WAC 314-55-040 What criminal history might prevent a marijuana license applicant from receiving or keeping a marijuana license? (1) When the WSLCB processes a criminal history check on an applicant, it uses a point system to determine if the person qualifies for a license. The WSLCB will not normally issue a marijuana license or renew a license to an applicant who has accumulated eight or more points as indicated below:

(5/31/17)

Description	Time period during which points will be assigned	Points assigned
Felony conviction	Ten years	12 points
Gross misdemeanor conviction	Three years	5 points
Misdemeanor conviction	Three years	4 points
Currently under federal or state supervision for a felony conviction	n/a	8 points
Nondisclosure of any of the above	n/a	4 points each

(2) If a case is pending for an alleged offense that would earn eight or more points, the WSLCB will hold the application for the disposition of the case. If the disposition is not settled within ninety days, the WSLCB will administratively close the application.

(3) The WSLCB may not issue a marijuana license to anyone who has accumulated eight or more points as referenced above. This is a discretionary threshold and it is further recommended that the following exceptions to this standard be applied:

Exception to criminal history point assignment.

(a) Prior to initial license application, two federal or state misdemeanor convictions for the possession only of marijuana within the previous three years may not be applicable to the criminal history points accumulated. All criminal history must be reported on the personal/criminal history form.

(i) Regardless of applicability, failure to disclose full criminal history will result in point accumulation;

(ii) State misdemeanor possession convictions accrued after December 6, 2013, exceeding the allowable amounts of marijuana, usable marijuana, and marijuana-infused products described in chapter 69.50 RCW shall count toward criminal history point accumulation.

(b) Prior to initial license application, any single state or federal conviction for the growing, possession, or sale of marijuana will be considered for mitigation on an individual basis. Mitigation will be considered based on the quantity of product involved and other circumstances surrounding the conviction.

(4) Once licensed, marijuana licensees must report any criminal convictions to the WSLCB within fourteen days.

WAC 314-55-045 What marijuana law or rule violation history might prevent an applicant from receiving a marijuana license? The WSLCB will conduct an investigation of all applicants' marijuana law or rule administrative violation history. The WSLCB will not normally issue a marijuana license to a person, or to an entity with a true party of interest, who has the following violation history; or to any

person who has demonstrated a pattern of disregard for laws or rules.

(ii) When evaluating research projects, the reviewer must:

(A) Ensure confidentiality; and

(B) Screen members of the reviewer panel for any conflicts of interest and take appropriate measures if a conflict of interest is identified.

(iii) The reviewer will assess fees for the review of the research project proposal directly to the applicant pursuant to RCW 69.50.372(7). The reviewer will not recommend

approval of an application for any research license for which an unpaid balance of fees to the reviewer is due regardless of the recommendation of the reviewer regarding the sufficiency of the research project.

(iv) If at any time during the process of review the reviewer finds that the additional application materials are not complete, the reviewer will notify the WSLCB in writing and the WSLCB will withdraw the application.

(v) The reviewer will supply a written evaluation to the WSLCB in writing after completing review of the research project. Evaluations will provide the approval recommendation status; determination(s) of the applicable research category or categories; and, as applicable, the reasons for a "Not Approved" recommendation. The WSLCB will provide written evaluations to applicants following completion of the review process by the reviewer along with the WSLCB's approval or denial of the research license.

(i) The WSLCB will request criminal background and financial information from the research license applicant and evaluate the applicant(s) pursuant to the standards and requirements established in WAC 314-55-020 except that research license applicants are not subject to prioritization under subsection (3) of that section;

(ii) Funding of the proposed research must be disclosed by the applicant(s) in amount, timing and source(s). (a) The WSLCB will withdraw an application if:

(i) The application or additional application materials are determined incomplete or incorrect by the WSLCB or its designated reviewer;

(ii) The additional application materials are not timely received by the reviewer as provided in this section; or

(iii) The applicant(s) request withdrawal of a research license application at any time in the application process. The applicant must request the withdrawal in writing and is responsible for any review costs due to the reviewer. The voluntary withdrawal of a research license application does not result in a hearing right.

(b) The WSLCB will deny a research license if:

(i) The scientific reviewer does not recommend approval of the license after reviewing the research proposal for compliance with this section or RCW 69.50.372;

(ii) The applicant does not meet the requirements for a license under this section or RCW 69.50.372; or

(iii) The applicant provides false or misleading information in any of the materials it submits to the WSLCB or the reviewer.

(c) If the WSLCB denies a research application for the reasons provided in (b)(iii) of this subsection or for failing to meet criminal history or administrative violations requirements under this section, the applicant(s) is prohibited from reapplying for a research license for one calendar year from the date of the WSLCB's denial of the license.

(d) A person or entity that has outstanding unpaid review fees owing to the scientific reviewer is prohibited from reapplying for a research license until all review fees are paid to the scientific reviewer.

(4) Reporting required.

(a) The WSLCB or the WSLCB's designated reviewer may require reporting by or auditing of research licensees as necessary.

(b) The WSLCB's designated reviewer must submit an annual status report of all completed and ongoing research projects for the previous year to the WSLCB by December 31st of each calendar year.

(c) The licensee must adhere to the reporting requirements in the traceability system under WAC 314-55-083.

(d) The reviewer must immediately notify the WSLCB if it receives information indicating that a research licensee is operating outside the scope of the projects approved under a research license.

(5) Adding an additional research project or changing existing approved research project process (after licensure).

(a) A research licensee is restricted to only those research activities under a research project that has been reviewed and approved by reviewer.

(b) Applications to add a new project or change an existing approved project is the same as what is required for initial application except that a new license application through BLS is not required. To apply to add a new research project or change an existing approved project, a research licensee must submit all materials to the reviewer as required under subsection (2)(b) of this section. Incomplete project applications will not be considered.

