WAC 392-347-023 State funding assistance in post 1993 facilities. As a condition precedent to receiving state funding assistance for modernization under WAC 392-347-015 or new-in-lieu of modernization under WAC 392-347-042, school districts that received state funding assistance for new and new-in-lieu school buildings and whose buildings were accepted as complete by school board of directors as of January 1, 1994, and later, shall adopt by board resolution and implement an asset preservation program (APP).

(1) Definitions: For purposes of this chapter:

(a) An asset preservation program is a systematic approach to ensure performance accountability; promote student health and safety by maintaining and operating building systems to their design capacity; maintain an encouraging learning environment; and extend building life, thus minimizing future capital needs.

(b) An asset preservation system is a system of tasks or projects that are active, reactive, or proactive in maintaining the day to day health, safety, and instructional quality of the school facility and tasks or projects that are proactive, predictive or preventative in maintaining the school facility over its thirty-year expected life cycle.

(c) A building condition assessment (BCA) is an assessment of the condition of building components and systems using a standardized scoring matrix, an element of the office of the superintendent of public instruction's information and condition of schools (ICOS) system.

(d) A building condition standard is a numeric scoring table with a scale identifying the expected condition score for each year of the building's expected life cycle.

(2) The office of the superintendent of public instruction shall establish and adopt a uniform program of specifications, standards, and requirements for implementing and maintaining the asset preservation program.

(3) School districts with affected buildings under this chapter are required to:

(a) Adopt or implement an asset preservation system;

(b) Annually perform a building condition assessment (BCA) which shall include recording assessments in the ICOS system and reporting the assessment scores to the school district's board of directors no later than April 1st of each year;

(c) Thereafter in six year intervals during the thirty-year expected life span of the building, have a certified evaluator, as approved by the office of the superintendent of public instruction, perform a building condition evaluation and report the condition to the school district's board of directors

and to the office of the superintendent of public instruction no later than April 1st.

(4) A school district building affected under this chapter and that does not meet the minimum building condition standard score of sixty-two points at the end of the thirty years from the accepted date shall:

(a) Have its allowable cost per square foot used to determine the amount of state funding assistance in any modernization project reduced at a rate of two percent for each point below sixty-two points, not to exceed a total twenty percent reduction; or

(b) Be ineligible for state funding assistance when the building condition score is less than forty points.

Any space above and beyond a school district's estimated capacity needs as calculated on the basis of a five-year cohort survival or adjusted cohort survival enrollment shall not be eligible for state funding assistance in modernization.

(2) The changes to this section shall take effect January 1, 2006: Provided, That those districts having authorized bond issues and/or excess tax levies for their building funds for specific school construction projects as identified in ballot propositions on or before July 1, 2006, may, when requesting the superintendent of public instruction consideration of state funding assistance for such projects, determine, in computing the amount of eligible space for modernization, state funding assistance will be provided on the entire facility of three quarters of the overall square footage of the school districts' facilities is eligible for state funding assistance: Provided further, That the provision shall not be applicable to new construction in lieu of modernization facility projects authorized by this chapter.

modernized facility will be used for instructional purposes for five years after the completion of the project. If the school facility is not used for instructional purposes during this five-year period, the amount of state funding assistance allocated and spent for the modernization project must be returned to the state school building construction fund. The five-year use requirement and the five year prohibition against additional modernization funding shall be waived in the event that a facility is rendered permanently unusable before the end of the five-year period by an unforeseen natural event. WAC 392-347-035 Minimum project—Forty percent of replacement costs. (1) State funding assistance in modernization of school facilities shall be limited to projects which may include an entire facility or one or more complete buildings within a facility for which the estimated cost of major structural change is not less than forty percent of the estimated cost of replacement. The estimated cost of major structural change shall not include the estimated capital costs associated with restoring building systems or subsystems due to deterioration as determined in the study and survey to be caused by deferred maintenance. The estimated cost of replacement shall be derived from multiplication of the total square foot area of the facility or facilities proposed for modernization by the construction cost allocation for the fiscal year funded as in WAC 392-343-045 set forth.

(2) The superintendent of public instruction may grant a waiver from subsection (1) of this section in the event of an unanticipated increase in the construction cost allocation that might cause prior approved projects expecting state funding assistance to become disqualified for such assistance.

WAC 392-347-040 Maximum costs eligible for state funding assistance—One hundred percent of replacement cost. State funding assistance for modernization projects shall not exceed one hundred percent of the cost of new construction of a comparable school facility based on the prevailing level of state support as defined in chapter 392-343 WAC. Costs exceeding one hundred percent shall be paid with local funds by the district.

[Statutory Authority: RCW 28A.525.020. WSR 10-09-008, § 392-347-040, filed 4/8/10, effective 5/9/10; WSR 06-16-031, amended and recodified as § 392-347-040, filed 7/25/06, effective 8/25/06; WSR 05-19-111, § 180-33-

WAC 392-347-042 Replacement option. A district with space eligible for modernization pursuant to WAC 392-347-015 and 392-347-025 may elect to replace such space through new construction in lieu of modernization. In such case, the district shall apply for a new school facility in accordance with applicable rules and regulations pertaining to new school plant facilities and the local board shall certify that after the new construction is finally completed:

- (1) The existing building or space to be replaced will not be used for district instructional purposes; and
- (2) The existing building or space will be ineligible for any future state funding assistance.

Further, if the existing building or space is subsequently returned by the district to instructional purposes in whole or in part, the district shall become ineligible for any state funding assistance for a period of ten years from the date that the superintendent of public instruction sends written notice to members of the local board recognizing the return of the building in whole or in part to instructional purposes. Districts exercising this election shall be limited in state funding assistance to the provision of WAC 392-347-040. In the event the district elects to replace a facility and construct a new facility with more space than the facility being replaced, the additional space, in order to be eligible for state funding assistance shall meet the eligibility requirements for new construction or the new construction component requirement of WAC 392-347-015 (1)(c): Provided, That no new construction in lieu of modernization project may qualify for additional state funding assistance pursuant to WAC 392-343-115 unless the facility being replaced would have qualified pursuant to such section for additional state funding assistance as a modernization project.

(3) The superintendent of public instruction may waive the provisions of this section for a period it determines is appropriate to the particular situation. A waiver request must be submitted in writing to the superintendent of public instruction. The superintendent of public instruction shall review the waiver request and approve or deny the request. The waiver request shall include, but not be limited to, the following information:

- (a) Description of the district's planning process;
- (b) Rationale why the need for the waiver request was not anticipated;
- (c) The requested length of time of the waiver;
- (d) The availability of funding for proposed projects;
- (e) List of specific projects and timelines;
- (f) List of the specific student groups that will use the facility;
- (g) Rationale why this is the best use of facilities and public funds;
- (h) Assurance that the facility meets health and safety standards for occupancy.
