Chapter 180-18 WAC
WAIVERS FOR RESTRUCTURING PURPOSES

WAC 180-18-010 Purpose and authority.
WAC 180-18-030 Waiver from total instructional hour requirements.
WAC 180-18-040 Waivers from minimum one hundred eighty-day school year requirement and student-to-teacher ratio requirement.
WAC 180-18-050 Procedure to obtain waiver.
WAC 180-18-055 Alternative high school graduation requirements.

DISPOSITION OF SECTIONS FORMERLY CODIFIED IN THIS CHAPTER

WAC 180-18-010 Purpose and authority. (1) The purpose of this chapter is to support local educational improvement efforts by establishing policies and procedures by which schools and school districts may request waivers from basic education program approval requirements.

(2) The authority for this chapter is RCW 28A.305.140 and 28A.655.180(1).

WAC 180-18-030 Waiver from total instructional hour requirements. A district desiring to improve student achievement by enhancing the educational program for all students may apply to the state board of education for a waiver from the total instructional hour requirements. The state board of education may grant said waiver requests pursuant to RCW 28A.305.140 and WAC 180-18-050 for up to three school years.

WAC 180-18-040 Waivers from minimum one hundred eighty-day school year requirement and student-to-teacher ratio requirement. (1) A district desiring to improve student achievement by enhancing the educational program for all students in the district or for individual schools in the district may apply to the state board of education for a waiver from the provisions of the minimum one hundred eighty-day school year requirement pursuant to RCW 28A.305.140 and WAC 180-16-215 by offering the equivalent in annual minimum program hour offerings as prescribed in RCW 28A.150.220 in such grades as are conducted by such school district. The state board of education may grant said initial waiver requests for up to three school years.

(2) A district that is not otherwise ineligible as identified under WAC 180-18-050 (3)(b) may develop and implement a plan that meets the program requirements identified under WAC 180-18-050(3) to improve student achievement by enhancing the educational program for all students in the district or for individual schools in the district for a waiver from the provisions of the minimum one hundred eighty-day school year requirement pursuant to RCW 28A.305.140 and WAC 180-16-215 by offering the equivalent in annual minimum program hour offerings as prescribed in RCW 28A.150.220 in such grades as are conducted by such school district.

(3) A district desiring to improve student achievement by enhancing the educational program for all students in the district or for individual schools in the district may apply to the state board of education for a waiver from the student-to-teacher ratio requirement pursuant to RCW 28A.150.250 and WAC 180-16-210, which requires the ratio of the FTE students to kindergarten through grade three FTE classroom teachers shall not be greater than the ratio of the FTE students to FTE classroom teachers in grades four through twelve. The state board of education may grant said initial waiver requests for up to three school years.

WAC 180-18-050 Procedure to obtain waiver. (1) State board of education approval of district waiver requests pursuant to WAC 180-18-030 and 180-18-040 (1) and (3) shall occur at a state board meeting prior to implementation. A district’s waiver application shall be in the form of a resolution adopted by the district board of directors. The resolution shall identify the basic education requirement for which the waiver is requested and include information on how the waiver will support improving student achievement. The resolution shall be accompanied by information detailed in the

(11/16/10)
guidelines and application form available on the state board of education’s web site.

(2) The application for a waiver and all supporting documentation must be received by the state board of education at least fifty days prior to the state board of education meeting where consideration of the waiver shall occur. The state board of education shall review all applications and supporting documentation to insure the accuracy of the information. In the event that deficiencies are noted in the application or documentation, districts will have the opportunity to make corrections and to seek state board approval at a subsequent meeting.

(3)(a) Under this section, a district meeting the eligibility requirements may develop and implement a plan that meets the program requirements identified under this section and any additional guidelines developed by the state board of education for a waiver from the provisions of the minimum one hundred eighty-day school year requirement pursuant to RCW 28A.305.140 and WAC 180-16-215. The plan must be designed to improve student achievement by enhancing the educational program for all students in the district or for individual schools in the district by offering the equivalent in annual minimum program hour offerings as prescribed in RCW 28A.150.220 in such grades as are conducted by such school district. This section will remain in effect only through August 31, 2018. Any plans for the use of waived days authorized under this section may not extend beyond August 31, 2018.

