

WAC 296-806-42070 Safeguard slat and roller-slat conveyors. (1)

You must provide **either** of these safeguards at the tail end of a slat conveyor if the slats are above the centerline of the chain:

(a) A guard over the hazardous tail end; or

(b) Warning signs if guards are impractical because of material flowing over the tail sprocket.

(2) You must provide **either** of these safeguards when there is a gap between the slats wide enough to permit access to cross members below the slats:

(a) A continuous pan under the slats; or

(b) Keep all cross members a safe distance from the slats.