(c) The reviewer will review the application for a new research project or change to an existing approved research project pursuant to subsection (2)(c) of this section. The reviewer will supply a written evaluation to the WSLCB and the licensee in writing after completing review of the application for a new research project or a change to an existing approved research project. Evaluations will provide the approval recommendation status; determination(s) of the applicable research category or categories; and, as applicable, the reasons for a "Not Approved" recommendation.

(6) Research license renewals.

(a) Research license renewals operate on an annual basis, based on the license issuance date. A licensee must have an ongoing approved research project or an application for a new research project to be eligible for license renewal. The WSLCB will notify the licensee and reviewer ninety days prior to the license renewal date. The licensee must provide a status report to the reviewer or an application for a new research project if the licensee's ongoing approved research project will end within thirty days prior to or after the renewal

date. The status report or application must be received by the reviewer within thirty days of the ninety-day renewal notice from the WSLCB or the license will not be renewed.

(b) The reviewer will notify the WSLCB in writing if the licensee meets the requirements for renewal not later than fifteen days prior to the licensee's renewal date.

(c) If the reviewer determines that the research project does not meet requirements for renewal due to lack of an ongoing project or for failure to meet the requirements of RCW 69.50.372 or this section for a proposed new project, the reviewer will recommend the WSLCB not renew the license.

(d) The WSLCB will review the licensee's violation history and criminal background check prior to renewal. If the violation history or criminal records disqualifies the licensee from eligibility for a research license under WAC 314-55-050, the WSLCB will not renew the license.

(7) License revocation.

(a) The WSLCB may revoke an application for the following reasons:

(i) The WSLCB has reason to believe that marijuana is being diverted from the research licensee;

(ii) The research licensee operates outside the scope of the research project(s) approved under the license issued to the licensee;

(iii) The applicant makes a misrepresentation of fact, or fails to disclose a material fact to the WSLCB during the application process or any subsequent investigation after a license has been issued;

(vii) The licensee violates any provision of chapter 69.50 RCW or this chapter.

(b) A licensee may request voluntary cancellation of a license at any time. The licensee must request cancellation of a research license to the WSLCB in writing. The voluntary cancellation of a research license does not result in a hearing right.

(8) Marijuana disposal requirements.

(a) Licensees must dispose of marijuana as provided in WAC 314-55-097.

(b) Licensees must dispose of marijuana if the research license is discontinued for any reason. A licensee may transfer plants to another marijuana research licensee. A licensee may work with the WSLCB to dispose of marijuana or marijuana plants.

(9) An applicant or licensee may request an administrative hearing to contest the withdrawal, denial, nonrenewal, or revocation of a research license pursuant to chapter 34.05 RCW. A request for a hearing must be made in writing and received by the WSLCB no later than twenty days after the date the notification of withdrawal, denial, nonrenewal, or revocation was mailed to the applicant or licensee. Appeal requests submitted in paper form may be delivered to the WSLCB in person during normal business hours at 3000

Pacific Avenue S.E., Olympia, WA 98501, or mailed to the WSLCB. Mailed appeal requests must be addressed to: WSLCB, ATTN: Adjudicative Proceedings Coordinator, P.O. The WSLCB may reopen the marijuana producer application window after the initial evaluation of the applications received and at subsequent times when the WSLCB deems necessary.

(5) Any entity and/or principals within any entity are limited to no more than three marijuana producer licenses.

(6) The maximum amount of space for marijuana production will be imposed at a later date. Applicants must designate on their operating plan the size category of the production premises and the amount of actual square footage in their premises that will be designated as plant canopy. There are three categories as follows:

(a) Tier 1 - Less than two thousand square feet;

(b) Tier 2 - Two thousand square feet to ten thousand square feet; and

(c) Tier 3 - Ten thousand square feet to thirty thousand square feet.

(7) The WSLCB may reduce a licensee's or applicant's square footage designated to plant canopy for the following reasons:

(a) If the amount of square feet of production of all licensees exceeds the maximum square feet the WSLCB will reduce the allowed square footage by the same percentage.

(b) If fifty percent production space used for plant canopy in the licensee's operating plan is not met by the end of the first year of operation the WSLCB may reduce the tier of licensure.

(8) If the total amount of square feet of marijuana production exceeds the maximum square feet, the WSLCB reserves the right to reduce all licensee's production by the same percentage or reduce licensee production by one or more tiers by the same percentage.

(9) The maximum allowed amount of marijuana on a producer's premises at any time is as follows:

(iii) Solid marijuana sample plant waste possessed by third-party laboratories accredited by the WSLCB to test for quality assurance that must be disposed of.

(iv) Other wastes as determined by the WSLCB.

(b) A producer or processor must provide the WSLCB a minimum of seventy-two hours notice in the traceability system described in WAC 314-55-083(4) prior to rendering the product unusable and disposing of it.

(5) The allowable method to render marijuana plant waste unusable is by grinding and incorporating the marijuana plant waste with other ground materials so the resulting mixture is at least fifty percent nonmarijuana waste by volume. Other methods to render marijuana waste unusable must be approved by the WSLCB before implementation.

Material used to grind with the marijuana falls into two categories: Compostable waste and noncompostable waste.

(a) Compostable mixed waste: Marijuana waste to be disposed as compost feedstock or in another organic waste method (for example, anaerobic digester) may be mixed with the following types of waste materials:

(i) Food waste;

(ii) Yard waste;

(iii) Vegetable based grease or oils; or

(iv) Other wastes as approved by the WSLCB.

(b) Noncompostable mixed waste: Marijuana waste to be disposed in a landfill or another disposal method (for example, incinerator) may be mixed with the following types of waste materials:

(i) Paper waste;

(ii) Cardboard waste;

(iii) Plastic waste;

(iv) Soil; or

(v) Other wastes as approved by the WSLCB.

(6) Marijuana wastes rendered unusable following the method described in subsection (4) of this section can be disposed.

(a) Disposal of the marijuana waste rendered unusable may be delivered to a permitted solid waste facility for final disposition. Examples of acceptable permitted solid waste facilities include:

(i) Compostable mixed waste: Compost, anaerobic digester, or other facility with approval of the jurisdictional health department.

