ADULT DAY SERVICES

WAC 388-71-0701 What definitions apply to WAC 388-71-0702 through 388-71-0776? The following definitions apply to WAC 388-71-0702 through 388-71-0776:

(1) **"Abuse"** means the willful action or inaction that inflicts injury, unreasonable confinement, intimidation, or punishment of a vulnerable adult.

(a) In instances of abuse of a vulnerable adult who is unable to express or demonstrate physical harm, pain, or mental anguish, the abuse is presumed to cause physical harm, pain, or mental anguish.

(b) Abuse includes sexual abuse, mental abuse, physical abuse, personal exploitation of a vulnerable adult, and improper use of a restraint against a vulnerable adult, which have the following meanings:

(i) **"Sexual abuse"** means any form of nonconsensual sexual conduct, including but not limited to unwanted or inappropriate touching, rape, sodomy, sexual coercion, sexually explicit photographing, and sexual harassment. Sexual contact may include interactions that do not involve touching, including but not limited to sending a client sexually explicit messages, or cuing or encouraging a client to perform sexual acts. Sexual abuse also includes any sexual conduct between a staff person, who is not also a client, with a client, of a center.

(ii) **"Physical abuse"** means the willful action of inflicting bodily injury or physical mistreatment. Physical abuse includes, but is not limited to, striking with or without an object, slapping, pinching, choking, kicking, shoving, prodding, or use of chemical or physical restraints unless the restraints are consistent with licensing requirements, and includes restraints that are otherwise being used inappropriately.

(iii) **"Mental abuse"** means a willful verbal or nonverbal action that threatens, humiliates, harasses, coerces, intimidates, isolates, unreasonably confines, or punishes a vulnerable adult. Mental abuse may include ridiculing, yelling or swearing.

(iv) **"Personal exploitation"** means an act of forcing, compelling, or exerting undue influence over a vulnerable adult causing the vulnerable adult to act in a way that is inconsistent with relevant past behavior, or causing the vulnerable adult to perform services for the benefit of another.

(2) **"Adult day care"** or **"ADC"** means a supervised daytime program that provides services under WAC 388-71-0704 for clients who meet the eligibility requirements in WAC 388-71-0708.

(3) **"Adult day center"** means an adult day care or adult day health center.

(4) **"Adult day health"** or **"ADH"** means a supervised daytime program that provides ADC services under WAC 388-71-0704 and skilled services under WAC 388-71-0706 for clients who meet the eligibility requirements in WAC 388-71-0710.

(5) **"Adult day services"** is a generic term that refers to adult day care and adult day health services.

(6) **"Authorizing practitioner"** means a physician, osteopath, nurse practitioner, or physician assistant who has the licensed ability to write medical orders for skilled care and interventions that require a practitioner order.

(7) **"Chemical restraint"** means the administration of any drug to manage a vulnerable adult's behavior in a way that reduces the safety risk to the vulnerable adult or others, has a temporary effect of restricting the vulnerable adult's freedom of movement, and is not standard treatment for the vulnerable adult's medical or psychiatric condition.

(8) **"Chronic-care management"** means regular monitoring of the client's chronic health condition, training the client and caregiver, providing treatments or interventions when warranted and regular communication with primary care practitioners and caregivers to help implement and keep current the clinical care plan while ensuring the treatments have the intended effect of improving health, maintaining health, or slowing declining health when the diagnosis is a nonreversible condition.

(9) **"Client"** or **"participant"** means a person who receives services at an adult day center.

(10) **"Department service plan"** means a client's comprehensive assessment reporting evaluation (CARE) assessment including personal care and skilled care needs.

(11) **"Direct care staff"** are staff in an adult day center that interact with participants by providing care, services, and guidance.

(12) **"The discharge plan"** is a plan that outlines specific measurable goals expected to occur due to individualized treatments provided to a participant, indicating discharge is appropriate. This plan is developed and addressed on the participant's ADC and ADH negotiated care plan and is updated with each significant change of condition or when the client partially or completely meets the expected measurable goal(s). Planned discharge outcomes reflect the end of treatment because the client meets the measurable outcomes or he or she is unable to participate in or benefit from treatment.

