

WAC 246-919-396 Background check—Temporary practice permit.

The medical quality assurance commission (MQAC) conducts background checks on applicants to assure safe patient care. Completion of a national criminal background check may require additional time. The MQAC may issue a temporary practice permit when the applicant has met all other licensure requirements, except the national criminal background check requirement. The applicant must not be subject to denial of a license or issuance of a conditional license under this chapter.

(1) If there are no violations identified in the Washington criminal background check and the applicant meets all other licensure conditions, including receipt by the department of health of a completed Federal Bureau of Investigation (FBI) fingerprint card, the MQAC may issue a temporary practice permit allowing time to complete the national criminal background check requirements.

The MQAC will issue a temporary practice permit that is valid for six months. A one time extension of six months will be granted if the national background check report has not been received by the MQAC.

(2) The temporary practice permit allows the applicant to work in the state of Washington as a physician during the time period specified on the permit. The temporary practice permit is a license to practice medicine.

(3) The MQAC issues a license after it receives the national background check report if the report is negative and the applicant otherwise meets the requirements for a license.

(4) The temporary practice permit is no longer valid after the license is issued or action is taken on the application because of the background check.
