviation" means a variance from the standards established by these regulations which represents little or no threat to the health or safety of students and school personnel but raises a question as to the ability of the school to provide an educational program which substantially complies with the minimum standards set forth in WAC 180-90-160, but is not so serious as to constitute an unacceptable deviation.

(c) "Unacceptable deviation" means a variance from the standards established by these regulations which either:

(i) Constitutes a serious, imminent threat to the health or safety of students or school personnel; or

(ii) Demonstrates that the school is not capable of providing an educational program which substantially complies with the minimum standards set forth in WAC 180-90-160.

(4) "Total instructional hour offering" means those hours when students are provided the opportunity to engage in educational activity planned by and under the direction of school staff, as directed by the administration and board of directors, inclusive of intermissions for class changes, recess and teacher/parent-guardian conferences which are planned and scheduled by the approved private school for the purpose of discussing students' educational needs for progress, and exclusive of time actually spent for meals.

(5)(a) "Non-Washington state certificated teacher" means a person who has:

(i) A K-12 teaching certificate from a nationally accredited preparation program, other than Washington state, recognized by the U.S. Department of Education; or

(ii) A minimum of forty-five quarter credits beyond the baccalaureate degree with a minimum of forty-five quarter credits in courses in the subject matter to be taught or in courses closely related to the subject matter to be taught; or

(iii) A minimum of three calendar years of experience in a specialized field. For purposes of this subsection the term "specialized field" means a specialized area of the curriculum where skill or talent is applied and where entry into an occupation in such field generally does not require a baccalaureate degree, including, but not limited to, the fields of art, drama, dance, music, physical education, and career and technical or occupational education.

(b) "Exceptional case" means that a circumstance exists within a private school in which:

(i) The educational program offered by the private school will be significantly improved with the employment of a non-Washington state certificated teacher. Each teacher not holding a valid Washington state certificate shall have experience or academic preparation appropriate to K-12 instruction and consistent with the school's mission. Such experience or academic preparation shall be consistent with the provisions of (c) of this subsection; and

(ii) The school which employs a non-Washington state certificated teacher or teachers pursuant to this subsection

employs at least one person certified pursuant to rules of the state board of education and (c) of this subsection to every twenty-five FTE students enrolled in grades kindergarten through twelve. The school will report the academic preparations and experience of each teacher providing K-12 instruction; and

(iii) The non-Washington state certificated teacher of the private school, employed pursuant to this section and as verified by the private school, meets the age, good moral character, and personal fitness requirements of WAC 180-79A-150 (1) and (2), has not had his or her teacher's certificate revoked by any state or foreign country. (WAC 180-79A-155 (5)(a).)

(c) "Unusual competence": As applied to an exceptional case wherein the educational program as specified in RCW 28A.195.010 and WAC 180-90-160(7) will be significantly improved with the employment of a non-Washington state certificated teacher as defined in (a) of this subsection.

(d) "General supervision" means that a Washington state certificated teacher or administrator shall be generally available at the school site to observe and advise the teacher employed under provision of (c) of this subsection and shall evaluate pursuant to policies of the private school.

[Statutory Authority: RCW 28A.195.040. 03-04-053, § 180-90-112, filed 1/29/03, effective 3/1/03. Statutory Authority: RCW 28A.02.240. 85-24-056 (Order 23-85), § 180-90-112, filed 12/2/85.]

(2) The superintendent of public instruction shall review each certificate. The review shall be completed within thirty days after receipt of a completed application.

Upon receipt of the narrative report, the superintendent of public instruction shall transmit the recommendation and the narrative report to the state board of education.

(4) If major deviations are found and the private school in its narrative report, supplemented by direct testimony to the state board of education, demonstrates it is not practical to correct such major deviations prior to the commencement of the annual school term but establishes to the satisfaction of the state board of education its commitment to correct such deviation as soon as is practical, the state board of education shall grant such private school provisional approval for the period of time the state board of education determines is necessary to correct the major deviation but no longer than one year.

(5) If unacceptable deviations are found or if the private school fails to comply with corrective conditions within subsection (2), (3), or (4) of this section for minor or major deviations, state board of education approval shall be denied.

This request shall be granted if the superintendent finds that the private school was not sufficiently developed prior to the 90 day time period to enable it to comply with that requirement. The superintendent of public instruction shall have the discretion to grant the request in

other exceptional circumstances. If said request is granted, the review shall be completed within thirty days and the findings and recommendations presented to the state board of education.

WAC 180-96-010 Purpose. Persons who are sixteen years of age and under nineteen years of age must have a substantial and warranted reason for leaving the regular high

school program, or have completed a program of home-based instruction, as a condition to taking the general educational development test and receiving a certificate of educational competence. The purpose of these state board of education rules is to establish the process and criterion for determining whether a person within that age range has such a substantial and warranted reason or has completed a program of home-based instruction. Once such a person establishes that he or she has met either one of the two conditions, he or she is eligible to pursue taking the general educational development test in accordance with rules of the state board for community and technical colleges which are codified at chapter 131-48 WAC.

### PERFORMANCE IMPROVEMENT GOALS

#### WAC

180-105-020	Reading and mathematics.
180-105-040	Definitions.
180-105-060	High school graduation.