(13) **"Involuntary seclusion"** means the involuntary confinement of a client to a room or area where the client is physically prevented from leaving.

(14) **"Medical device"** means any piece of medical equipment used to treat a client's assessed need. A medical device is not always a restraint and should not be used as a restraint, unless assessed and approved by a physician or primary care provider. Some medical devices have considerable safety risks associated with use. Examples of medical devices with known safety risks may be, but are not limited to transfer poles, posey or lap belts, and side rails.

(15) **"Maintenance"** is continuing clinically appropriate skilled services that are justified as reasonable, necessary, and appropriate to sustain minimal loss of function. Maintenance interventions have discharge measurable goals that outline when maintenance skilled services are no longer beneficial.

(16) **"Medically necessary"** means the service is reasonably calculated to prevent, diagnose, correct, cure, alleviate, or prevent worsening of conditions in the client that endangers life, causes suffering or pain, results in an illness or infirmity, threatens to cause or aggravate a disability, or causes physical deformity or malfunction.

(17) "**Negotiated care plan**" means a client centered, goal specific service plan that outlines the specific needs of the client, contains measurable, achievable, and realistic goals for the client, states how the adult day center will meet the assessed and agreed upon needs, when the assessed and agreed upon needs will be met, and by what discipline the assessed and agreed upon needs will be met.

(18) "**Physical restraint**" means the application of physical force without the use of any device, for the purpose of restraining the free movement of a vulnerable adult's body. "Physical restraint" does not include briefly holding, without undue force, a vulnerable adult in order to calm or comfort him or her, or holding a vulnerable adults hand to safely escort him or her from one area to another.

(19) "**Preliminary service plan**" means the initial intake, evaluation, and preliminary care plan including the client's strengths, deficits, and potential needs. The adult day center must determine based on the preliminary service plan whether they can meet those needs and accept the client into the adult day program.

(20) "**Rehabilitative service**" means a service provided using applicable physical therapy, occupational therapy, or speech therapy standards of practice and is considered medically necessary if the type, amount, and duration of service outlined in the plan of care increases the likelihood of meeting one or more of the following goals: Improve function, minimize loss of function, improve cognition or minimize loss of cognition, or decrease risk of injury and disease.

(21) "**Significant change**" means:

(a) A lasting change, decline, or improvement in the client's baseline physical, mental, or psychosocial status;

(b) The change is significant enough so that the current assessment or negotiated care plan does not reflect the client's current status; and

(c) A new assessment may be needed when the client's condition does not return to baseline within a two week period of time.

(22) "**Skilled nursing services**" means services that are reasonable and necessary for the treatment of a client's illness or injury and are consistent with the unique nature and severity of the client's illness or injury, his or her particular medical needs, and accepted standards of medical and nursing practices, including WAC 246-840-700, without regard to whether the illness or injury is acute, chronic, terminal, or expected to last for a significant amount of time.

(23) "**Specific goals**" mean expected outcomes individualized to the client's need(s) that stipulate the measurable, detailed, and expected progress the client may make while receiving the service. The specific goals address the who, what, when, why, and how of the expected final outcome. If a client's specific goal is to prevent a decline in his or her condition, the goal must have measurable outcomes that identify the intervention to prevent the decline and how to measure this prevention. If you cannot measure the expected outcome of the clinical intervention then you are not preventing a decline.

[Ch. 388-71 WAC p. 30]

WAC 388-71-0702 What is the purpose of adult day services? (1) WAC 388-71-0702 through 388-71-0776 contains the eligibility requirements for community options program entry system (COPES) waiver, roads to community living (RCL), residential support waiver (RSW), or other agency approved funding for adult day care and adult day health services.

(2) These rules also contain the requirements that apply to adult day care and adult day health centers that contract with the department, area agency on aging, other department designee to provide COPES, RSW, and RCL services to department clients, and adult day centers who are owned and operate on a private pay basis. Nothing in these rules may be construed as requiring the department, an area agency on aging, or other designee to contract with an adult day care or adult day health center.

