WAC 388-823-0010 Definitions. The following definitions apply to this chapter:

"Client" means a person with a developmental disability as defined in chapter 388-823 WAC who is currently eligible and active with the division of developmental disabilities.

"DAS" means differential ability scales, which is a cognitive abilities battery for children and adolescents at least age two years, six months but under age eighteen.

"DDD" means the division of developmental disabilities, a division within the aging and disability services administration, department of social and health services.

"Department" means the department of social and health services.

"Division" means the division of developmental disabilities.

"Expiration date" means a specific date that your eligibility as a client of DDD and all services paid by DDD will stop.

"FSIQ" means the full scale intelligence quotient which is a broad measure of intelligence achieved through one of the standardized intelligence tests included in these rules. Any standard error of measurement value will not be taken into consideration when making a determination for DDD eligibility.

"ICAP" means the inventory for client and agency planning. This is a standardized assessment of functional ability. The adaptive behavior section of the ICAP assesses daily living skills and the applicant awareness of when to perform these skills. The goal is to get a snapshot of his/her ability.

"IMR" means an institution for the mentally retarded, per chapter 388-835 WAC or chapter 388-837 WAC.

"K-ABC" means Kaufman assessment battery for children, which is a clinical instrument for assessing intellectual development. It is an individually administered test of intelligence and achievement for children at least age two years, six months but under age twelve years, six months. The K-ABC comprises four global scales, each yielding standard scores. A special nonverbal scale is provided for children at least age four years but under age twelve years, six months.

"Leiter-R" means Leiter international performance scale - revised, which is an untimed, individually administered test of nonverbal cognitive ability for individuals at least age two years but under age twenty-one years.

"RHC" means one of five residential habilitation centers operated by the division: Lakeland Village, Yakima Valley School, Fircrest, Rainier School, and Francis Haddon Morgan Center.

"SIB-R" means the scale of independent behavior-revised which is an adaptive behavior assessment derived from quality standardization and norming. It can be administered as a questionnaire or as a carefully structured interview, with special materials to aid the interview process.

"SOLA" means a state operated living alternative residential service for adults operated by the division.

"Stanford-Binet" is a battery of fifteen subtests measuring intelligence for individuals at least age two years but under age twenty-three years.

The Wechsler has both a verbal scale and a performance scale. The Wechsler is used with individuals at least age three years but under age seventy-four years. The verbal scale can be used alone with individuals who have visual or motor impairments, and the performance scale can be used alone with individuals who cannot adequately understand or produce spoken language. There are three Wechsler intelligence scales, dependent upon the age of the individual:

- The Wechsler preschool and primary scale of intelligence - revised (WPPSI-R), for children at least age three years but under age seven years;
- The Wechsler intelligence scale for children - third edition, (WISC-III), for children at least age six years but under age sixteen years; and
- The Wechsler adult intelligence scale - revised (WAIS-R), for individuals at least age sixteen years but under age seventy-four years.

DETERMINATION OF A DEVELOPMENTAL DISABILITY MENTAL RETARDATION

WAC 388-823-0200 What evidence do I need to substantiate "mental retardation" as an eligible condition? Evidence that you have an eligible condition under "mental retardation" requires a diagnosis of mental retardation by a licensed psychologist, or a finding of mental retardation by a certified school psychologist or a diagnosis of Down syndrome by a licensed physician.

(1) This diagnosis is based on documentation of a life-long condition originating before age eighteen.

(2) The condition results in significantly below average intellectual and adaptive skills functioning that will not improve with treatment, instruction or skill acquisition.

(3) A diagnosis or finding of mental retardation by the examining psychologist must include an evaluation of adaptive functioning that includes the use of a standardized adaptive behavior scale indicating adaptive functioning that is more than two standard deviations below the mean, in at least two of the following areas: Communication, self care, home living, social/interpersonal skills, use of community resources, self direction, functional academic skills, work, leisure, health, and safety.

[Statutory Authority: RCW 71A.10.020, 71A.12.030, 71A.12.050, 71A.12.-070, 71A.16.020, 71A.16.030, 71A.16.040, 71A.16.050, and chapters 71A.10, 71A.12, and 71A.16 RCW. WSR 05-12-130, § 388-823-0200, filed 6/1/05, effective 7/2/05.]

