[Statutory Authority: RCW 80.50.040 (1) and (12). WSR 04-21-013, § 463-47-020, filed 10/11/04, effective 11/11/04. Statutory Authority: RCW 80.50.040(1) and 43.21C.120. WSR 98-01-082, § 463-47-020, filed 12/12/97, effective 1/12/98; WSR 84-19-031 (Order 84-2), § 463-47-020, filed 9/14/84.]

**WAC 463-47-030 Purpose.** This chapter implements the statewide rules in chapter 197-11 WAC as they apply to the energy facility site evaluation council.

[Statutory Authority: RCW 80.50.040(1). WSR 84-19-031 (Order 84-2), § 463-47-030, filed 9/14/84.]

**WAC 463-47-050 Designation of decisionmaker.** Within the energy facility site evaluation council the decisionmaker is the council.

[Statutory Authority: RCW 80.50.040(1). WSR 84-19-031 (Order 84-2), § 463-47-050, filed 9/14/84.]

**WAC 463-47-051 Designation of responsible official.** Within the energy facility site evaluation council the responsible official is the council manager.

[Statutory Authority: RCW 80.50.040(1). WSR 92-09-013, § 463-47-051, filed 4/2/92, effective 5/3/92; WSR 84-19-031 (Order 84-2), § 463-47-051, filed 9/14/84.]

**WAC 463-47-060 Additional timing considerations.**

(1) The council will determine when it receives an application whether the proposal is an "action" and, if so, whether it is "categorically exempt" from SEPA. If the proposal is an action and is not exempt, the council will request the applicant to complete an environmental checklist. A checklist is not needed if the council and applicant agree an EIS is required, SEPA compliance has been completed, SEPA compliance has been initiated by another agency, or a checklist is included with the application. The applicant should also complete an environmental checklist if the council is unsure whether the proposal is exempt.

(2) The council may initiate an adjudicative proceeding required by RCW 80.50.090 prior to completion of the draft EIS.

[Statutory Authority: RCW 80.50.040(1). WSR 07-21-035, § 463-47-060, filed 10/9/07, effective 11/9/07. Statutory Authority: RCW 80.50.040 (1) and (12). WSR 04-21-013, § 463-47-060, filed 10/11/04, effective 11/11/04.

(10/9/07)

Statutory Authority: RCW 80.50.040. WSR 91-03-090, § 463-47-060, filed 1/18/91, effective 2/18/91. Statutory Authority: RCW 80.50.040(1). WSR 84-19-031 (Order 84-2), § 463-47-060, filed 9/14/84.]

**WAC 463-47-070 Threshold determination process—Additional considerations.** When reviewing a completed environmental checklist to make the threshold determination, the council will:

(1) Independently evaluate the responses of the applicant and note comments, concerns, corrections, or new information in the right margin of the checklist.

(2) Conduct the initial review of the checklist and any supporting documents without requiring additional information from the applicant.

[Statutory Authority: RCW 80.50.040(1). WSR 84-19-031 (Order 84-2), § 463-47-070, filed 9/14/84.]

**WAC 463-47-080 Mitigated DNS.** (1) An applicant may ask the council whether issuance of a DS is likely for a proposal. This request for early notice must:

(a) Be written;

(b) Follow submission of an application and environmental checklist for a nonexempt proposal for which the council is lead agency; and

(c) Precede the council's actual threshold determination for the proposal.

(2) The council shall respond to the request within ten working days of receipt of the letter; the response shall:

(a) Be written;

(b) State whether the council is considering issuance of a DS;

(c) Indicate the general or specific area(s) of concern that led the council to consider a DS; and

(d) State that the applicant may change or clarify the proposal to mitigate the impacts indicated in the letter, revising the environmental checklist as necessary to reflect the changes or clarifications.

(3) The council shall not continue with the threshold determination until after receiving a written response from the applicant changing or clarifying the proposal or asking that the threshold determination be based on the original proposal.

(4) If the applicant submits a changed or clarified proposal, along with a revised environmental checklist, the council will make its threshold determination based on the changed or clarified proposal.

(a) If the council's response to the request for early notice indicated specific mitigation measures that would remove all probable significant adverse environmental impacts, and the applicant changes or clarifies the proposal to include all of those specific mitigation measures, the council shall issue a determination of nonsignificance and circulate the DNS for comments as in WAC 197-11-350(2).

(b) If the council indicated general or specific areas of concern, but did not indicate specific mitigation measures that would allow it to issue a DNS, the council shall determine if the changed or clarified proposal may have a probable significant environmental impact, issuing a DNS or DS as appropriate.

(5) The council may specify mitigation measures that would allow it to issue a DNS without a request for early

notice from an applicant. If it does so, and the applicant changes or clarifies the proposal to include those measures, the council shall issue a DNS and circulate it for review under WAC 197-11-350(2).