(3) An adult day center is a community-based program designed to meet the needs of adults with impairments through individualized goal specific plans of care. This type of structured, comprehensive, nonresidential program provides a variety of health, social, and related support services in a protective setting. Adult day centers support families and caregivers with the following goals:

(a) Provide an opportunity for the client to live in his or her community;

(b) Provide the client with clinical and nonclinical services to meet unmet needs;

(c) Assist the client to maintain maximum independence in his or her activities of daily living (ADL); and

(d) Measure the client's progress through individualized interventions, as outlined in his or her negotiated care plan.

(4) An adult day center evaluates the client's needs and offers services with goal specific interventions to meet those needs and enhance his or her quality of life. The client attends on a scheduled and planned basis. The adult day center evaluates potential clients to determine if center is able to meet their identified needs. Nothing in this generic description may be construed to modify the specific services or eligibility requirements referenced in this chapter of adult day care and adult day health.

WAC 388-71-0712 What is considered skilled nursing in adult day health? (1) Skilled nursing services are medically necessary services provided directly or indirectly by a registered nurse under an authorizing practitioner's supervision, or by a licensed practical nurse under physician or registered nurse supervision, that a licensed nurse acting within the scope of practice can provide or supervise. Authorizing practitioner orders must be obtained when required by applicable state practice laws for licensed nurses. Authorizing practitioner orders must be obtained upon initial service, updated when a significant change occurs changing the nursing intervention or at least annually.

(2) Skilled nursing services must exceed the level of routine health monitoring, general health education, and general therapeutic activities as defined in WAC 388-71-0704, and must be provided with the reasonable expectation that the services will improve, restore, maintain function or slow the client's decline of the disease or functional ability. Skilled nursing services are:

- (a) Specific to a client's diagnosis;
- (b) Individualized to the client with planned measurable outcome goals; and
- (c) Reevaluated every ninety days or sooner when there is a significant health change for effect on improvement or maintenance of health status, or slowing the decline of the disease or functional ability.

(3) Skilled nursing services, including the initial client nursing assessment and development of the nursing plan of care, must be provided or supervised by a registered nurse in accordance with nursing practice standards under chapter 246-840 WAC.

(4) A skilled nursing service is not a qualifying adult day health service merely because the service is ordered by an authorizing practitioner or is provided by a nurse. If, by way of example, the service can be performed by the client or at the client's direction by a person other than a licensed nurse, it is not a qualifying adult day health service.

(5) Skilled nursing services must be medically necessary as defined under WAC 182-500-0070. Medically necessary skilled nursing services include but are not limited to:

(a) Assessment, care and evaluation with collaboration of services of an acute or chronic unstable or unpredictable medical condition, with time specific measurable treatment goals, requiring frequent skilled intervention by a registered nurse or by a licensed practical nurse under the supervision of a registered nurse according to WAC 246-840-705 and ordered by the authorizing practitioner;

(b) Evaluation and management of the care plan when unstable medical conditions or complications require com-

plex nonskilled care and skilled nurse oversight to ensure that the nonskilled care is achieving its purpose;

(c) Time-limited training by licensed nursing staff to teach the client and/or the client's caregiver self-care for newly diagnosed, acute, or episodic medical conditions that require the skills of a licensed nurse to teach, and that will optimize client function, as illustrated by the following examples:

- (i) Self administration of an injection;
- (ii) Prefilling insulin syringes;
- (iii) Irrigating a catheter;
- (iv) Caring for a colostomy or urostomy;
- (v) Wound dressing changes or aseptic technique; or
- (vi) Disease self-management.

WAC 388-71-0714 What is considered rehabilitative therapy in adult day health? (1) Skilled rehabilitative therapy services are medically necessary services provided by or under the supervision of a licensed physical, occupational, or speech-language pathology or audiology therapist that the

therapist acting within the scope of practice can provide or supervise directly or indirectly. Authorizing practitioner orders must be initially obtained and updated when a significant change occurs or at least annually when required by applicable state practice laws for licensed therapists.

(a) Persons that can provide rehabilitative care under the direction and supervision of a licensed therapist include occupational therapy aides, occupational therapy assistants, physical therapy aides, physical therapy assistants, and nurses within their respective scopes of practice. Adult day health program aides, specifically trained in rehabilitative techniques, may also provide care under the direction and supervision of a licensed therapist.