(ii) Noncompostable mixed waste: Landfill, incinerator, or other facility with approval of the jurisdictional health department.

(b) Disposal of the marijuana waste rendered unusable may be managed on-site by the generator in accordance with the standards of chapter 173-350 WAC.

(c) A record of the final destination of marijuana waste rendered unusable.

WAC 314-55-099 Standardized scales. (1) Marijuana producer and processor licensees must have at least one scale on the licensed premises for the traceability and inventory of products.

(2) The scales and other measuring devices are subject to chapter 19.94 RCW, and must meet the requirements of the most current version of chapter 16-662 WAC.

(3) Licensees must register scales on a business license application with business license services through the department of revenue as required under chapter 19.94 RCW.

WAC 314-55-0995 Laboratory certification and accreditation requirements. The following requirements apply to third-party labs seeking certification by the WSLCB or its designee to do quality assurance testing on marijuana and marijuana products in Washington state, and for certified third-party laboratories (certified labs) to remain certified by the WSLCB. The requirements provided in this section are continuing requirements, and must be adhered to and maintained for a third-party lab to remain certified. The WSLCB may summarily suspend a lab's certification if a certified lab is found out of compliance with the requirements of this chapter.

(1) A third-party laboratory must be certified by the WSLCB or their vendor as meeting the WSLCB's accreditation and other requirements prior to conducting quality assurance tests required under this chapter. Certified labs must conspicuously display the certification letter received by the WSLCB upon certification at the lab's premises in a conspicuous location where a customer may observe it unobstructed in plain sight.

(2) A person with financial interest in a certified lab may not have direct or indirect financial interest in a licensed marijuana producer or processor for whom they are conducting required quality assurance tests. A person with direct or indirect financial interest in a certified lab must disclose to the WSLCB by affidavit any direct or indirect financial interest in a licensed marijuana producer or processor.

(3) The following provisions are conditions of certification for third-party testing labs. Failure to adhere to the below requirements may result in the suspension or revocation of certification.

(a) Each lab must employ a scientific director responsible to ensure the achievement and maintenance of quality standards of practice. The scientific director must possess the following minimum qualifications:

(i) A doctorate in the chemical or microbiological sciences from a college or university accredited by a national or regional certifying authority with a minimum of two years' post-degree laboratory experience;

(ii) A master's degree in the chemical or microbiological sciences from a college or university accredited by a national or regional certifying authority with a minimum of four years' of post-degree laboratory experience; or

(iii) A bachelor's degree in the chemical or microbiological sciences from a college or university accredited by a national or regional certifying authority with a minimum of six years of post-education laboratory experience.

(b) Certified labs must follow the analytical requirements most current version of the *Cannabis Inflorescence and Leaf Monograph* published by the *American Herbal Pharmacopoeia* or notify the WSLCB or its designee what alternative scientifically valid testing methodology the lab is following for each quality assurance test. Third-party validation by the WSLCB or its designee is required for any monograph or analytical method followed by a certified lab to ensure the methodology produces scientifically accurate results prior to use of alternative testing methods to conduct required quality assurance tests.

(c) The WSLCB may require third-party validation and ongoing monitoring of a certified lab's basic proficiency to correctly execute the analytical methodologies employed by the certified lab. The WSLCB may contract with a vendor to conduct the validation and ongoing monitoring described in this subsection. The certified lab must pay all vendor fees for validation and ongoing monitoring directly to the WSLCB's vendor.

(4) Certified labs must allow the WSLCB or the WSLCB's vendor to conduct physical visits and inspect related laboratory equipment, testing and other related records during normal business hours without advance notice.

(5) As a condition of certification, labs must adopt and follow minimum good lab practices (GLPs) as provided in WAC 314-55-103, and maintain internal standard operating procedures (SOPs), and a quality control/quality assurance (QC/QA) program as specified by the WSLCB. The WSLCB or authorized third-party organization (WSLCB's designee) may conduct audits of a lab's GLPs, SOPs, QC/QA, and inspect all other related records.

(6) The WSLCB or its designee will take immediate disciplinary action against any certified lab that fails to comply with the provisions of this chapter or falsifies records related to this section including, without limitation, revoking the certification of the certified lab.

[Statutory Authority: RCW 69.50.342 and 69.50.345. WSR 17-12-032, § 314-55-0995, filed 5/31/17, effective 8/31/17.]

WAC 314-55-101 Quality assurance sampling protocols. (1) To ensure quality assurance samples submitted to certified third-party laboratories (certified labs) are representative from the lot or batch from which they were sampled as required in RCW 69.50.348, licensed producers, licensed processors, certified labs, and their employees must adhere to the minimum sampling protocols as provided in this section.

(2) Sampling protocols for all marijuana product lots and batches:

(a) Samples must be deducted in a way that is most representative of the lot or batch and maintains the structure of the marijuana sample. Licensees, certified labs, and their employees may not adulterate or change in any way the representative sample from a lot or batch before submitting the sample to certified labs. This includes adulterating or changing the sample in any way as to inflate the level of potency, or to hide any microbiological contaminants from the required microbiological screening such as, but not limited to:

(i) Adulterating the sample with kief, concentrates, or other extracts;

(ii) Treating a sample with solvents to hide the microbial count of the lot or batch from which it was deducted. This subsection does not prohibit the treatment of failed lots or batches with methods approved by the WSLCB; or

(iii) Pregrinding a flower lot sample.

(b) All samples must be taken in a sanitary environment using sanitary practices and ensure facilities are constructed, kept, and maintained in a clean and sanitary condition in accordance with rules and as prescribed by the Washington state department of agriculture under chapters 16-165 and 16-167 WAC.

(c) Persons collecting samples must wash their hands prior to collecting a sample from a lot or batch, wear appropriate gloves while preparing or deducting the lot or batch for sample collection, and must use sanitary utensils and storage devices when collecting samples.

