**WAC 388-828-5060 How does DDD score each question?** DDD selects one answer per each question that best describes your reported need.

(1) What level of monitoring does the client typically require during awake hours?

Answers	Definitions	Score
Independent	Can be left unattended. Might occasionally show poor judgement, but does not require routine access to a support person.	0
Remote (e.g., a week or more)	Can be left unattended for extended periods of time, but requires access to a support person either via phone or someone who visits the person weekly or so.	1
Periodic (e.g., every couple of days)	Can be left unattended for a couple of days, but requires access to a support person who checks in every few days via telephone or in person.	2
Monitoring (e.g., half day, unstructured)	Can be left unattended for several hours at a time (2-4 hours) to engage in independent activities, but needs access to a support person daily for guidance or assistance.	3
Close proximity (e.g., 1-2 hours, structured)	Can be left unattended for short periods of time (1-2 hours), provided that the environment is strictly structured and that a support person can respond quickly in an emergency situation.	4
Onsite (e.g., on property)	Cannot be left unattended. Requires a support person on the property at all times, at least during awake hours.	5
Line of sight/earshot (e.g., close observation)	Cannot be left unattended. Requires a support person within the room or within earshot of the client's location at all times during awake hours.	6

(2) What assistance does the client need to handle unfamiliar or unexpected situations?

Answers	Definitions
Can resolve independently	The client can generally handle unfamiliar or unexpected situations. The client shows generally good judgment and awareness of personal safety.
Can resolve with remote assistance	The client can handle unfamiliar or unexpected situations by calling or contacting someone remotely for assistance (e.g., by telephone or email). The support person does not need to be physically present.
Needs someone physically present to assist	When unfamiliar or unexpected situations occur, generally someone must be present or come to the client to help the client resolve the issue.
Needs full physical assistance	The client cannot generally participate in resolving such situations; someone else must resolve them.

(3) Is client able to summon help?

Answers	Definitions
Can call someone on telephone	Client can discern when help is needed and contact someone via telephone or other electronic means. This includes dialing 911, using speed dial to contact someone, email, radio, or dialing a phone number.
Can seek help outside the house, nearby	Client can discern when help is needed and can summon a remote caregiver, neighbor, or other person outside the house or nearby to assist when necessary.

Answers	Definitions

**WAC 388-828-5080 How does DDD determine your adjusted protective supervision acuity score?** DDD determines your adjusted protective supervision acuity score by applying the following age-based score adjustments to your level of monitoring score for question number one in WAC 388-828-5060:

If you are:	Then your age-based score adjustment is:
18 years or older	Score is equal to your level of monitoring score
16-17 years of age	Subtract 2 from your level of monitoring score
12-15 years of age	Subtract 3 from your level of monitoring score
8-11 years of age	Subtract 4 from your level of monitoring score
5-7 years of age	Subtract 5 from your level of monitoring score
0-4 years of age	Subtract 6 from your level of monitoring score
If your adjusted level of monitoring score is a negative number, your adjusted protective supervision acuity score is zero.	

Example: If you are fifteen years old and "close proximity, (e.g., 1-2 hours, structured)" is identified as your level of monitoring score, your adjusted protective supervision acuity score is: Your close proximity score of four minus age-based score adjustment of three. For age twelve through fifteen, this equals an adjusted protective supervision score of one.

(2) DDD adds one level to your individual and family services level when your individual and family services level is determined to be:

(a) Level one, two, three, or four; and

(b) You have a score of four for question two "Other caregiving for persons who are disabled, seriously ill, or under five" in the DDD caregiver status acuity scale. See WAC 388-828-5260.

**WAC 388-828-9060 How does DDD determine your individual and family services support rating?** Your individual and family services support rating is determined by using the following table:

If your unadjusted individual and family services level is:	Then your individual and family services support rating is:
1	0
2	240
3	336
4	432
5	528

**WAC 388-828-9100 How does DDD determine the number to use in the adjustment of your individual and family services support rating?** DDD determines the amount of the adjustment for your individual and family services support rating using the following table:

If your individual and family services level is 1, 2, 3, 4, or 5.		And your ADL support needs level for the SIS per WAC 388-828-5480			
		None	Low	Medium	High
And your medical acuity level per WAC 388-828-5700	None	57	57	76	85
	Low	57	57	76	85
	Medium	57	88	122	145
	High	57	145	245	287

Example: If your individual and family service level is 3 and your ADL support needs level is "low" and your medical acuity level is "medium," the amount of your adjustment is 88.

