WAC 220-56-100 Definitions—Personal-use fishing.

The following definitions apply to personal use fishing in Titles 220 and 232 WAC:

(1) "Anadromous game fish" means steelhead, sea-run cutthroat trout, and sea-run Dolly Varden/bull trout.

(2) "Anti-snagging rule" means:

(a) Except when fishing with a buoyant lure (with no weights added to the lure or line) or trolling from a vessel or floating device, terminal fishing gear is limited to a lure or bait with one single point hook.

(b) Only single point hooks measuring not more than 3/4 inch from point to shank may be used and all hooks must be attached to or below the lure or bait.

(c) Weights may not be attached below or less than 12 inches above the lure or bait.

(3) "Bait" means any substance which attracts fish by scent or flavors. Bait includes any lure which uses scent or flavoring to attract fish.

(4) "Barbless hook" means a hook on which all barbs have been deleted when manufactured or filed off or pinched down.

(5) "Bass" means largemouth and smallmouth bass.

(6) "Bow and arrow fishing" means any method of taking, or attempting to take, fish by the use of an arrow equipped with a barbed head and a line attached, and propelled by a bow, as in the sport of archery, while the fisher is above the surface of the water.

(7) "Buoy 10 line" means a true north-south line projected through Buoy 10 at the mouth of the Columbia River. "Buoy 10 fishery" means a fishery between a line in the Columbia River from Tongue Point in Oregon to Rocky Point in Washington and the Buoy 10 line.

(8) "Buoyant lure" means a lure that floats on the surface of freshwater when no additional weight is applied to the line or lure, and when not being retrieved by a line.

(9) "Channel Marker 13 line" means a true north-south line through Grays Harbor Channel Marker 13.

(10) "Daily limit" means the maximum number or pounds of fish, shellfish, or seaweed of the required size of a given species or aggregate of species which a person may retain in a single day.

(11) "Fresh" means fish or shellfish that are refrigerated, iced, salted, or surface glazed.

(12) "Freshwater area" means:

(a) Within any freshwater river, lake, stream or pond.

(b) On the bank or within 10 yards of any freshwater river, lake, stream or pond.

A hatchery salmon is a salmon having a clipped adipose fin and a healed scar at the location of the clipped fin, regardless of whether the fish is missing a ventral fin.

(16) "Hook" means one single point, double or treble hook. A "single point hook" means a hook having only one point. A "double hook" means a hook having two points on a common shank. A "treble hook" means a hook having three points on a common shank.

(17) "Hook and line" or "angling" shall be identical in meaning and, except as provided in WAC 220-56-115, shall be defined as the use of not more than one line with three hooks attached to a pole held in hand while landing fish, or the use of a hand operated line without rod or reel, to which may be attached not more than three hooks. When fishing for bottom fish, "angling" and "jigging" shall be identical in meaning.

(18) "In the field or in transit" means at any place other than at the ordinary residence of the harvester. An ordinary residence is a residential dwelling where a person normally lives, with associated features such as address, telephone number, utility account, etc. A motor home or camper parked at a campsite or a vessel are not considered to be an ordinary residence.

WAC 220-56-175 Catch record cards. It is unlawful for any person to fail to comply with the catch record requirements as provided for in this section:

(1) In order to fish for or possess for personal use any Dungeness crab in Catch Record Card Area 4 east of the Bonilla-Tatoosh Line, and in Catch Record Card Areas 5-13, an angler must obtain and have in his or her personal possession a valid and appropriate Puget Sound Dungeness crab catch record card as described in WAC 220-69-236.

(2) In order to fish for or possess for personal use any anadromous salmon, sturgeon, halibut, or steelhead, an angler must obtain and have in his or her personal possession a valid and appropriate catch record card as described in WAC 220-69-236. The only exception is for commercially caught salmon retained for personal use, as provided for in WAC 220-20-016, and commercially caught sturgeon retained for personal use, as provided for in WAC 220-20-021. Also, a catch record card is not required for landlocked steelhead or for salmon in waters designated as "landlocked salmon rules apply" in WAC 232-28-619.

(3) To validate their catch record cards, anglers must completely, accurately, and legibly complete all personal identification information in ink on the catch record card before detaching the card from its underlying copy or, for automated licenses, affixing the appropriate validation sticker to the catch record card. A catch record card remains valid as long as there is one or more unfilled spaces available for the species being fished for, except:

(a) In the mainstem Columbia River downstream from where the river forms the common boundary between Oregon and Washington, a catch record card remains valid for catch-and-release sturgeon fishing when the sturgeon portion of the card is full.

(b) A person may not use a second or subsequent catch record card to retain sturgeon and wild steelhead after the first card is full.

(4) Immediately upon catching and possessing a salmon, steelhead, sturgeon or halibut, anglers must enter, in ink, in

the appropriate space on the card, the place, date of catch, and species (catch type). For sturgeon, anglers also must record the length of the fish; for halibut, anglers also must record the vessel type; and for salmon, anglers also must indicate whether or not the fish was marked.

(5) Immediately upon retaining a Puget Sound Dungeness crab aboard a vessel or on the shore, a fisher must enter, in ink, in the appropriate space on the Puget Sound Dungeness crab catch record card, the place and date of catch, the fishery type, and a tally mark for each Dungeness crab retained from each catch record card area fished. At the end of the fishing day, the fisher must enter the total number of crab tally marks for each fishery type.

(6)(a) Every person issued a catch record card must, by April 30 of the year after they used the card, return the card to the department of fish and wildlife. People issued a Puget Sound Dungeness crab catch record card must return the card to the Washington department of fish and wildlife or report the card information at the designated internet site by the dates indicated on the card.

(b) Effective December 1, 2009, and thereafter, failure to return a Dungeness crab catch record card or to report the Dungeness crab catch record card information at the designated internet site by the dates indicated on the card will result in a ten-dollar administrative fee. The administrative fee will be collected from anglers when they acquire a subsequent Puget Sound Dungeness crab endorsement.

(7) Any person possessing a catch record card must show the card to any law enforcement officer or authorized department employee who asks to inspect the card.

(8) A catch record card must not be transferred, borrowed, altered, or loaned to another person, unless pursuant to Substitute Senate Bill No. 6260, effective June 12, 2008.
