WAC 388-865-0526 Single bed certification. At the discretion of the department, an exception may be granted to allow timely and appropriate treatment to an adult on a seventy-two hour detention or fourteen-day commitment in a facility that is not certified under WAC 388-865-0500; or for a maximum of thirty days to allow a community facility to provide treatment to an adult on a ninety- or one hundred eighty-day inpatient involuntary commitment order. For involuntarily detained or committed children, the exception may be granted to allow timely and appropriate treatment in a facility not certified under WAC 388-865-0500 until the child's discharge from that setting to the community, or until they transfer to a bed in a children's long-term inpatient program (CLIP).

(1) The regional support network (RSN) or its designee must submit a written request for a single bed certification to the department. In the case of a child, the facility must submit the written request to the department. The request must be submitted and approved by the department for a facility to accept an individual for timely and appropriate treatment under this section. If the department has assumed the duties assigned to a nonparticipating RSN, an entity designated by the department will perform the functions described in this section.

(2) A single bed certification may be issued to the facility for timely and appropriate mental health treatment when the following requirements are met in each instance where such certification is sought for an individual:

(a) The facility that is the site of the proposed single bed certification confirms that it is willing and able to provide directly, or by direct arrangement with other public or private agencies, timely and appropriate mental health treatment to the consumer for whom the single bed certification is sought; and

(b) The request for single bed certification describes why the consumer meets at least one of the following criteria:

(i) The consumer is expected to be ready for discharge from inpatient services within the next thirty days and being at a community facility would facilitate continuity of care, consistent with the consumer's individual treatment needs;

(ii) The consumer can receive appropriate mental health treatment in a residential treatment facility, as defined in WAC 246-337-005, and the single bed certification will be only to that facility; or

(iii) The consumer can receive appropriate mental health treatment in a hospital with a psychiatric unit, or a hospital that is willing and able to provide timely and appropriate

[Ch. 388-865 WAC p. 19]

mental health treatment, or a psychiatric hospital, and the single bed certification will apply only to that facility.

(3) In order to provide timely and appropriate mental health treatment, the facility receiving the single bed certification, or the public or private agency the facility has a direct arrangement with to provide mental health treatment, must:

(a) Implement standards for administration that include written procedures to assure that a mental health professional, as defined in RCW 71.05.020 or WAC 388-865-0150, and licensed physicians are available for consultation and communication with both the consumer and the direct patient care staff;

(b) Use a plan of care/treatment. The medical or clinical record must contain documentation that:

(i) An individualized mental health treatment plan was developed, when possible, collaboratively with the consumer. If the consumer is unwilling or unable to participate in development of the plan, documentation must be made in the record. Development of this plan may include participation of a multidisciplinary team, a mental health professional, as defined in RCW 71.05.020 or WAC 388-865-0150, or collaboration with members of the consumer's support system as identified by the consumer.

(ii) A mental health professional, as defined in RCW 71.05.020 or WAC 388-865-0150, has had contact with each involuntarily detained consumer at least daily for the purposes of:

(A) Observation and evaluation; and

(B) Assessing whether the consumer is appropriate for release from involuntary commitment to accept treatment on a voluntary basis.

(c) Have standards for administration and monitoring of medication, including psychiatric medications. Consumers have a right to make an informed decision regarding the use of antipsychotic medication consistent with RCW 71.05.215.

(4) If a consumer requires medical services that are not generally available at a facility certified under this chapter, or at a state psychiatric hospital when a court has ordered a ninety- or one hundred eighty-day inpatient commitment, or at a facility that meets the requirements of subsections (2) and (3) of this section, a single bed certification may be issued to that facility for the consumer as follows:

(a) The single bed certification request must adequately describe why the consumer requires medical services that are not available at a facility certified under this chapter, or at a state psychiatric hospital when a court has ordered a ninety- or one hundred eighty-day inpatient commitment, or at a facility that meets the requirements of subsections (2) and (3) of this section;

(b) The facility that is the site of the requested single bed certification must confirm that it is willing and able to provide the medical services; and

(c) The facility has documented that one of the following has been met:

(i) With the authorization of the hospital, and consistent with any applicable hospital policies and procedures, the RSN assigns a mental health professional to provide the consumer appropriate mental health treatment at the facility, including observation and evaluation, during the period of time the consumer is provided medical services; or

(ii) The hospital provides medical services and a plan that addresses the consumer's mental health treatment needs until the consumer is medically stable and the RSN or its designee identifies an appropriate facility for the consumer that is one of the following:

(A) The hospital providing services;

(B) A facility that is certified as an evaluation and treatment (E & T) facility; or

(C) A facility that can meet the consumer's needs under the single bed certification criteria in this section.