(6) When an applicant changes or clarifies the proposal, the clarifications or changes may be included in written attachments to the documents already submitted. If the environmental checklist and supporting documents would be difficult to read and/or understand because of the need to read them in conjunction with the attachment(s), the council may require the applicant to submit a new checklist.

(7) The council may change or clarify features of its own proposals before making the threshold determination.

(8) The council's written response under subsection (2) of this section shall not be construed as a determination of significance. In addition, preliminary discussion of clarification of or changes to a proposal, as opposed to a written request for early notice, shall not bind the council to consider the clarifications or changes in its threshold determination.

(9) When an applicant submits a changed or clarified proposal pursuant to this section, it shall be considered part of the applicant's application for a permit or other approval for all purposes, including enforcement of the permit or other approval. Unless the council's decision expressly states otherwise, when a mitigated DNS is issued for a proposal, any decision approving the proposal shall be based on the proposal as changed or clarified pursuant to this section.

[Statutory Authority: RCW 80.50.040(1). WSR 84-19-031 (Order 84-2), § 463-47-080, filed 9/14/84.]

**WAC 463-47-090 EIS preparation.** (1) Preparation of draft and final EISs, SEISs, or addenda is the responsibility of the council. The responsible official shall be satisfied that these documents comply with these rules and chapter 197-11 WAC prior to issuance.

(2) The council has the following options for draft and final EISs, SEISs, or addenda preparation:

(a) The council prepares its own documents.

(b) The council's independent consultant prepares any or all of the documents under the supervision of the responsible official.

(c) The council requires the applicant to prepare the documents with oversight from the responsible official.

(3) If the council prepares its own draft and final EISs, SEISs, or addenda, or its independent consultant prepares them, the council can require an applicant to provide information that the council or independent consultant does not possess, including specific investigations.

(4) The applicant shall bear the expense of the draft and final EISs, SEISs, or addenda preparation, but the consultant will work directly for the council.

(5) Normally, the council will have the documents printed and distributed.

(6) Whenever someone other than the council prepares a draft or final EISs, SEISs, or addenda, the responsible official:

(a) May direct the areas of research and examination to be undertaken and the content and organization of the document.

[Ch. 463-47 WAC p. 4]

(b) Shall initiate and coordinate scoping, ensuring that the individuals preparing the documents receive all substantive information submitted by any agency or person.

(c) Shall assist in obtaining information on file with other agencies that is needed by the persons preparing the document.

(d) Shall allow the person preparing the document access to council records relating to the document (under chapter 42.17 RCW—Public disclosure and public records law).

[Statutory Authority: RCW 80.50.040(1). WSR 07-21-035, § 463-47-090, filed 10/9/07, effective 11/9/07. Statutory Authority: RCW 80.50.040 (1) and (12). WSR 04-21-013, § 463-47-090, filed 10/11/04, effective 11/11/04. Statutory Authority: RCW 80.50.040(1). WSR 92-09-013, § 463-47-090, filed 4/2/92, effective 5/3/92; WSR 84-19-031 (Order 84-2), § 463-47-090, filed 9/14/84.]

(2) Whenever possible, the council shall integrate the public notice required under this section with existing notice procedures for the council's review of an application.

(a) When more than one permit required from the council has public notice requirements, the notice procedures that would reach the widest audience should be used, if possible.

(b) If the public notice requirements for the permit or certification must be completed at a specific time in the permitting process and that timing does not coincide with the timing requirements for SEPA public notice, the council must use one or more public notice methods in subsection (4) of this section.

(c) If there are no public notice requirements for any of the permits required for a proposal, the council must use one or more public notice methods in subsection (4) of this section.

(3) The council may require an applicant to perform the public notice requirement at his or her expense.

(4) The council shall use one or more of the following methods of public notice, taking into consideration the geographic area affected by the proposal, the size and complexity of the proposal, the public notice requirements for the permit or certification required from the council and, public interest expressed in the proposal:

(a) Mailing to persons or groups who have expressed interest in the proposal, that type of proposal, or proposals in the geographic area in which the proposal will be located, constructed and operated if approved;

(b) Publication in a newspaper of general circulation in the area in which the proposal will be located, constructed and operated; and/or

(c) Posting the property, for site specific proposals.

(2)(a) When the environmental document for a proposal shows it will cause significant adverse impacts that the proponent does not plan to mitigate, the council shall consider whether:

(i) The environmental document identified mitigation measures that are reasonable and capable of being accomplished;

(ii) Other local, state, or federal requirements and enforcement would mitigate the significant adverse environmental impacts; and

(iii) Reasonable mitigation measures are sufficient to mitigate the significant adverse impacts.

(b) The council may:

(i) Condition the approval or recommendation for approval for a proposal if mitigation measures are reasonable and capable of being accomplished and the proposal is inconsistent with the policies in subsection (1) of this section.