WAC 388-823-0210 If I have mental retardation, how do I meet the definition of substantial limitations in adaptive functioning? (1) If you meet the definition of mental retardation in WAC 388-823-0200, you must have substantial limitations in adaptive functioning of two standard deviations below the mean and a full-scale intelligence quotient (FSIQ) of more than two standard deviations below the mean.

(2) The substantial limitation in adaptive functioning must reflect your current condition.

[Statutory Authority: RCW 71A.10.020, 71A.12.030, 71A.12.050, 71A.12.-070, 71A.16.020, 71A.16.030, 71A.16.040, 71A.16.050, and chapters 71A.10, 71A.12, and 71A.16 RCW. WSR 05-12-130, § 388-823-0210, filed 6/1/05, effective 7/2/05.]

WAC 388-823-0215 What evidence do I need of my FSIQ? Evidence of a qualifying FSIQ to meet the definition of substantial limitations for the condition of mental retardation is a FSIQ derived from a Stanford-Binet, Wechsler intelligence scale (Wechsler), differential abilities scale (DAS),

(6/1/05)

Kaufman assessment battery for children (K-ABC), or a Leiter international performance scale-revised (Leiter-R) if you have a significant hearing impairment or English is not your primary language.

(1) The test must be administered by a licensed psychologist or certified school psychologist.

(2) The FSIQ cannot be attributable to mental illness or other psychiatric condition occurring at any age; or other illness or injury occurring after age eighteen:

(a) If you are dually diagnosed with mental retardation and mental illness, other psychiatric condition, or other illness or injury, DDD must make its eligibility decision based solely on the diagnosis of mental retardation, excluding the effects of the mental illness, other psychiatric condition, illness or injury; or

(b) If DDD is unable to make this eligibility decision based solely on the diagnosis of mental retardation due to the existence of mental illness, other psychiatric condition or illness or injury, DDD will deny eligibility.

(3) If you have a significant hearing impairment, the administering professional may estimate an FSIQ score using only the performance IQ score of the appropriate Wechsler or administer the Leiter-R.

(4) If you have a vision impairment that prevents completion of the performance portion of the IQ test, the administering professional may estimate an FSIQ using only the verbal IQ score of the appropriate Wechsler.

(5) The following table shows the standard deviation for each assessment and the qualifying score of more than two standard deviations below the mean.

ASSESSMENT	STANDARD DEVIATION	QUALIFYING SCORE
Stanford-Binet 4th edition	16	67 or less
Stanford-Binet 5th edition	15	69 or less
Wechsler Intelligence Scales (Wechsler)	15	69 or less
Differential Abilities Scale (DAS)	15	69 or less

WAC 388-823-0220 If I am too intellectually impaired to complete a standardized IQ test, how do I meet the criteria under mental retardation? If in the opinion of the examining psychologist, you are too intellectually impaired to complete all of the subtests necessary to achieve an FSIQ score on an approved standardized IQ test, the examining psychologist may estimate an FSIQ from the available information based on a professional judgment about your intellectual functioning.

WAC 388-823-0230 If I have more than one FSIQ score, what criteria will DDD use to select the FSIQ score for determining eligibility? (1) If you have more than one FSIQ, DDD will review the pattern of FSIQ scores.

(a) If there is no significant difference among these, DDD will accept the score the closest to age eighteen.

(b) If there are significant differences among the FSIQ scores, DDD will review the pattern and attempt to determine reasons for the fluctuations to ensure that the FSIQ is resulting from mental retardation and not from mental illness or other psychiatric condition, or illness, or other injury.

(i) If you are age eighteen or older, DDD will use the FSIQ obtained at age thirteen or older, provided the FSIQ is resulting from mental retardation.

(ii) If you are under age eighteen, DDD will use the most current FSIQ, provided the FSIQ is resulting from mental retardation.

(2) DDD will exclude any FSIQ score attributable to a condition or impairment that began on or after your eighteenth birthday.

CEREBRAL PALSY

WAC 388-823-0300 What evidence do I need to substantiate "cerebral palsy" as an eligible condition? Evidence that you have an eligible condition under "cerebral palsy" requires a diagnosis by a licensed physician of cerebral palsy, quadriplegia, hemiplegia, or diplegia with symptoms that:

- (1) Existed prior to age three; and
- (2) Impair control of movement.