(b) Services, group or individual, must be related to an active written plan of care with time specific measurable treatment goals approved by the authorizing practitioner;

(c) Services, group or individual, must require the assessment, knowledge and skills of a licensed therapist; and

(d) Services, group or individual, must be provided with the reasonable expectation that the services will improve, restore, maintain function, or slow decline. Rehabilitative services are:

(i) Specific to a client diagnosis;

(ii) Individualized to the client with planned, measurable outcomes; and

(iii) Reevaluated every ninety days for effect on improvement of health status or slowing the decline.

(2) Skilled rehabilitative therapy is not a qualifying adult day health service merely because the therapy is ordered by an authorizing practitioner or is provided by a therapist or under the supervision of a therapist. If, by way of example, the therapy can be performed independently by the client or at the client's direction by a person other than a licensed therapist, it is not a qualifying adult day health service.

Skilled rehabilitative therapy services must be medically necessary as defined under WAC 182-500-0070.

(3) Medically necessary physical therapy services may, but do not necessarily include:

(a) Assessing baseline mobility level, strength, range of motion, endurance, balance, and ability to transfer;

(b) One to one and group treatment to relieve pain, develop, restore, or maintain functioning, with individualized and measurable client treatment goals;

(c) Establishing a maintenance or restorative program with measurable treatment goals, and providing written and oral instruction to the client, caregivers, or program staff as needed to assist the client in implementing the program;

(d) Training the client or the client's caregivers in the use of supportive, adaptive equipment or assistive devices;

(e) Evaluation and management of the care plan when medical conditions or complications require complex non-skilled care and skilled therapist oversight to ensure that the non-skilled care is achieving its purpose; or

(f) Providing other medically necessary services that can only be provided by or under the direct or indirect supervision of a physical therapist acting within the therapist's scope of practice.

(4) Medically necessary occupational therapy services may, but do not necessarily include:

(a) Administering a basic evaluation to determine baseline level of functioning, ability to transfer, range of motion,

balance, strength, coordination, activities of daily living and cognitive-perceptual functioning;

(b) Teaching and training the client, caregivers, or program staff in the use of therapeutic, creative, and self-care activities to improve or maintain the client's capacity for self-care and independence, and to increase the range of motion, strength and coordination;

(c) One to one and group treatment to develop, restore, or maintain functioning with individualized and measurable client treatment goals;

(d) Training the client or the client's caregivers in the use of supportive, adaptive equipment or assistive devices;

(f) Providing other medically necessary services that can only be provided by or under the direct or indirect supervision of an occupational therapist acting within the therapist's scope of practice.

(5) Medically necessary speech-language pathology or audiology services may, but do not necessarily include:

(a) Assessing baseline level of speech, swallowing, auditory, or communication disorders;

(b) Establishing a treatment program to improve speech, swallowing, auditory, or communication disorders;

(c) Providing speech therapy procedures that include auditory comprehension tasks, visual and/or reading comprehensive tasks, language intelligibility tasks, training involving the use of alternative communication devices, or swallowing treatment;

(d) Training the client or the client's caregivers in methods to assist the client in improving speech, communication, or swallowing disorders;

(e) Evaluation and management of the care plan when medical conditions or complications require complex non-skilled care and skilled therapist oversight to ensure that non-skilled care is achieving its purpose; or

(f) Providing other medically necessary services that can only be provided by or under the direct or indirect supervision of a speech-language pathology or audiology therapist acting with the therapist's scope of practice.

(6) Medically necessary skilled rehabilitative therapy services, by way of example, do **not** include:

(a) Reminding or coaching the client in tasks that are not essential to the skilled therapy or intervention in the client's service plan;

(b) Monitoring of a medical condition that does not require frequent skilled therapist intervention or a change in authorizing practitioner treatment orders, or where there is no reasonable expectation that skilled services will maintain, improve, or slow the effect of a progressive disabling condition on the pain, health or functioning of a client;

(c) Massage therapy;

(d) Evaluation and management of the care plan when the complexity of the care to be provided by non-skilled persons does not require the skills of a licensed therapist for oversight;

(e) Continued training by therapy staff to teach self-care for newly diagnosed, acute, or episodic medical conditions

when it is apparent that the training should have achieved its purpose or that the client is unwilling or unable to be trained;