(d) Samples must be placed in a sanitary plastic or glass container, and stored in a location that prevents the propagation of pathogens and other contaminants, such as a secure, low-light, cool and dry location.

(e) The licensee must maintain the lot or batch from which the sample was deducted in a secure, low-light, cool, and dry location to prevent the marijuana from becoming contaminated or losing its efficacy.

(f) Each quality assurance sample must be clearly marked "quality assurance sample" and be labeled with the following information:

(i) The sixteen digit identification number generated by the traceability system;

(ii) The license number and name of the certified lab receiving the sample;

(iii) The license number and trade name of the licensee sending the sample;

(iv) The date the sample was collected; and

(v) The weight of the sample.

(3) Additional sampling protocols for flower lots:

(a) Licensees or certified labs must collect a minimum of four separate samples from each marijuana flower lot up to five pounds. Licensees or certified labs may collect more samples than this minimum, but must not collect less. The samples must be of roughly equal weight not less than one gram each.

(b) The four separate samples must be taken from different quadrants of the flower lot. A quadrant is the division of a lot into four equal parts. Dividing a lot into quadrants prior to collecting samples must be done in a manner that ensures the samples are collected from four evenly distributed areas of the flower lot and may be done visually or physically.

(c) The four samples may be placed together in one container conforming to the packaging and labeling requirements in subsection (2) of this section for storage and transfer to a certified lab.

(4) Certified labs may retrieve samples from a marijuana licensee's licensed premises and transport the samples directly to the lab. Certified labs may also return any unused portion of the samples.

(5) Certified labs may reject or fail a sample if the lab has reason to believe the sample was not collected in the manner required by this section, adulterated in any way, contaminated with known or unknown solvents, or manipulated in a manner that violates the sampling protocols, limit tests, or action levels.

(6) The WSLCB or its designee will take immediate disciplinary action against any licensee or certified lab that fails to comply with the provisions of this section or falsifies records related to this section including, without limitation, revoking the license the licensed producer or processor, or certification of the certified lab.

[Statutory Authority: RCW 69.50.342 and 69.50.345. WSR 17-12-032, § 314-55-101, filed 5/31/17, effective 8/31/17; WSR 16-11-110, § 314-55-101, filed 5/18/16, effective 6/18/16.]

WAC 314-55-102 Quality assurance testing. A third-party testing lab must be certified by the WSLCB or the WSLCB's vendor as meeting the WSLCB's accreditation and other requirements prior to conducting quality assurance tests required under this section.

(1) **Quality assurance fields of testing.** Certified labs must be certified to the following fields of testing by the WSLCB or its designee and must adhere to the guidelines for each quality assurance field of testing listed below, with the exception of mycotoxin, heavy metal, or pesticide residue screening. Certification to perform mycotoxin, heavy metals and pesticides may be obtained but is not required to obtain certification as a testing lab. A lab must become certified in all fields of testing prior to conducting any testing or screening in that field of testing, regardless of whether the test is required under this section.

(a) Potency analysis.

(i) Certified labs must test and report the following cannabinoids to the WSLCB when testing for potency:

(A) THCA;

(B) THC;

(C) Total THC;

(D) CBDA;

(E) CBD; and

(F) Total CBD.

(ii) Calculating total THC and total CBD.

(A) Total THC must be calculated as follows, where M is the mass or mass fraction of delta-9 THC or delta-9 THCA: $M \text{ total delta-9 THC} = M \text{ delta-9 THC} + (0.877 \times M \text{ delta-9 THCA})$.

(B) Total CBD must be calculated as follows, where M is the mass or mass fraction of CBD and CBDA: $M \text{ total CBD} = M \text{ CBD} + (0.877 \times M \text{ CBDA})$.

- (A) THCA;
- (B) THC;
- (C) Total THC;
- (D) CBDA;
- (E) CBD; and
- (F) Total CBD.

(ii) Calculating total THC and total CBD.

(B) Total CBD must be calculated as follows, where M is the mass or mass fraction of CBD and CBDA: M total CBD = M CBD + (0.877 x M CBDA).

(c) Certified labs may combine in equal parts multiple samples from the same flower lot for the purposes of the following tests after the individual samples described in WAC 314-55-101(3) have been tested for potency analysis.

(i) **Moisture analysis.** The sample and related lot or batch fails quality assurance testing for moisture analysis if the results exceed the following limits:

- (A) Water activity rate of more than 0.65 a_w; and
- (B) Moisture content more than fifteen percent.

(ii) **Foreign matter screening.** The sample and related lot or batch fail quality assurance testing for foreign matter screening if the results exceed the following limits:

- (A) Five percent of stems 3mm or more in diameter; and
- (B) Two percent of seeds or other foreign matter.

(iii) **Microbiological screening.** The sample and related lot or batch fail quality assurance testing for microbiological screening if the results exceed the following limits:

- (B) Ochratoxin A: 20 µg/kg of substance.

(d) **Residual solvent screening.** Except as otherwise provided in this subsection, a sample and related lot or batch fail quality assurance testing for residual solvents if the results exceed the limits provided in the table below. Residual solvent results of more than 5,000 ppm for class three solvents, 50 ppm for class two solvents, and 2 ppm for class one solvents as defined in *United States Pharmacopoeia, USP 30 Chemical Tests / <467> - Residual Solvents (USP <467>)* not listed in the table below fail quality assurance testing. (2) **Quality assurance testing required.** The following quality assurance tests are the minimum required tests for each of the following marijuana products, respectively. Licensees and certified labs may elect to do multiple quality assurance tests on the same lot or testing for mycotoxin, pesticides, or heavy metals pursuant to chapter 246-70 WAC.

(a) **General quality assurance testing requirements for certified labs.**

(i) Certified labs must record an acknowledgment of the receipt of samples from producers or processors in the WSLCB seed to sale traceability system. Certified labs must also verify if any unused portion of the sample was destroyed or returned to the licensee after the completion of required testing.