[Statutory Authority: RCW 71A.10.020, 71A.12.030, 71A.12.050, 71A.12.-070, 71A.16.020, 71A.16.030, 71A.16.040, 71A.16.050, and chapters 71A.10, 71A.12, and 71A.16 RCW. WSR 05-12-130, § 388-823-0300, filed 6/1/05, effective 7/2/05.]

WAC 388-823-0310 If I have cerebral palsy, how do I meet the definition of substantial limitations to adaptive functioning? If you have an eligible condition of cerebral

palsy, substantial limitations of adaptive functioning is the need for direct physical assistance on a daily basis with two or more of the following activities as a result of your condition:

- (1) Toileting;
- (2) Bathing;
- (3) Eating;
- (4) Dressing;
- (5) Mobility; or
- (6) Communication.

WAC 388-823-0320 What evidence do I need of my need for direct physical assistance with activities of daily living? Evidence for direct physical assistance with activities of daily living means:

(1) You need the presence and assistance of another person on a daily basis to be able to communicate and be understood by any other person.

(a) If you are able to communicate through a communication device you will be considered independent in communication.

(b) You must require more than "setting up" of the communication device.

(2) You need direct physical assistance from another person on a daily basis with toileting, bathing, eating, dressing, or mobility.

(a) You require more than "setting up" the task to enable you to perform the task independently.

(b) You must require direct physical assistance for more than transferring in and out of wheelchair, in and out of the bath or shower, and/or on and off of the toilet.

(c) Your ability to be mobile is your ability to move yourself from place to place, not your ability to walk. For instance, if you can transfer in and out of a wheelchair and are independently mobile in a wheelchair, you do not meet the requirement for direct physical assistance with mobility.

WAC 388-823-0330 How can I document my need for direct physical assistance? Any of the following can be used as evidence to determine your direct physical assistance needs:

(1) The comprehensive assessment reporting evaluation (CARE) tool or other department assessments that measure direct assistance needs in the areas specified above;

(2) Assessments and reports from educational or health care professionals that are current and consistent with your current functioning;

(3) In the absence of professional reports or assessments, DDD may document its own observation of your direct assistance needs along with reported information by family and others familiar with you.

EPILEPSY

WAC 388-823-0400 What evidence do I need to substantiate "epilepsy" as an eligible condition? Evidence of an eligible condition under "epilepsy" requires a diagnosis of a neurological condition that produces brief disturbances in the normal electrical functions of the brain resulting in seizures.

(1) This condition requires a diagnosis of epilepsy or seizure disorder that originated prior to age eighteen and is expected to continue indefinitely.

(2) The diagnosis must be made by a board certified neurologist and be based on documentation of medical history and neurological testing.

(3) You must provide confirmation from your physician or neurologist that your seizures are currently uncontrolled and ongoing or recurring and cannot be controlled by medication.

(4) DDD will not consider your seizures uncontrolled or ongoing if it is documented or reported that you refuse to take medications.

(5) Your seizures must make you physically incapacitated, requiring direct physical assistance for one or more activities as defined in WAC 388-823-0310 and 388-823-0320 during or following seizures.

WAC 388-823-0410 If I have epilepsy, how do I meet the definition of substantial limitations to adaptive functioning? A substantial limitation to adaptive functioning under epilepsy is a functional assessment score of more than two standard deviations below the mean on a Vineland adaptive behavior scales (VABS), scale of independent behavior-revised (SIB-R) or inventory for client and agency planning (ICAP) assessment instrument as described in WAC 388-823-0420.

WAC 388-823-0420 What evidence do I need to substantiate adaptive functioning limitations for the eligible conditions of epilepsy, autism and other conditions similar to mental retardation? (1) Evidence of substantial limitations of adaptive functioning for the conditions of epilepsy, autism, and other conditions similar to mental retardation requires a qualifying score completed in the past thirty-six months in a VABS or a SIB-R, or a qualifying score completed in the past twenty-four months in an ICAP.

(a) Professionals who administer and score the VABS must have a background in individual assessment, human development and behavior, and tests and measurements, as well as an understanding of individuals with disabilities.

(b) Department staff or designee contracted with DDD must administer the ICAP.

(6/1/05)

(c) DDD will administer or arrange for the administration of the ICAP if VABS or SIB-R results are not submitted.

