

WAC 173-95A-560 Process for water pollution control activities.

The following process is required for lake projects and recommended for all water pollution control activities projects.

(1) **Planning** involves the identification of problems, evaluation of cost-effective alternatives in accordance with WAC 173-98-730, and preparation of a planning document.

(2) **Implementation** is the actual implementation of the project based on the planning document.