#### **WAC 180-105-020 Reading and mathematics.** (1)

Each school district board of directors shall by December 15, 2003:

(a) Adopt district-wide performance improvement goals using the federal requirements to determine the increase in the percentage of students who meet or exceed the standard on the Washington assessment of student learning for reading and mathematics in grades four, seven, and ten; and

(b) Direct each school in the district that administers the Washington assessment of student learning for grade four, seven, or ten to adopt performance improvement goals using the federal requirements to determine the increase in the percentage of students meeting the standard for its fourth, seventh, or tenth grade students in reading and mathematics.

(2) School districts and schools shall establish separate district-wide and school reading and mathematics improvement goals using the federal requirements to determine the increase in requirements under subsection (1) of this section for each of the following groups of students:

- All students;
- Students of each major racial and ethnic group;
- Economically disadvantaged students;
- Students with disabilities; and
- Students with limited English proficiency.

(3) School districts and schools are not required to publish numerical improvement goals in a grade level for reading and mathematics for 2004 or in any year thereafter for any student group identified in subsection (2) of this section in which there were fewer than ten students eligible to be assessed on the Washington assessment of student learning in the prior year. However, this subsection shall not be con-

strued to affect WAC 180-16-220 (2)(b) or any other requirements for school and school district improvement plans.

(4) Annual performance improvement goals for both school districts and schools shall be determined:

(a) By using the starting point and annual goals established using the federal requirements for determining starting points in the 2003 Washington State No Child Left Behind (NCLB) Accountability Plan.

(b) If the performance improvement goals established by using the federal requirements to determine the increase for assessments administered in the spring of 2003 and each year thereafter through and including assessments administered in the spring of 2013 are not met, but the other indicator is met [the other indicator for high schools is the graduation goal (WAC 180-105-040(4)) and the other indicator for elementary and middle schools is the unexcused absences goal (Washington State Accountability System under NCLB 2001)] then a substitute calculation may be made. That substitute calculation representing satisfactory progress shall not be less than the sum of:

(i) The percentage of students meeting standard on the assessments administered in the spring of the preceding year for the relevant student group, grade level and subject; and

(ii) The percentage of students who did not meet standard on the assessments administered in the spring of the preceding year for the relevant student group, grade level and subject, multiplied by ten percent.

(c) The performance improvement goals for assessments administered in the spring of 2014 shall be that all students eligible to be assessed meet standard on the Washington assessment of student learning.

(5) School districts and schools shall be deemed to have met the performance improvement goals established pursuant to this chapter if the school district or school achieves the minimum improvement goal required under subsection (4) of this section, even if the school district or school does not achieve the performance improvement goals established by using the federal requirements to determine the increase.

(6) No performance improvement goal for a group in a subject and grade established pursuant to this section shall be used for state or federal accountability purposes if fewer than thirty students in the group for a subject and grade are eligible to be assessed on the Washington assessment of student learning.

**WAC 180-105-040 Definitions.** As used in Title 3 WAC:

(1) "High school" means a public school in the state enrolling students in any of grades nine through twelve.

(2) "Graduation rate" means the percentage of students who receive a regular high school diploma within four academic years of having enrolled for the first time as ninth grade students. Students who transfer to another school less than four academic years after initial enrollment in the ninth grade shall not be included in the calculation of the gradua-

tion rate for the school from which the student transfers. Students who become deceased shall not be included in the calculation of the graduation rate for the school last attended. Students who earn a regular high school diploma after their four academic years will be included in additional calculations and reports for the year a regular high school diploma is completed.

(3) "Graduation rate goal" means the expected minimum graduation rate reported in a particular year for the prior year's graduating class. For example, the graduation rate goal for 2006 relates to students in the class of 2005.

(4) "Graduating class" or "class of" or "cohort" of any particular year means the group of students who are scheduled to graduate in that particular year after having completed grades nine through twelve in four or fewer academic years.

**WAC 180-105-060 High school graduation.** (1) Each school district board of directors shall by December 15, 2005, revise district-wide graduation rate goals for 2006 and each year thereafter and shall direct each high school in the district to revise graduation rate goals for 2006 and each year thereafter, subject to approval by the board.

(2) The minimum graduation rate goals through 2013 shall be as follows for each of the nine groups of students listed in WAC 180-105-040(4):

(a) Sixty-six percent in 2005, one percentage point above the previous year's goal from 2006 through 2009, and three percentage points above the previous year's goal in 2010 through 2013; or

(b) For any student group whose graduation rate falls below sixty-six percent in 2005, the minimum goal for 2005 is two percentage points above that group's graduation rate in 2004, an additional two percentage points per year above the previous year's goal in 2006 through 2009, and an additional four percentage points per year above the previous year's goal in 2010 through 2013, until the rate for that group meets or exceeds the goal described in (a) of this subsection.

(3) Graduation rate goals in 2014 and each year thereafter for each group of students listed in WAC 180-105-040(4) shall be not less than eighty-five percent.

(4) School district boards of directors are authorized to adopt district-wide graduation rate goals and to approve high school graduation rate goals that exceed the minimum level required under this section. However, district-wide and high school graduation rate goals that exceed the minimum level required under this section shall not be used for federal or state accountability purposes.
