WAC 296-31-045 Can the department deny, revoke, suspend or impose conditions on a provider's authorization to treat crime victim claimants? The department has a duty to supervise the provisions of proper and necessary mental health care that is delivered promptly, efficiently and economically. We may deny, revoke, suspend or impose conditions on your authorization to treat crime victim claimants for reasons that include, but are not limited to:

1. Incompetence or negligence that results in injury to a client or that exposes the client to harm.
2. The possession, use, prescription for use, or distribution of controlled substances, legend drugs, or addictive, habituating or dependency-inducing substances except for therapeutic purposes.
3. Limits placed on your license, certification and/or registration by any court, board or administrative agency. The limits may be temporary or permanent and may involve probation, suspension or revocation.
4. The commission of any act involving moral turpitude, dishonesty, or corruption that relates to the practice of your profession. The act does not need to be a crime. If a court or other tribunal issues a conviction or finding regarding the act, a certified copy of the conviction or finding is conclusive evidence of the violation.
5. Failure to comply with our rules, orders or policies.
6. Failure, neglect or refusal to:
   a. Provide us with copies of your license, certification and/or registration and degree;
   b. Provide records requested by the department pursuant to a health care service review or an audit;

7. The submission or collusion in the submission of false or misleading reports or bills to any government agency.
8. Billing a claimant for:
   a. Treatment of a condition for which the department has accepted responsibility;
   b. The difference between the amount paid by the department and/or public or private insurance under the maximum allowable fee set forth in these rules and any other charge.
9. Repeated failure to notify the department immediately and prior to burial in any death, where cause of death is not definitely known and possibly related to a crime victim injury.
10. Repeated failure to recognize emotional and social factors that impede a client's recovery.
11. Repeated unreasonable refusal to comply with the recommendations of a board certified or qualified specialist who examines or reviews a claim for us.
12. Repeated use of treatment that is:
   a. Controversial or experimental;
   b. Contraindicated or hazardous;
   c. Performed after the condition stabilizes; or
   d. Performed after maximum mental health improvement is reached.
13. Mental incompetence declared by a court or other tribunal.
14. Failure to comply with the applicable code of professional conduct or ethics.
15. Failure to inform us of disciplinary action against your license, certification or registration to practice, issued by order or formal letter.
16. The finding of reason(s) to take action against your privileges to practice by any peer group review body.
17. Misrepresentation or omission of any material information in your application for authorization to treat crime victims.
18. Repeated billing of the department for services that are available to clients from public or private insurance sources. You must bill us only after all public or private insurance benefits are exhausted.

WAC 296-31-055 What type of corrective action can be taken against providers? (1) If the department finds reason to take corrective action, we may also order one or more of the following:

a. Recoup our payments to you with interest.
b. Deny or reduce payment.

d. Place you on a prepayment review status that requires you to submit supporting documents prior to payment.
e. Require you to satisfactorily complete education courses and/or programs.
f. Impose other appropriate restrictions or conditions, including revoking your privilege to be reimbursed for treating clients under the Crime Victims Act.
2. Cases involving questions of ethics or quality of care will be referred to the department of health.
3. We will forward a copy of any corrective action taken against you to the applicable disciplinary authority.

WAC 296-31-056 Can providers be charged interest on incorrect or inappropriate payments? (1) When you receive a payment to which you are not entitled, you must repay the excess payment, plus accrued interest, without regard to whether the excess payment occurred due to your error or department error or oversight.

EXCEPTION: If you accept in good faith a determination by the department that a crime victim client is eligible for benefits under the Crime Victims Act and we later determine the client was ineligible for services, interest will not begin to accrue until notification is received by you that the client was ineligible.

2. Interest will accrue on excess payments at the rate of one percent per month or portion of a month beginning on the thirty-first day after payment was made. When partial payment of an excess payment is made, interest accrues on the remaining balance.

3. The department has the option of requesting you to remit the amount of the excess payment and accrued interest or offsetting excess payments and accrued interest against future payments due to you.

WAC 296-31-070 What are my general obligations as an approved mental health provider? (1) When treating a crime victim who comes under our jurisdiction, you agree to accept and comply with this chapter, the department’s rules, and the Crime Victims Compensation Program’s Mental Health Treatment Rules and Fee Schedule.

(2) You must inform the client they may be entitled to benefits under the Crime Victims Act and provide whatever assistance is necessary for the client to apply for benefits. There is no charge for these services.
(3) It is the responsibility of the client to notify the provider if they believe their condition is related to a criminal act. If you discover a condition that you believe is crime related, you must notify the client. It is your responsibility to determine if you are the first treating provider.

(4) If you are the first treating provider, you must:
   (a) Provide crisis intervention as necessary;
   (b) Provide instructions or help the client complete their portion of the application for benefits; and
   (c) Continue necessary treatment according to our mental health rules if the client remains in your care.

(5) If you are not the first treating provider, you should ask the client if an application for benefits has been filed for the condition.

   (a) If an application for benefits has been filed, and you and the client agree that a change of provider is desirable, the department should be notified of the transfer according to WAC 296-31-068.

   (b) If an application for benefits has not been filed:
      (i) Provide instructions or help the client complete their portion of the application for benefits; and
      (ii) Include the name and address of the original provider, if known.

   Note: Providers must determine if the client has public or private insurance benefits available. If there is, the provider should make sure they would be able to continue treating under the client's primary insurance. Crime victims compensation is secondary to other benefits according to RCW 7.68.130.