(d) If a qualified medical professional determines that mental health treatment for the consumer is not clinically indicated, the requirements in (c) of this subsection do not apply. When the consumer is determined to be medically stable, the facility must ensure the requirements in (c) of this subsection are met.

(5) The department makes the decision and gives written notification to the requesting entity in the form of a single bed certification. The single bed certification must not contradict a specific provision of federal or state law.

(6) A consumer who receives services under a single bed certification under this section must be transferred to an evaluation and treatment facility if on a seventy-two hour detention or fourteen-day commitment, or to a state hospital if on a ninety- or one hundred eighty-day inpatient commitment, as soon as the attending physician considers the consumer medically stable and a bed becomes available, unless the treating facility consents to continue treatment and continued treatment in the current setting is consistent with the best clinical interests of the consumer.

(7) The department may make site visits at any time to verify that the terms of the single bed certification are being met. Failure to comply with any term of this exception may result in corrective action. If the department determines that the violation places consumers in imminent jeopardy, immediate revocation of this exception can occur.

(8) The RSN retains the responsibility for ensuring due process required by RCW 71.24.300 (6)(b).

(9) Neither consumers nor facilities have fair hearing rights as defined under chapter 388-02 WAC regarding single bed certification decisions by department staff.

SECTION SEVEN—CERTIFICATION OF CLUBHOUSES AND CRISIS STABILIZATION UNITS.

WAC 388-865-0700 Clubhouse certification. The mental health division certifies clubhouses under the provision of RCW 71.24.035. International center for clubhouse development certification is not a substitute for certification by the state of Washington.

[Statutory Authority: RCW 71.24.025, 71.24.035, and 2007 c 414. WSR 08-14-080, § 388-865-0700, filed 6/26/08, effective 7/27/08.]

WAC 388-865-0705 Definitions. The following definitions apply to clubhouse certification rules:

"Absentee coverage" - The clubhouse provides a temporary replacement for the clubhouse member who is currently employed in a time-limited, part-time community job managed by the clubhouse.

"Certification" - Official acknowledgement from the mental health division that an organization meets all state standards to operate as a clubhouse, and demonstrates that those standards have been implemented.

"Clubhouse" - A community-based, recovery-focused program designed to support individuals living with the effects of mental illness, through employment, shared contributions, and relationship building. A clubhouse operates under the fundamental principle that everyone has the potential to make productive contributions by focusing on the strengths, talents, and abilities of all members and fostering a sense of community and partnership.

"Recovery" - The process in which people are able to live, work, learn, and participate fully in their communities (RCW 71.24.025).

"Work-ordered day" - A model used to organize clubhouse activities during the clubhouse's normal working hours. Members and staff are organized into one or more work units which provide meaningful and engaging work essential to running the clubhouse. Activities include unit meetings, planning, organizing the work of the day, and performing the work that needs to be accomplished to keep the clubhouse functioning. Members and staff work side-by-side as colleagues. Members participate as they feel ready and according to their individual interests. While intended to provide members with working experience, work in the clubhouse is not intended to be job-specific training, and members are neither paid for clubhouse work nor provided artificial rewards. Work-ordered day does not include medication clinics, day treatment, or other therapy programs.

SECTION EIGHT—CERTIFICATION OF TRIAGE FACILITIES

WAC 388-865-0800 Triage facility—Definitions. The following definitions apply to this chapter:

"Designated mental health professional (DMHP)" See WAC 388-865-0150.

"Mental health professional (MHP)" See WAC 388-865-0150.

"Peace officer" means a law enforcement official of a public agency or governmental unit, and includes persons specifically given peace officer powers by any state law, local ordinance, or judicial order of appointment.