(d) Qualifying scores for each assessment are as follows:

ASSESSMENT	STANDARD DEVIATION	QUALIFYING SCORE
Vineland Adaptive Behavior Scales (VABS)	15	An adaptive behavior composite score of 69 or less
Scales of Independent Behavior-Revised (SIB-R)	15	A broad independence standard score of 69 or less for the adaptive behaviors
Inventory for Client and Agency Planning (ICAP)	15	Pursuant to WAC 388-823-0900, the broad independence domain score based on the applicant's birth date and the date the test is administered.

(2) If DDD is unable to determine that your current adaptive functioning impairment is the result of your developmental disability because you have an unrelated injury or illness that is impairing your current adaptive functioning:

(a) DDD will not accept the results of a VABS or SIB-R administered after that event and will not administer the ICAP; and

(b) Your eligibility will have to be determined under a different condition that does not require evidence of adaptive functioning per a VABS, SIB-R or ICAP.

"OTHER CONDITION" SIMILAR TO MENTAL RETARDATION

WAC 388-823-0700 How do I meet the definition for an "other condition" similar to mental retardation? You will need evidence in (1) or (2) below to substantiate that you have an "other condition" similar to mental retardation.

(1) You have a diagnosis of a condition or disorder that by definition results in both intellectual and adaptive skills deficits; and

(a) The diagnosis must be made by a licensed physician or licensed psychologist;

(b) The diagnosis must be due to a neurological condition, central nervous system disorder involving the brain or spinal column, or chromosomal disorder;

(c) The diagnosis or condition is not attributable to or is itself a mental illness, or emotional, social or behavior disorder;

(d) The condition must have originated before age eighteen; and

(6/1/05)

(e) The condition must be expected to continue indefinitely.

(2) You are under the age of eighteen and are eligible for DSHS-paid in-home nursing through the medically intensive program, defined in WAC 388-551-3000.

WAC 388-823-0710 What evidence do I need to meet the definition of substantial limitations for an "other condition" similar to mental retardation? (1) Evidence of substantial limitation in both (a) and (b) below is required for an "other condition" similar to mental retardation.

(a) Evidence of intellectual impairment requires documentation of either (i) or (ii) or (iii) below:

(i) An FSIQ of 1.5 or more standard deviations below the mean as described in WAC 388-823-0615(1) for another neurological condition; or

(ii) Significant academic delays resulting in delay of at least twenty-five percent below the chronological age or age equivalent academic functioning in at least two academic areas or grade placement; or

(iii) In the absence of school records to substantiate (ii) above, DDD may review other information about your academic progress sufficient to validate your cognitive deficits.

(b) Unless there is evidence of other conditions or impairments unrelated to the eligible condition currently affecting adaptive functioning, the following evidence will determine if the eligible condition or disorder results in a substantial limitation in adaptive functioning:

(i) A score of more than two standard deviations below the mean on a VABS or SIB-R current within the past three years, or in the absence of a VABS or SIB-R, an ICAP administered by DDD within the past twenty-four months.

(ii) The qualifying scores for these tests are listed in WAC 388-823-0420 (1)(d).

(2) You do not need the additional evidence of your substantial limitations to adaptive functioning in (1)(a) and (b) above if your eligible condition is solely due to your eligibility and participation in the medically intensive program offered through DDD, defined in WAC 388-551-3000.

WAC 388-823-0850 What developmental evaluations or assessments will be acceptable for determining developmental delay? DDD will accept any standardized developmental evaluation test of procedures to assess developmental delays if:

(1) The results of the evaluation/assessment are reasonably reliable and valid by professional standards.

(a) If you are under age three, there is an evaluation of developmental areas that is current within the past twelve months. Evaluations determine eligibility for services and need to address each of the five developmental areas.

(b) If you are age three or older, there is an assessment of developmental areas. Assessments are more detailed than evaluations and are needed for determining types of services, method, intensity, and funding. Assessments are also the way to document the ongoing status of child's development, progress and recommended steps to meet outcomes.

(2) The evaluation/assessment is administered by one of the following professionals qualified to administer the evaluation or assessment of developmental areas:

- (a) Licensed physician;
- (b) Licensed psychologist or certified school psychologist;
- (c) Speech language pathologist;
- (d) Audiologist;
- (e) Registered occupational therapist;