(f) ADC services that can be provided by an adult day care center, such as routine health monitoring, general health education, or general therapeutic activities; or

(g) Group therapy or training where the ratio of licensed therapists and assisting program staff to clients is inadequate to ensure that:

(i) The group activity contributes to the individual client's planned therapy goals; and

WAC 388-71-0716 What kind of assessment and service plan is required to determine a client's unmet needs for adult day care? (1) The department or an authorized case manager must perform a comprehensive assessment reporting evaluation (CARE) to determine a client's need for adult day care, per WAC 388-106-0065. Based on the assessment, the case manager determines whether the client should be referred for day care services or whether the client's needs can be met in other ways.

(2) If the case manager determines an unmet need for an ADC service that may be provided at a day care center, the case manager works with the client and/or the client's representative to develop a service plan that documents the needed services and the number of days per week that the services are to be provided. The case manager refers the client to a waiver-contracted day care center that the client and the case manager agree can potentially meet the client's needs.

(3) Clients receiving adult day care services must be reassessed at least annually.

(1) Upon the department's or authorized case manager's referral of a COPES, RSW, RCL, or other agency approved client to an ADC center, the ADC center must respond in writing to the department or authorized case manager within two working days, acknowledging receipt of the referral and the center's ability to process and evaluate the referred client.

(2) The case manager will provide the client's department service plan to the ADC center within five working days after the client or client's representative has signed it.

(3) The ADC center must schedule and conduct an intake and evaluation visit with the referred client or the client and his or her authorized representative to determine the client's desire to attend the ADC center and evaluate the ADC cen-

ter's ability to meet the client's assessed needs and specific goals as defined in the client's department service plan. The intake and evaluation must be based on an interview with the client or the client and his or her authorized representative.

(4) Within ten paid service days from the date the client started attending the ADC center, the ADC center must complete and provide a preliminary service plan to the client or the client and his or her representative and the client's case manager that outlines the client's strengths, deficits, and potential needs. The ADC center must determine whether it can meet the client's needs, how it will meet the client's needs, and whether it will accept the client into the program. The ADC center must not accept a client whose needs the center cannot meet. The ADC center must document in the client's file the date it accepted the client into the ADC program. If the client is not accepted into the ADC program, the preliminary service plan must include the reason(s) why the client was not accepted.

(5) Within thirty calendar days of the date the client was accepted into the ADC program, the ADC center must work with the client or the client and his or her authorized representative to develop and complete a negotiated care plan signed by the client or the client's authorized representative and the ADC center.

(6) The negotiated care plan must limit the frequency of services to the number of days authorized in the department authorized service plan. The negotiated care plan must include:

(a) A list of the care and services the ADC center will provide the client;

(b) Identification of who will provide the client's care and services;

(c) When and how the ADC center will provide the care and services;

(d) How the ADC center will manage the client's medications and how the client will receive his or her medications when attending the ADC center;

(i) Food;

(ii) Daily routine;

(iii) Activities;

(iv) Services received and who will provide the services received;

(v) Individuals they interact with;

(vi) Grooming;

(vii) How the ADC center will accommodate the client's preferences and choices; and

(g) If needed, a plan to:

(i) Follow in case of a foreseeable crisis due to the client's assessed needs;

(ii) Reduce tension, agitation, and problem behaviors;

(iii) Respond to the client's special needs, including, but not limited to medical devices and related safety plans, and if medical devices are used, ADC center staff must ensure the medical device will not be used as a physical restraint for discipline or staff convenience and must also ensure clients are free from coercion while attending the ADC center;

(iv) Respond to the client's refusal of care or treatment, including when the ADC center should notify the client's physician or practitioner of the client's refusal; and

(v) Identify any communication barriers the client may have and how the ADC center will use the client's behaviors and nonverbal gestures to communicate with him or her.

(7) The ADC center must:

(a) Ensure medical devices will never be used as a physical restraint for discipline or staff convenience;

(b) Update the negotiated care plan annually and whenever there is a significant change in the client's condition and needs;

(c) Share the negotiated care plan with the client's case manager whenever it is updated, annually, and after a significant change;

(d) Ensure the client's case manager reviews the negotiated care plan to ensure all services are appropriate and all authorized care needs have been included;

(e) Keep the current negotiated care plan in the client's file; and

(f) Offer a copy of the negotiated care plan to the client or the client and his or her authorized representative.

