

WAC 296-96-02490 Exceptions. Facilities that require special consideration to ensure the safety of security personnel and to prevent escapes shall meet the relevant requirements of ASME A17.1/CSA B44, except that accessible "in-car" stop switches and signaling devices are not required when the elevator operation is:

- (1) Continually monitored by audio-visual equipment.
- (2) Remotely controlled from a single location.

Controls necessary for an elevator's operation may be located inside a car when the operating panel has a locked cover.

[Statutory Authority: Chapter 70.87 RCW. WSR 18-18-070, § 296-96-02490, filed 8/31/18, effective 10/1/18; WSR 07-24-041, § 296-96-02490, filed 11/30/07, effective 1/1/08.]