(ii) Certified labs must report quality assurance test results directly to the WSLCB traceability system when quality assurance tests for the field of testing are required within twenty-four hours of completion of the test(s).

(iii) Certified labs must fail a sample if the results for any limit test are above allowable levels regardless of whether the limit test is required in the testing tables in this section.

(b) **Marijuana flower lots and other material lots.** Marijuana flower lots or other material lots require the following quality assurance tests:

Product	Test(s) Required
Lots of marijuana flowers or other material that will not be extracted	1. Moisture content 2. Potency analysis 3. Foreign matter inspection 4. Microbiological screening 5. Mycotoxin screening

(c) **Intermediate products.** Intermediate products must meet the following requirements related to quality assurance testing:

- (i) All intermediate products must be homogenized prior to quality assurance testing;
- (ii) For the purposes of this section, a batch is defined as a single run through the extraction or infusion process;
- (iii) A batch of marijuana mix may not exceed five pounds and must be chopped or ground so no particles are greater than 3 mm; and

* Field of testing is only required if using lots of marijuana flower and other plant material that has not passed QA testing.

(d) **End products.** All marijuana, marijuana-infused products, marijuana concentrates, marijuana mix packaged, and marijuana mix infused sold from a processor to a retailer require the following quality assurance tests:

(e) End products consisting of only one intermediate product that has not been changed in any way are not subject to potency analysis.

(3) No lot of usable flower, batch of marijuana concentrate, or batch of marijuana-infused product may be sold or transported until the completion and successful passage of quality assurance testing as required in this section, except:

(a) Business entities with multiple locations licensed under the same UBI number may transfer marijuana products between the licensed locations under the same UBI number prior to quality assurance testing; and

(b) Licensees may wholesale and transfer batches or lots of flower and other material that will be extracted and marijuana mix and nonsolvent extracts for the purposes of further extraction prior to completing required quality assurance testing. Licensees may wholesale and transfer failed lots or batches to be extracted pursuant to subsection (5) of this section.

(4) **Samples, lots, or batches that fail quality assurance testing.**

(a) Upon approval by the WSLCB, failed lots or batches may be used to create extracts. After processing, the extract must pass all quality assurance tests required in this section before it may be sold.

(b) **Retesting.** At the request of the producer or processor, the WSLCB may authorize a retest to validate a failed test result on a case-by-case basis. All costs of the retest will be borne by the producer or the processor requesting the retest. Potency retesting will generally not be authorized.

(c) **Remediation.** Producers and processors may remediate failed harvests, lots, or batches so long as the remediation method does not impart any toxic or deleterious substance to the usable marijuana, marijuana concentrates, or marijuana-infused product. Remediation solvents or methods used on the marijuana product must be disclosed to a licensed processor the producer or producer/processor transfers the products to; a licensed retailer carrying marijuana products derived from the remediated harvest, lot, or batch; or consumer upon request. The entire harvest, lot, or batch the failed sample(s) were deducted from must be remediated using the same remediation technique. No remediated harvest, lots or batches may be sold or transported until the completion and

successful passage of quality assurance testing as required in this section.

(5) **Referencing.** Certified labs may reference samples for mycotoxin, heavy metals, and pesticides testing to other certified labs by subcontracting for those fields of testing. Labs must record all referencing to other labs on a chain-of-custody manifest that includes, but is not limited to, the following information: Lab name, certification number, transfer date, address, contact information, delivery personnel, sample ID numbers, field of testing, receiving personnel.

(6) Certified labs are not limited in the amount of usable marijuana and marijuana products they may have on their premises at any given time, but a certified lab must have records proving all marijuana and marijuana-infused products in the certified lab's possession are held only for the testing purposes described in this section.

(7) Upon the request of the WSLCB or its designee, a licensee or a certified lab must provide an employee of the WSLCB or their designee samples of marijuana or marijuana products or samples of the growing medium, soil amendments, fertilizers, crop production aids, pesticides, or water for random compliance checks. Samples may be screened for pesticides and chemical residues, unsafe levels of heavy metals, and used for other quality assurance tests deemed necessary by the WSLCB.

WAC 314-55-1025 Proficiency testing. (1) For the purposes of this section, the following definitions apply:

(a) "Field of testing" means the categories of subject matter the laboratory tests, such as pesticide, microbial, potency, residual solvent, heavy metal, mycotoxin, foreign matter, and moisture content detection.

(b) "Proficiency testing (PT)" means the analysis of samples by a laboratory obtained from providers where the composition of the sample is unknown to the laboratory performing the analysis and the results of the analysis are used in part to evaluate the laboratory's ability to produce precise and accurate results.

(c) "Proficiency testing (PT) program" means an operation offered by a provider to detect a laboratory's ability to produce valid results for a given field of testing.

(d) "Provider" means a third-party company, organization, or entity not associated with certified laboratories or a laboratory seeking certification that operates an approved PT program and provides samples for use in PT testing.

(e) "Vendor" means an organization(s) approved by the WSLCB to certify laboratories for marijuana testing, approve PT programs, and perform on-site assessments of laboratories.

(2) The WSLCB or its vendor determines the sufficiency of PTs and maintains a list of approved PT programs. Laboratories may request authorization to conduct PT through other PT programs but must obtain approval for the PT program from WSLCB or WSLCB's vendor prior to conducting

PT. The WSLCB may add the newly approved PT program to the list of approved PT programs as appropriate.

(3) As a condition of certification, laboratories must participate in PT and achieve a passing score for each field of testing for which the lab will be or is certified.

(4) A laboratory must successfully complete a minimum of one round of PT for each field of testing the lab seeks to be certified for and provide proof of the successful PT results prior to initial certification.

(5)(a) A certified laboratory must participate in a minimum of two rounds of PT per year for each field of testing to maintain its certification.

(b) To maintain certification, the laboratory must achieve a passing score, on an ongoing basis, in a minimum of two out of three successive rounds of PT. At least one of the scores must be from a round of PT that occurs within six months prior to the laboratory's certification renewal date.

