

**WAC 296-96-05170 Control stations.** Lift control stations shall be located at each landing out of reach but within sight of the car. They shall have controls that are permanently and clearly labeled by function. The controls shall have a stop switch that will halt electrical power to the driving machine and brake. This stop switch shall:

- (1) Be manually operated;
- (2) Have red operating handles or buttons;
- (3) Be conspicuously and permanently marked "STOP"; and
- (4) Clearly indicate the stop and run position.
