

WAC 300-12-020 Equivalency policy. To test for "attainments and abilities equivalent to those of a library/information science school graduate," the examination process shall reflect the principles of a basic professional curriculum in librarianship. The applicant will be expected to understand the principles and methods of:

- (1) Selecting, acquiring, and organizing library materials by means of cataloging and classification;
- (2) Reference, bibliography, and public services to various groups;
- (3) Administration.

The applicant should be able to perform these and other operations effectively; should be familiar with the literature of the broad subject fields and the sources of bibliographical and factual information; should have an understanding of government, social institutions and the role of the library in a democratic society; and should be able to initiate and carry out suitable programs of library/information science service.

Passing the examination is not to be construed as having earned a masters degree in library/information science.

There shall be no reciprocity with other states certifying librarians.