(8) The ADC center must report changes in the client's condition or unanticipated absences more than three consecutive scheduled days of service to the client's case manager within one week.

(a) Unanticipated absences may include but are not limited to absences due to client illness or change in transportation access.

WAC 388-71-0720 What is the adult day health center's responsibility in working with the department or their designee to obtain, use and update the CARE assessment? (1) The department or an authorized case manager must perform a CARE assessment to determine a client's need for adult day health, per WAC 388-106-0065. Based on the assessment, the case manager determines whether the client should be referred for day health services or whether the client's needs can be met in other ways.

(2) If the client **has** a department or area agency on aging case manager, the adult day health center or other referral source must notify the case manager of the client's potential adult day health service need. The case manager must assess the client's need for skilled nursing or skilled rehabilitative therapy within the department's normal time frames for client reassessments.

(3) If the client **does not have** a department or area agency on aging case manager, the adult day health center or other referral source must notify the department of the referral and the client's potential adult day health service need, or refer the client to the department for intake. The department's

assigned case manager must assess the client's need for adult day health services within the department's normal time frames for initial client eligibility assessments.

(4) The case manager may consult with the client's authorized practitioner, department or area agency on aging nursing services staff, or other pertinent collateral contacts, concerning the client's need for skilled nursing or rehabilitative therapy.

(5) If the department or area agency on aging case manager determines and documents a potential unmet need for day health services, the case manager works with the client and/or the client's representative to develop a service plan that documents the potential unmet needs and the anticipated number of days per week that the services are needed. The case manager refers the client to a department contracted adult day health center for evaluation and the development of a preliminary service plan.

(6) The department or area agency on aging case manager must reassess adult day health clients at least annually. Clients must also be reassessed if they have a break in service of more than thirty days. The adult day health center must inform the case manager of the break in service so payment authorization can be discontinued.

(7) COPES, RSW, and RCL recipients of adult day health services must be assessed by the department or an authorized case manager for initial or continued eligibility as follows:

(a) Annual reassessment for department clients; or

(b) A new client to the center who potentially could be eligible for state paid ADH services are to be referred to the local department offices for intake and assessment for eligibility.

(8) The department or area agency on aging case manager must review a client's continued eligibility for adult day health services every ninety days, coinciding with the quarterly review completed by the adult day health program. At the case manager's discretion, additional information will be gathered through face to face, collateral or other contact methods to determine continued eligibility. Services will be continued, adjusted, or terminated based upon the case manager's determination during the eligibility review.

WAC 388-71-0724 How do I apply for an adult day program state contract? (1) The department, or an area agency on aging (or other department designee) as authorized by the department, must determine that the adult day care or day health center meets the applicable adult day care or day health requirements and any additional requirements for contracting with the area agency on aging, according to each AAA's procurement procedure, through a state contract.

(2) All ADH centers must also have a core provider agreement with the health care authority in order to bill for providing care and services to the COPES, RSW, and RCL participants.

(3) If a center is contracting for both day care and day health, requirements of both adult day services must be met.

(4) A prospective provider desiring to provide adult day services shall be provided an application form from the department or the area agency on aging. A prospective provider convicted of abuse or neglect of a vulnerable adult is not eligible to provide adult day services in any capacity within the organization per chapter 74.34 RCW.

(5) The prospective provider will provide the area agency on aging with evidence of compliance with, or administrative procedures to comply with, the adult day service rules under this chapter.

(6) The area agency on aging will conduct a site inspection of the adult day center and review of the requirements for contracting.

(7) Within thirty days of completing the site visit, the area agency on aging will advise the prospective provider in

writing of any deficiencies in meeting contracting requirements.

(8) The area agency on aging will verify correction of any deficiencies within thirty days of receiving notice from the prospective provider that deficiencies have been corrected, before contracting can take place.

(9) The area agency on aging will provide the department with a written recommendation as to whether or not the center meets contracting requirements.

(11) The area agency on aging or other department designee monitors the adult day center at least annually to determine continued compliance with adult day care and/or adult day health requirements and the requirements for contracting with the department or the area agency on aging.