(6) If the laboratory fails to achieve a passing score on at least eighty percent of the analytes in any proficiency test, the test is considered a failure. If the PT provider provides a pass/fail on a per analyte basis but not on the overall round of PT the lab participates in, the pass/fail evaluation for each analyte will be used to evaluate whether the lab passed eighty percent of the analytes. If the PT provider does not provide individual acceptance criteria for each analyte, the following criteria will be applied to determine whether the lab achieves a passing score for the round of PT:

(a) +/- 30% recovery from the reference value for residual solvent testing; or

(b) +/- 3 z or 3 standard deviations from the reference value for all other fields of testing.

(7) If a laboratory fails a round of PT or reports a false negative on a micro PT, the laboratory must investigate the root cause of the laboratory's performance and establish a corrective action report for each unsatisfactory analytical result. The corrective action report must be kept and maintained by the laboratory for a period of three years, available for review during an on-site assessment or inspection, and provided to the WSLCB or WSLCB's vendor upon request.

(8) Laboratories are responsible for obtaining PT samples from vendors approved by WSLCB or WSLCB's vendor. Laboratories are responsible for all costs associated with obtaining PT samples and rounds of PT.

(9) The laboratory must manage, analyze and report all PT samples in the same manner as customer samples including, but not limited to, adhering to the same sample tracking, sample preparation, analysis methods, standard operating procedures, calibrations, quality control, and acceptance criteria used in testing customer samples.

(10) The laboratory must authorize the PT provider to release all results used for certification and/or remediation of failed studies to WSLCB or WSLCB's vendor.

(11) The WSLCB may require the laboratory to submit raw data and all photographs of plated materials along with the report of analysis of PT samples. The laboratory must keep and maintain all raw data and all photographs of plated materials from PT for a period of three years.

(12) The WSLCB may waive proficiency tests for certain fields of testing if PT samples or PT programs are not readily available or for other valid reasons as determined by WSLCB.

(13)(a) The WSLCB will suspend a laboratory's certification if the laboratory fails to maintain a passing score on an ongoing basis in two out of three successive PT studies. The WSLCB may reinstate a laboratory's suspended certification if the laboratory successfully analyzes PT samples from a WSLCB or WSLCB's vendor approved PT provider, so long as the supplemental PT studies are performed at least fifteen days apart from the analysis date of one PT study to the analysis date of another PT study.

(b) The WSLCB will suspend a laboratory's certification if the laboratory fails two consecutive rounds of PT. WSLCB may reinstate a laboratory's suspended certification once the laboratory conducts an investigation, provides the WSLCB a deficiency report identifying the root cause of the failed PT, and successfully analyzes PT samples from a WSLCB or

WSLCB's vendor approved PT provider. The supplemental PT studies must be performed at least fifteen days apart from the analysis date of one PT study to the analysis date of another PT study.

(14) If a laboratory fails to remediate and have its certification reinstated under subsection (13)(a) or (b) of this section within six months of the suspension, the laboratory must reapply for certification as if the laboratory was never certified previously.

(15) A laboratory that has its certification suspended or revoked under this section may request an administrative hearing to contest the suspension as provided in chapter 34.05 RCW.

33. Estimation of uncertainty of measurement.	-	-	-	-	-
a. Testing laboratories shall have and shall apply procedures for estimating uncertainty of measurement. The laboratory shall at least attempt to identify all the components of uncertainty and make a reasonable estimation, and shall ensure that the form of reporting of the result does not give a wrong impression of the uncertainty. Reasonable estimation shall be based on knowledge of the performance of the method and on the measurement scope and shall make use of, for example, previous experience and validation data.	-	-	-	-	-
b. c. When estimating the uncertainty of measurement, all uncertainty components which are of importance in the given situation shall be taken into account using appropriate methods of analysis.	-	-	-	-	-
d. Sources contributing to the uncertainty include, but are not necessarily limited to, the reference standards and reference materials used, methods and equipment used, environmental conditions, properties and condition of the item being tested or calibrated, and the operator.	-	-	-	-	-

The WSLCB may seize, destroy, confiscate, or place an administrative hold on marijuana, usable marijuana, marijuana concentrates, and marijuana-infused products under the following circumstances:

(1) During an unannounced or announced administrative search or inspection of licensed locations, areas of unlicensed locations used for business or commercial purposes, or vehicles involved in the transportation of marijuana products, where any product was found to be in excess of product limitations set forth in WAC 314-55-075, 314-55-077, and 314-55-079.

(a) If during an investigation or inspection of a licensee, a WSLCB officer develops reasonable grounds to believe certain marijuana, usable marijuana, marijuana concentrates, and marijuana-infused products constitute evidence of acts in violation of the state laws or rules, or otherwise constitute a threat to public safety, the WSLCB officer may issue a notice of administrative hold of any such marijuana, usable marijuana, marijuana concentrate, or marijuana-infused products. The notice of administrative hold shall provide a documented description of the marijuana, usable marijuana, marijuana concentrate, or marijuana-infused products to be subject to the administrative hold.

(b) The licensee shall completely and physically segregate the marijuana, usable marijuana, marijuana concentrate, and marijuana-infused products subject to the administrative hold in a limited access area of the licensed premises under investigation, where it shall be safeguarded by the licensee. (1) The WSLCB may issue an order to summarily destroy marijuana, usable marijuana, marijuana concentrates, or marijuana-infused products after the WSLCB's enforcement division has completed a preliminary staff investigation of the violation and upon a determination that immediate destruction of marijuana, usable marijuana, marijuana concentrates, or marijuana-infused products is necessary for the protection or preservation of the public health, safety, or welfare.

(2) Destruction of any marijuana, usable marijuana, marijuana concentrates, or marijuana-infused products under this provision shall take effect immediately upon personal service on the licensee or employee thereof of the summary destruction order unless otherwise provided in the order.

