

WAC 296-826-20015 Chemical reactions. You must prohibit the use of ammonia with other chemicals unless the possible reactions have been adequately investigated.

Note: Under some circumstances, ammonia and ammonium compounds can form explosive products with other chemicals. For additional information, refer to the following:

1. Section 491M "*Manual on Hazardous Chemical Reactions*" of the NFPA, 1969 Edition; and
2. CG-388, the "*Chemical Data Guide for Bulk Shipment by Water*," 1969.