(b) A district is not eligible to develop and implement a plan under this section if:

(i) The superintendent of public instruction has identified a school within the district as a persistently low achieving school; or

(ii) A district has a current waiver from the minimum one hundred eighty-day school year requirement approved by the board and in effect under WAC 180-18-040.

(c) A district shall involve staff, parents, and community members in the development of the plan.

(d) The plan can span a maximum of three school years.

(e) The plan shall be consistent with the district’s improvement plan and the improvement plans of its schools.

(f) A district shall hold a public hearing and have the school board approve the final plan in resolution form.

(g) The maximum number of waived days that a district may use is dependent on the number of learning improvement days, or their equivalent, funded by the state for any given school year. For any school year, a district may use a maximum of three waived days if the state does not fund any learning improvement days. This maximum number of waived days will be reduced for each additional learning improvement day that is funded by the state. When the state funds three or more learning improvement days for a school year, then no days may be waived under this section.

(h) The plan shall include goals that can be measured through established data collection practices and assessments. At a minimum, the plan shall include goal benchmarks and results that address the following subjects or issues:

(i) Increasing student achievement on state assessments in reading, mathematics, and science for all grades tested;

(ii) Reducing the achievement gap for student subgroups;

(iii) Improving on-time and extended high school graduation rates (only for districts containing high schools).

(i) Under this section, a district shall only use one or more of the following strategies in its plan to use waived days:

(i) Use evaluations that are based in significant measure on student growth to improve teachers' and school leaders' performance;

(ii) Use data from multiple measures to identify and implement comprehensive, research-based, instructional programs that are vertically aligned from one grade to the next as well as aligned with state academic standards;

(iii) Promote the continuous use of student data (such as from formative, interim, and summative assessments) to inform and differentiate instruction to meet the needs of individual students;

(iv) Implement strategies designed to recruit, place, and retain effective staff;

(v) Conduct periodic reviews to ensure that the curriculum is being implemented with fidelity, is having the intended impact on student achievement, and is modified if ineffective;

(vi) Increase graduation rates through, for example, credit-recovery programs, smaller learning communities, and acceleration of basic reading and mathematics skills;

(vii) Establish schedules and strategies that increase instructional time for students and time for collaboration and professional development for staff;

(viii) Institute a system for measuring changes in instructional practices resulting from professional development;

(ix) Provide ongoing, high-quality, job-embedded professional development to staff to ensure that they are equipped to provide effective teaching;

(x) Develop teacher and school leader effectiveness;

(xi) Implement a school-wide "response-to-intervention" model;

(xii) Implement a new or revised instructional program;

(xiii) Improve student transition from middle to high school through transition programs or freshman academies;

(xiv) Develop comprehensive instructional strategies;

(xv) Extend learning time and community oriented schools.

(j) The plan must not duplicate activities and strategies that are otherwise provided by the district through the use of late-start and early-release days.
(k) A district shall provide notification to the state board of education thirty days prior to implementing a new plan. The notification shall include the approved plan in resolution form signed by the superintendent, the chair of the school board, and the president of the local education association; include a statement indicating the number of certificated employees in the district and that all such employees will be participating in the strategy or strategies implemented under the plan for a day that is subject to a waiver, and any other required information. The approved plan shall, at least, include the following:

(i) Members of the plan’s development team;
(ii) Dates and locations of public hearings;
(iii) Number of school days to be waived and for which school years;
(iv) Number of late-start and early-release days to be eliminated, if applicable;
(v) Description of the measures and standards used to determine success and identification of expected benchmarks and results;
(vi) Description of how the plan aligns with the district and school improvement plans;
(vii) Description of the content and process of the strategies to be used to meet the goals of the waiver;
(viii) Description of the innovative nature of the proposed strategies;
(ix) Details about the collective bargaining agreements, including the number of professional development days (district-wide and individual teacher choice), full instruction days, late-start and early-release days, and the amount of other noninstruction time; and
(x) Include how all certificated staff will be engaged in the strategy or strategies for each day requested.

(l) Within ninety days of the conclusion of an implemented plan a school district shall report to the state board of education on the degree of attainment of the plan’s expected benchmarks and results and the effectiveness of the implemented strategies. The district may also include additional information, such as investigative reports completed by the district or third-party organizations, or surveys of students, parents, and staff.

