

WAC 296-62-500 Hazardous drugs. This chapter provides minimum requirements for developing a hazardous drugs control program when occupational exposure to hazardous drugs is reasonably anticipated. It is designed to provide effective, assessment-based precautions to minimize or eliminate occupational exposure to hazardous drugs.

IMPORTANT:

Occupational exposure to hazardous drugs is also covered under WAC 296-800-170, Employer chemical hazard communication—Introduction. In addition the employer must follow the requirements in WAC 296-800-160, personal protective equipment (PPE) and chapter 296-842 WAC, Respirators. Whenever there is a conflict between rule requirements the most protective requirement will take precedent.