WAC 314-55-225 Marijuana recalls. (1) Definitions.

For the purposes of this section, the following definitions apply:

(a) "Affected product" means marijuana, usable marijuana, marijuana concentrates, or marijuana-infused products subject to a recall.

(b) "Affected licensee" means a licensee whose marijuana, usable marijuana, marijuana concentrates, or marijuana-infused products are subject to a recall. More than one licensee may be an affected licensee in a recall.

(2) Exempt market withdrawals.

(a) A licensee may withdraw from the market marijuana, usable marijuana, marijuana concentrates, or marijuana-infused products by its own determination for reasons that do not pose a risk to consumers such as for aesthetic reasons or other similar deficiencies in product or packaging.

(b) If a licensee initiates a market withdrawal for a reason that does not pose a risk to consumers, the licensee must notify the WSLCB by contacting the local WSLCB enforcement officer assigned to the local area within forty-eight hours of beginning the market withdrawal. Licensees withdrawing marijuana, usable marijuana, marijuana concentrates, or marijuana-infused products under this subsection (2), for reasons other than risk to consumers, are exempt from the remaining requirements of this section.

(3)(a) **When a recall is required.** A recall is required when circumstances exist that pose a risk to consumers. Factors that contribute to a determination of a recall situation include, but are not limited to, the following:

(i) Evidence that pesticides not approved by the board are present on or in marijuana, usable marijuana, marijuana concentrates, or marijuana-infused products above the action levels prescribed by board rule;

(ii) Evidence that residual solvents are present on or in marijuana, usable marijuana, marijuana concentrates, or marijuana-infused products at levels above the action levels prescribed by board rule; or

(iii) Evidence of another condition that poses a risk to consumers including, but not limited to, ingredients in marijuana-infused products that are unfit for human consumption.

(b) Licensee-initiated recalls.

(i) If a licensee initiates a recall due to a condition that poses a risk to consumers and would make a recall appropriate under this subsection (3), the licensee must:

(A) Immediately notify the local WSLCB enforcement officer; and

(B) Secure, isolate, and prevent the distribution of all marijuana, usable marijuana, marijuana concentrates, or marijuana-infused products that may have been exposed to the condition warranting the recall. The licensee is prohibited from destroying any affected product prior to notifying the

WSLCB and coordinating with the local WSLCB officer on destruction activities.

(ii) If the WSLCB determines the licensee fails to engage in recall efforts that meet the urgency of the risk to consumers, the WSLCB may seek a board-directed recall as provided in this section depending on the circumstances.

(c) WSLCB investigation-initiated recalls.

(i) If the WSLCB determines that a recall is not appropriate after an investigation, the WSLCB enforcement division may release administrative holds placed on marijuana, usable marijuana, marijuana concentrates, or marijuana-infused products as part of the investigation as appropriate, unless an administrative hold is necessary under a continuing investigation.

(ii) If the WSLCB determines that a recall is appropriate after an investigation, the WSLCB notifies the board and requests the board issue a recall. If the board issues a recall, the WSLCB notifies the affected licensee that is the source of the issue giving rise to a recall.

(d) **Recall plans.** All licensees must develop a recall plan within sixty days of the effective date of this section that sets the procedures the licensee will follow in the event of a recall of the licensee's product or products under the licensee's control. If a licensee becomes an affected licensee as part of a recall and the affected licensee distributed affected product to consumers or to retailers, the affected licensee must immediately notify all licensees that received affected product, and issue a press release and other appropriate public notification to inform consumers of the recall and identifying information about the affected product recalled.

(i) A recall plan must include, at a minimum, the following:

(A) Designation of a member of the licensee's staff who serves as the licensee's recall coordinator;

(B) Procedures for identifying and isolating product to prevent or minimize its distribution to consumers;

(C) Procedures to retrieve and destroy product; and

(D) A communications plan to notify those affected by the recall, including:

(I) How the affected licensee will notify other licensees in possession of product subject to the recall; and

(II) The use of press releases and other appropriate notifications to ensure consumers are notified of the recall and affected product information if the affected product was distributed to consumers.

(ii) A recall must follow the procedures outlined in the recall plan unless otherwise agreed by the WSLCB and the licensee. The affected licensee must ensure recall procedures are conducted to maximize recall of affected product and minimize risks to consumers.

(e) **Destruction of affected product.** An affected licensee must coordinate destruction of affected product with the local WSLCB enforcement officer and allow WSLCB enforcement to oversee the destruction of affected product recalled to ensure the destruction of affected product that poses risks to consumers.

(f) **Recall reports and audit.** The affected licensee must track the total amount of affected product and the amount of affected product returned to the affected licensee as part of the recall effort. The affected licensee must report to the WSLCB periodically on the progress of the recall efforts. The

periodic reports must occur at a minimum of once a week or as otherwise specified and agreed to by the WSLCB and the affected licensee in the recall plan.

(g) **Recall closure.** If the WSLCB determines that the recall efforts are successful and risks to public health and safety are no longer present, the WSLCB may recommend closure of the recall to the board.

(4) **Board-directed recall.**

(a) Upon the recommendation by the WSLCB enforcement division, the board may issue a directed recall if:

(i) The affected licensee does not comply with a recall under subsection (3) of this section;

(ii) The affected licensee does not comply with the recall plan or recall reporting requirements under subsection (3) of this section; or

(iii) The WSLCB enforcement division determines that affected product may be diverted or is being diverted from the licensed business, or another circumstance that makes the affected licensee's destruction of the product inadvisable or a risk to consumers.

(b) If the board issues a directed recall, the WSLCB will notify consumers of the recall and all licensees that may possess product affected by the recall if notice has not yet occurred.

(c) Under a directed recall, the WSLCB enforcement division may seek an order for destruction of the affected product from the board.

(i) If the board issues an order for destruction, the WSLCB enforcement division may seize and conduct the destruction of affected product.