(m) A district is eligible to create a subsequent plan under this section if the summary report of the enacted plan shows improvement in, at least, the following plan’s expected benchmarks and results:

(i) Increasing student achievement on state assessments in reading and mathematics for all grades tested;
(ii) Reducing the achievement gap for student subgroups;
(iii) Improving on-time and extended high school graduation rates (only for districts containing high schools).

(n) A district eligible to create a subsequent plan shall follow the steps for creating a new plan under this section. The new plan shall not include strategies from the prior plan that were found to be ineffective in the summary report of the prior plan. The summary report of the prior plan shall be provided to the new plan’s development team and to the state board of education as a part of the district’s notification to use a subsequent plan.

(o) A district that is ineligible to create a subsequent plan under this section may submit a request for a waiver to the state board of education under WAC 180-18-040(1) and subsections (1) and (2) of this section.

WAC 180-18-055 Alternative high school graduation requirements. (1) The shift from a time and credit based system of education to a standards and performance based education system will be a multiyear transition. In order to facilitate the transition and encourage local innovation, the state board of education finds that current credit-based graduation requirements may be a limitation upon the ability of high schools and districts to make the transition with the least amount of difficulty. Therefore, the state board will provide districts and high schools the opportunity to create and implement alternative graduation requirements.

(2) A school district, or high school with permission of the district board of directors, or approved private high school, desiring to implement a local restructuring plan to provide an effective educational system to enhance the educational program for high school students, may apply to the state board of education for a waiver from one or more of the requirements of chapter 180-51 WAC.

(3) The state board of education may grant the waiver for a period up to four school years.

(4) The waiver application shall be in the form of a resolution adopted by the district or private school board of directors which includes a request for the waiver and a plan for restructuring the educational program of one or more high schools which consists of at least the following information:

(a) Identification of the requirements of chapter 180-51 WAC to be waived;
(b) Specific standards for increased student learning that the district or school expects to achieve;
(c) How the district or school plans to achieve the higher standards, including timelines for implementation;
(d) How the district or school plans to determine if the higher standards are met;
(e) Evidence that the board of directors, teachers, administrators, and classified employees are committed to working cooperatively in implementing the plan;
(f) Evidence that students, families, parents, and citizens were involved in developing the plan; and
(g) Identification of the school years subject to the waiver.

(5) The plan for restructuring the educational program of one or more high schools may consist of the school improvement plans required under WAC 180-16-220, along with the requirements of subsection (4)(a) through (d) of this section.

(6) The application also shall include documentation that the school is successful as demonstrated by indicators such as, but not limited to, the following:

(a) The school has clear expectations for student learning;
(b) The graduation rate of the high school for the last three school years;
(c) Any follow-up employment data for the high school's graduate for the last three years;
(d) The college admission rate of the school's graduates the last three school years;
(e) Use of student portfolios to document student learning;
(f) Student scores on the high school Washington assessments of student learning;
(g) The level and types of family and parent involvement at the school;
(h) The school's annual performance report the last three school years; and
(i) The level of student, family, parent, and public satisfaction and confidence in the school as reflected in any survey done by the school the last three school years.

(7) A waiver of WAC 180-51-060 may be granted only if the district or school provides documentation and rationale that any noncredit based graduation requirements that will replace in whole or in part WAC 180-51-060, will support the state's performance-based education system being implemented pursuant to RCW 28A.630.885, and the noncredit based requirements meet the minimum college core admissions standards as accepted by the higher education coordinating board for students planning to attend a baccalaureate institution.

(8) A waiver granted under this section may be renewed upon the state board of education receiving a renewal request from the school district board of directors. Before filing the request, the school district shall conduct at least one public meeting to evaluate the educational requirements that were implemented as a result of the waiver. The request to the state board shall include information regarding the activities and programs implemented as a result of the waiver, whether higher standards for students are being achieved, assurances that students in advanced placement or other postsecondary options programs, such as but not limited to: College in the high school, running start, and tech-prep, shall not be disadvantaged, and a summary of the comments received at the public meeting or meetings.

(9) The state board of education shall notify the state board for community and technical colleges, the higher education coordinating board and the council of presidents of any waiver granted under this section.

(10) Any waiver requested under this section will be granted with the understanding that the state board of education will affirm that students who graduate under alternative graduation requirements have in fact completed state requirements for high school graduation in a nontraditional program.

(11) Any school or district granted a waiver under this chapter shall report annually to the state board of education, in a form and manner to be determined by the board, on the progress and effects of implementing the waiver.