"Triage facility" is a short-term facility or a portion of a facility licensed by the department of health and certified by the department of social and health services under RCW 71.24.035, which is designed as a facility to assess and stabilize an individual or determine the need for involuntary commitment of an individual. A triage facility must meet department of health residential treatment facility standards and may be structured as a voluntary and/or involuntary placement facility.

"Triage involuntary placement facility" is a triage facility that has elected to operate as an involuntary facility and may, at the direction of a peace officer, hold an individual for up to twelve hours. A peace officer or designated mental health professional may take or cause the person to be taken into custody and immediately delivered to the triage facility. The facility may ask for an involuntarily admitted individual to be assessed by a mental health professional for potential for voluntary admission. The individual has to agree in writing to the conditions of the voluntary admission.

"Triage voluntary placement facility" is a triage facility wherein the individual may elect to leave the facility of their own accord, at anytime. A triage voluntary placement facility may only accept voluntary admissions.

"Short-term facility" is a facility licensed by the department of health and certified by the department of social and health services under RCW 71.24.035 which has been designed to assess, diagnose, and treat individuals experiencing an acute crisis without the use of long-term hospitalization. Length of stay in a short-term facility is less than fourteen days from the day of admission.

[Statutory Authority: RCW 71.05.020, 71.05.150, 71.05.153, 71.24.035, and 2011 c 148. WSR 12-19-039, § 388-865-0800, filed 9/12/12, effective 10/13/12.]

Under chapter 71.05 RCW, the department certifies facilities to provide triage services that assess and stabilize an individual, or determine the need for involuntary commitment. The department does not require a facility licensed by the department of health (DOH) that was providing assessment and stabilization services under chapter 71.05 RCW as of April, 22, 2011, to relicense

or recertify under these rules. A request for an exemption must be made to DOH and the department.

(1) To obtain and maintain certification as a triage facility (defined in WAC 388-865-0800), a facility must:

(a) Be licensed by the department of health (DOH) as a residential treatment facility;

(b) Meet the requirements for voluntary admissions under this chapter;

(c) Meet the requirements for involuntary admissions under this chapter if it elects to operate and be certified as a triage involuntary placement facility;

(f) Successfully complete a provisional and annual on-site review administered by the department's division of behavioral health and recovery (DBHR) and be determined by DBHR to be in compliance with the standards of this chapter and chapter 72.06 RCW.

(2) If a triage facility is collocated in another facility, there must be a physical separation. Physically separate means the triage facility is located in an area with no resident foot traffic between the triage facility and other areas of the building, except in case of emergencies.

(3) A triage facility must have, at a minimum:

(a) A written organizational structure that describes clear lines of authority of administrative oversight and clinical supervision.

(b) A designated person in charge of administration of the triage unit.

(c) A mental health professional (MHP) on-site twenty-four hours a day, seven days a week.

(d) A written program description that includes:

(i) Program goals;

(ii) Identification of service categories to be provided;

(iii) Length of stay criteria;

(iv) Identification of the ages or range of ages of individual populations to be served;

(vi) Any limitation or inability to serve or provide program services to an individual who:

(A) Requires acute medical services;

(B) Has limited mobility;

(C) Has limited physical capacity for self care; or

(D) Exhibits physical violence.

(e) A quality management plan to ensure the facility monitors, collects appropriate data, and develops improvements to meet the requirements of this chapter.

(f) Written procedures to ensure a secure and safe environment. Examples of these procedures are:

(i) Visual monitoring of the population environment by line of sight, mirrors or electronic means;

(ii) Having sufficient staff available twenty-four hours a day, seven days a week to meet the behavioral management needs of the current facility population; and

(iii) Having staff trained in facility security and behavioral management techniques.

(g) Written procedures to ensure that an individual is examined by an MHP within three hours of the individual's arrival at the facility.

(h) Written procedures to ensure that a designated mental health professional (DMHP) evaluates a voluntarily admitted individual for involuntary commitment when the individual's behavior warrants an evaluation.

(i) Written procedures that are in accordance with WAC 246-322-180, 246-337-110, 246-320-271, and 388-865-0545, if the triage facility declares any intent to provide seclusion and/or restraint.

(j) Written procedures to facilitate appropriate and safe transportation, if necessary, for an individual who is:

(i) Not being held for police custody and/or police pick up;

(ii) Denied admission to the triage facility; or