(a) The area agency on aging will send a written notice to the provider indicating either compliance with contracting requirements or any deficiencies based on the annual monitoring visit and request a corrective action plan. The area agency on aging will determine the date by which the corrective action must be completed.

(b) The area agency on aging will notify the department of the adult day center's compliance with contracting requirements or corrected deficiencies and approval of the corrective action plan for continued contracting.

(12) Adult day care services are reimbursed on an hourly basis up to four hours per day. Service provided four or more hours per day will be reimbursed at the daily rate.

WAC 388-71-0728 Can a client receive both adult day care and adult day health? (1) A COPES, RSW, or RCL eligible client may receive adult day care services on some days and adult day health services on different days if the service plan documents which level of service are to be provided on which days. However, ADC services must be provided on all days that adult day health skilled services are provided, and reimbursement is limited to the day health rate on days that day health services are provided.

(2) Clients receiving services from the department in an adult family home, assisted living, or other licensed community residential facility may not receive COPES, RSW, or RCL funded adult day care, but may receive COPES funded adult day health services when the skilled nursing or rehabilitative services are approved by the client's case manager as part of the client's service plan.

(3) A licensed assisted living facility providing department-approved day care under chapter 388-78A WAC is subject to any applicable provisions of that chapter and is also subject to the rules under this chapter if the facility contracts with an area agency on aging or the department to provide COPEs waiver or RCL funded adult day services.

WAC 388-71-0730 What other funds are available through the area agency on aging? (1) Except as provided under this section, the adult day services rules under this chapter do not apply to adult day care or day health services funded under chapters 74.38 and 74.41 RCW.

(2) An area agency on aging that elects to provide adult day services using Senior Citizens Services Act funding under chapter 74.38 RCW or respite care funding under chapter 74.41 RCW must contract with an adult day center that meets all administrative and facility requirements under WAC 388-71-0736 through 388-71-0774.

(3) The adult day care or day health services funded under chapters 74.38 or 74.41 RCW must be the same as the day care services required under WAC 388-71-0704 or the day health services required under WAC 388-71-0706. The area agency on aging may require additional services by contract.

(4) The area agency on aging may, by contract, establish eligibility and assessment requirements for day care or day health services in accordance with locally identified needs. However, funding provided under chapters 74.38 or 74.41 RCW may only be used to meet the needs of individuals who are not eligible for adult day care under WAC 388-71-0708 or for adult day health under WAC 388-71-0710, or who are eligible for those services and are not receiving them because of funding limitations.

(5) Nothing in this section or chapter may be construed as requiring an area agency on aging to contract with an adult day center, whether or not the center has a COPEs and RCL contract. Nor may anything in this section or chapter be construed as creating an entitlement to state-funded adult day services authorized under chapters 74.38 and 74.41 RCW.

WAC 388-71-0732 What are the client's hearing rights? (1) If the department or area agency on aging denies, terminates, or reduces a COPEs, RSW, or RCL individual client's adult day care or day health services, the client has the right to an administrative hearing as provided under chapter 388-02 WAC. If a client funded with Senior Citizen Services Act or respite care has a complaint, grievance or dispute, the resolution process is a hearing as outlined in the department's area agency on aging policy and procedure manual chapter 6. The area agency on aging would work with the client through this process.

(8/23/18)

(2) An adult day care or day health center has those hearing or dispute resolution rights that are afforded under RCW 43.20B.675 and the center's contract with the area agency on aging or the department. An adult day health center has any other applicable hearing or dispute resolution rights under WAC 182-502-0220.

(3) Adult day health centers are subject to all applicable provisions of chapter 182-502 WAC, and the department's aging and long term support administration may exercise the department's authority under that chapter to the same extent as the health care authority.

WAC 388-71-0734 Would the department limit expenditures in the adult day service program? (1) In order to provide adult day services within the limits of available funding, the department may limit services when program expenditures exceed the budget appropriation or when limiting services is required to prevent expenditures from exceeding the appropriation.

(2) When adult day health program expenditures exceed available funding, the department may limit adult day health services based on the four care level system as determined through the established department assessment and described in chapter 388-105 WAC.