(ii) An order for destruction will include notice to the licensee and opportunity for hearing before destruction, unless there is evidence of an immediate danger to public health, safety, or welfare to justify an immediate order for destruction, with an opportunity for an expedited hearing after the destruction.

(d) If a destruction order is issued and the WSLCB seizes product affected by the recall and conducts the destruction of the product, the affected licensee may be responsible for reimbursing the WSLCB for costs associated with product destruction.

(e) If the board finds that an immediate danger to the public health, safety, or welfare requires immediate WSLCB action, a licensee may also be subject to summary suspension under RCW 66.08.150(4).

(5) The WSLCB will maintain a recall web page on its web site of all current and closed recalls of record.

[Statutory Authority: RCW 69.50.342 and 69.50.345. WSR 16-16-050, § 314-55-225, filed 7/27/16, effective 8/27/16.]

(2) Destruction of seized marijuana, usable marijuana, marijuana concentrates, marijuana-infused products, or con-

fiscated marijuana after case adjudication, will conform with the WSLCB evidence policies, to include the option of donating marijuana, usable marijuana, marijuana concentrates, and marijuana-infused products, set for destruction, to local and state law enforcement agencies for training purposes only.

(3) Marijuana, usable marijuana, marijuana concentrates, and marijuana-infused products set for destruction shall not reenter the traceability system or market place.

(1) Upon summary suspension of a license by the WSLCB pursuant to WAC 314-55-506, an affected licensee may petition the WSLCB for a stay of suspension pursuant to RCW 34.05.467 and 34.05.550(1). (c) The grant of relief will not substantially harm other parties to the proceedings; and

(2) If the WSLCB receives a timely petition for review, the WSLCB shall consider the petition within fifteen days of service of the petition for review. Consideration on review shall be limited to the record of the hearing on stay.

(3) The order of the WSLCB on the petition for review shall be effective upon personal service unless another date is specified in the order and is final pursuant to RCW 34.05.467. A response must be submitted on a form provided by the agency.

(2) What happens if a licensee does not respond to the administrative violation notice within twenty days?

(a) If a licensee does not respond to the administrative violation notice within twenty days, the recommended suspension or inventory destruction penalty will go into effect.

(b) If the penalty does not include a suspension or inventory destruction, the licensee must pay a twenty-five percent late fee in addition to the recommended penalty. The recommended penalty plus the late fee must be received within thirty days of the violation notice issue date.

(d) Licensees failing to respond to an administrative violation notice or have outstanding fines, shall not be eligible to renew their marijuana license.

(3) What are the procedures when a licensee requests a settlement conference?

(a) If the licensee requests a settlement conference, the hearing examiner or designee will contact the licensee to discuss the violation.

(b) Both the licensee and the hearing examiner or designee will discuss the circumstances surrounding the charge, the recommended penalty, and any aggravating or mitigating factors.

mise settlement agreement, authorized by both parties, to the WSLCB, or designee, for approval.

(i) If the WSLCB, or designee, approves the compromise, a copy of the signed settlement agreement will be sent to the licensee and will become part of the licensing history.

(ii) If the WSLCB, or designee, does not approve the compromise, the licensee will be notified of the decision. The licensee will be given the option to renegotiate with the hearings examiner or designee, of accepting the originally recommended penalty, or of requesting an administrative hearing on the charges.

(d) If the licensee and the hearing examiner or designee cannot reach agreement on a settlement proposal, the licensee may accept the originally recommended penalty, or the hearing examiner or designee will forward a request for an administrative hearing to the WSLCB's hearings coordinator.

(4) What is the process for nonpayment of monetary penalty?

(a) When a licensee fails to submit payment of monetary fine proceeding provisions to collect shall take effect immediately or other action such as revocation will be instituted as deemed appropriate by the WSLCB.

(b) An attempt to advise the debtor of the existence of the debt, and twenty-five percent late fee per subsection (2)(b) of this section will be made notifying that the debt may be assigned to a collection agency for collection if the debt is not paid, and at least thirty days have elapsed from the time notice was attempted.

WAC 314-55-515 What are the penalties if a marijuana license holder violates a marijuana law or rule? (1) The purpose of WAC 314-55-515 through 314-55-540 is to outline what penalty a marijuana licensee can expect if a licensee or employee violates a WSLCB law or rule. (WAC rules listed in the categories provide reference areas, and may not be all inclusive. Any violation not listed in WAC 314-55-515 through 314-55-540 will be assessed following penalty progression of the license type group associated with the class of license.)

(2) Penalties for violations by marijuana licensees or employees are broken down into four categories:

(a) Group One—Public safety violations, WAC 314-55-520.

(b) Group Two—Regulatory violations, WAC 314-55-525.

(c) Group Three—License violations, WAC 314-55-530.

(d) Group Four—Nonretail violations involving the manufacture, supply, processing, and/or distribution of marijuana by nonretail licensees and prohibited practices between nonretail licensees and retail licensees, WAC 314-55-535.

(e) Group Five—Violations involving the transportation freight of marijuana, WAC 314-55-537.

(3) For the purposes of chapter 314-55 WAC, a three-year window for violations is measured from the date one

violation occurred to the date a subsequent violation occurred.

(4) Penalties for violation committed by marijuana processor only licensees will be assessed following the penalty progression prescribed for tier 2 marijuana producers.

(5) The following schedules are meant to serve as guidelines. Based on mitigating or aggravating circumstances, the WSLCB may impose a different penalty than the standard penalties outlined in these schedules. Based on mitigating circumstances, the WSLCB may offer a monetary option in lieu of suspension, or alternate penalty, during a settlement conference as outlined in WAC 314-55-510(3).

(a) Mitigating circumstances	(b) Aggravating circumstances

Based on chapter 69.50 RCW, some violations have only a monetary option. Some violations beyond the first violation do not have a monetary option upon issuance of a violation notice. The WSLCB may offer a monetary option in lieu of suspension days based on mitigating circumstances as outlined in WAC 314-55-515(4).