(6) You must notify us and the client of the date they are released to regular work. Time-loss compensation terminates on the release date. We may allow further treatment if:
   (a) You request it;
   (b) Treatment is needed; and
   (c) The accepted condition is not fixed and stable.

(7) You must notify us if permanent functional impairment or loss (permanent partial disability) is indicated after maximum recovery of the accepted condition is achieved. We will arrange to have impairments rated according to WAC 296-20-200 et al.

(8) A client must not be billed for treatment, except under the following condition:

   A provider may require the client to pay for treatment if the client's eligibility is in question (e.g., when an investigation or claim determination is pending). If the claim is subsequently allowed, the provider must refund the client in full and bill us at their usual and customary fees if such rates are in excess of the public and private insurance entitlements.

(9) No fee is payable by the department for missed appointments unless the appointment is for an examination arranged by the department. Clients may be billed directly for missed or no show appointments.

WAC 296-31-071 What records must providers maintain? If providers request payment from us for service, they must:

   (1) Maintain all patient and billing records needed to:

   (a) Determine the extent of services provided to claimants or to their family members. Each record must, at a minimum:
      (i) Document the level and type of service provided; and
      (ii) Where applicable, indicate the name of our representative who authorized equipment or treatment.
    (b) Comply with our audit of services, if an audit is authorized.

   (2) Maintain records for audit purposes for at least five years from the claimant’s last treatment date.

   (3) Provide records to us, if requested.

Note: The confidentiality (safeguarding and release) of a claimant’s records is governed by RCW 7.68.140 and 7.68.145 of the Crime Victims Act.

   (b) You are complying with our mental health rules, fee schedules, and policies.

   A records review can become the basis of corrective action against you.

   (2) We may review your records:

      (a) Before, during or after delivery of services;
      (b) For cause or at random;
      (c) Using statistical sampling methods and projections based on sample findings; and

WAC 296-31-073 Can the department enlist utilization review or management programs? As a trustee of funds appropriated by the legislature, we have a duty to supervise the provisions of proper and necessary mental health care. Examples include, but are not limited to, managed care contracting, prior authorization of services, and alternative reimbursement systems.

(d) We receive monthly reports from you, outlining treatment and its effect on both the unrelated and accepted conditions.

(3) We will not approve or pay for treatment of:

WAC 296-31-075 What is excess recovery? The remaining balance of a recovery, which is paid to the victim but must be used to offset future payment of benefits.

How does excess effect the bill payment process?

(1) When an excess recovery exists, the department is not responsible for payment of bills.

(2) The provider must bill the department in accordance with the department’s medical aid rules and maximum fee schedules.

(3) The department will:

(a) Determine the amount payable according to the fee schedule;
(b) Credit the excess recovery with the amount payable; and
(c) Send the provider a remittance advice showing the amount due from the victim.

(4) The victim must pay the provider in accordance with the remittance advice.

(5) When the excess is reduced to zero the department will resume responsibility for payment of bills.

WAC 296-31-080 How do providers bill for services?

(1) Neither the department nor the claimant is required to pay for provider services which violate the mental health treatment rules, fee schedule or department policy.

(2) All fees listed are the maximum fees allowable. Providers must bill their usual and customary fee for each service. If this is less than our fee schedule rate, you must bill us at the lesser rate. The department will pay the lesser of the billed charge or the fee schedule’s maximum allowable.

The provider is prohibited from charging the claimant for any difference between the provider’s charge and our allowable amount.

(3) Regardless of who completes the bill form, you are responsible for the completeness and accuracy of the description of services and of the charges billed.

(4) All bills submitted to the department must:

(a) Be itemized on forms approved by us.

For example: Physicians, psychologists, advanced registered nurse practitioners and master level mental health counselors may use our form or the current Health Insurance Claim Form (as defined by the National Uniform Claim Committee). Hospitals use the current National Uniform Billing Form (as defined by the National Uniform Billing Committee) for institution services and the current Health Insurance Claim Form (as defined by the National Uniform Claim Committee) for professional services.

(b) Refer to the crime victims compensation program mental health billing instructions for detailed billing information. Billings must be submitted in accordance with these instructions. Procedure codes and fees are available on the crime victims compensation website or by contacting the crime victims program.

(5) The following supporting documentation must be maintained and, if applicable, submitted when billing for services:

(a) Intake evaluation;
(b) Progress reports;
(c) Consultation reports;
(d) Special or diagnostic study reports;
(e) Independent assessment or closing exam reports;
(f) BR (by report) describing why a service or procedure is too unusual, variable, or complex to be assigned a value unit;
(g) The claimant’s or patient’s (if patient is other than claimant) private or public insurance information;

For example: When services provided are for survivors of homicide victims.

(6) The claim number must appear in the appropriate field on each bill form. Reports and other correspondence must have the claim number in the upper right hand corner of each page.

(7) You may rebill us if your bill is not reported on your remittance advice within sixty days. Unless the information on the original bill was incorrect, a rebill should be identical. Rebills must be submitted for services denied if a claim is closed or rejected and subsequently reopened or allowed.

(8) We will adjust charges when appropriate. We must provide you with a written explanation as to why a billing was adjusted. A written explanation is not required if the adjustment was made solely to conform to our maximum allowable fees. Any inquiries regarding adjustment of charges must be received in the required format within ninety days from the date of payment.