(a) Using the care level determined by the department assessment tool, the department will limit adult day services on a statewide basis to clients whose total scores exceed the assessed need level identified by the department as necessary to provide adult day health services to the extent of available funding.

(b) At least thirty days before implementing the limitation on services under this subsection, the department will notify the area agencies on aging, adult day health centers, and the affected adult day health clients that services are being limited and for what period of time the limitation is estimated to remain in effect.

(c) For purposes of RCW 74.08.080, the reduction in services shall be deemed an assistance adjustment for an entire class of recipients that is required by state laws prohibiting the department from expending funds in excess of appropriations.

(3) The department may adopt additional or alternative rules to control costs, such as, but not limited to, imposing a moratorium on contracting with new adult day centers, limiting services to clients based on level of care need, or reducing the numbers of days per week that clients may receive services.

WAC 388-71-0836 What definitions apply to the long-term care worker training requirements? "Activities of daily living," in the context of this chapter, means self-care abilities related to personal care such as bathing, eating, using the toilet, dressing, and transfer. Instrumental activities of daily living may also be used to assess a person's functional abilities in the home and the community such as cooking, shopping, house cleaning, doing laundry, working, and managing personal finances.

"Care team" includes the client and everyone involved in his or her care. The care team can include family, friends, doctors, nurses, long-term care workers, social workers and case managers. The role of the care team is to support the well-being of the client, however, the client directs the care plan.

"Certified home care aide" means a long-term care worker who has obtained and maintains a home care aide certification through the department of health.

"Challenge test" means a challenge test taken for specialty training, without first taking the class for which the test is designed and can only be used when basic training is not required.

"Client" means an individual receiving in-home services.

"Competency" defines the integrated knowledge, skills, or behavior expected of a long-term care worker after completing training in a required topic area. Learning objectives are associated with each competency.

"Competency testing" is evaluating a student to determine if he or she can demonstrate the required level of skill, knowledge, and/or behavior with respect to the identified learning objectives of a particular course. The department only requires competency testing for nurse delegation core and specialized diabetes training and the specialty trainings. Training programs may integrate competency testing within their approved curricula.

"DDD" refers to the division of developmental disabilities.

"Department" or "DSHS" refers to the department of social and health services.

"Enhancement" is additional time provided for skills practice and additional training materials or classroom activities that help a worker to thoroughly learn the course content and skills. Enhancements can include new student materials, videos or DVDs, online materials, and/or additional student activities.

"Guardian" means an individual as defined in chapter 11.88 RCW.

"Individual provider" means a person who has contracted with the department to provide personal care or respite care services to persons with functional disabilities under a medicaid state plan or federal waiver such as community options program entry system (COPES), or other waiver programs.

"Learning objectives" are measurable, written statements that clearly describe what a long-term care worker must minimally learn to meet each competency. Learning objectives are identified for each competency. Learning

objectives provide consistent, common language and a framework for curriculum designers, the curriculum approval process, and testing. Curriculum developers have the flexibility to determine how learning objectives are met and may include additional content deemed necessary to best meet the competency in a particular setting.

"Long-term care worker" includes all persons providing paid, personal care services for the elderly or persons with disabilities, including individual providers of home care services, direct care employees of home care agencies, providers of home care services to persons with developmental disabilities under Title 71A RCW, all direct care workers in state-licensed boarding homes, adult family homes, respite care providers, community residential service providers, and any other direct care staff providing home or community-based services to the elderly or persons with functional disabilities or developmental disabilities, and supported living providers.

 - (f) Adult day care centers or adult day health centers.
- (3) Persons whose services are exclusively limited to assistance with "instrumental activities of daily living," as that term is defined in WAC 388-106-0010.

"Personal care services" means physical or verbal assistance with activities of daily living, or activities of daily living and instrumental activities of daily living which are provided to the client.

"Training entity" means an organization, including an independent contractor, who is providing or may provide training under this section using approved curriculum. Training entities may only deliver approved curriculum.

"Training partnership" means a joint partnership or trust that includes the office of the governor and the exclusive bargaining representative of individual providers under RCW 74.39A.270 with the capacity to provide training, peer mentoring, and workforce development, or other services to individual providers.