Example: A behavioral acuity level score of 2 is multiplied by 0.04186 resulting in an employment acuity scale score for behavioral support of 0.08372.

[Statutory Authority: RCW 71A.12.030, 71A.12.020(3), 71A.12.040(4), and 2009 c 564 §§ 103(7) and 205(c). WSR 11-13-039, § 388-828-9220, filed 6/8/11, effective 7/9/11.]

**WAC 388-828-9225 How does DDD determine your employment acuity scale score for interpersonal support?** DDD determines your employment acuity scale score for interpersonal support by multiplying your interpersonal support needs level score (see WAC 388-828-5820) by 0.23663.

<b>If your interpersonal support needs level in WAC 388-828-5820 is:</b>	<b>Then your interpersonal support needs level score is:</b>
None	0
Low	1
Medium	2
High	3

Example: An interpersonal support needs level score of 2 is multiplied by 0.23663 resulting in an employment acuity scale score for interpersonal support of 0.47326.

[Statutory Authority: RCW 71A.12.030, 71A.12.020(3), 71A.12.040(4), and 2009 c 564 §§ 103(7) and 205(c). WSR 11-13-039, § 388-828-9225, filed 6/8/11, effective 7/9/11.]

**WAC 388-828-9230 How does DDD determine your employment acuity scale score for environmental support?** DDD determines your employment acuity scale score for environmental support by multiplying your environmental support level by 0.06798.

<b>If your environmental support score from WAC 388-828-9235 is:</b>	<b>Then your environmental support level is:</b>	
0	0	None
1 or 2	1	Low
3 or 4	2	Medium
5 or more	3	High

Example: An environmental support score of 3 equals an environmental support level of 2. The environmental support level of 2 is then multiplied by 0.06798 resulting in an employment acuity scale score for environmental support of 0.13596.

[Statutory Authority: RCW 71A.12.030, 71A.12.020(3), 71A.12.040(4), and 2009 c 564 §§ 103(7) and 205(c). WSR 11-13-039, § 388-828-9230, filed 6/8/11, effective 7/9/11.]

14	Unable to regularly get to work on time	1
15	Uncertain about work	0
16	Uncooperative/lacks motivation	0
<b>Maximum employment support limitation score is:</b>		<b>13</b>

Example: If you have selected responses 1, 3, 8, 13, and 15, the sum of your scores for employment support limitations would be 3, resulting in an environmental support score of 3 for WAC 388-828-9230.

[Statutory Authority: RCW 71A.12.030, 71A.12.020(3), 71A.12.040(4), and 2009 c 564 §§ 103(7) and 205(c). WSR 11-13-039, § 388-828-9235, filed 6/8/11, effective 7/9/11.]

**WAC 388-828-9245 How does DDD determine your employment acuity scale score for employment support?** DDD determines your employment acuity score for employment support by multiplying your DDD employment support score in WAC 388-828-9250 by 0.21781.

Example: A DDD employment support score of 2 is multiplied by 0.21781 resulting in an employment acuity scale score for employment support of 0.43562.

**WAC 388-828-9250 How does DDD determine your DDD employment support score?** DDD determines your DDD employment support score using the following table:

<b>If your total raw score for the SIS employment activities subscale in WAC 388-828-4260 is:</b>	<b>Then your DDD employment level is:</b>	<b>And your DDD employment support score is:</b>
0	None	0
1 through 35	Low	1
36 through 59	Medium	2
60 or more	High	3

**WAC 388-828-9255 How does DDD determine your employment acuity score for completing tasks with acceptable speed?** DDD determines your employment acuity score for completing tasks with acceptable speed by using your "type of support" score for question "D5" in WAC 388-828-4260 and multiplying it by 0.06285.

Example: A "type of support" score of 3 (partial physical assistance) is multiplied by 0.06285 resulting in an employment acuity score for completing tasks with acceptable speed of 0.18855.

[Statutory Authority: RCW 71A.12.030, 71A.12.020(3), 71A.12.040(4), and 2009 c 564 §§ 103(7) and 205(c). WSR 11-13-039, § 388-828-9255, filed 6/8/11, effective 7/9/11.]

**WAC 388-828-9260 How does DDD determine your employment acuity score for completing tasks with acceptable quality?** DDD determines your employment acuity score for completing tasks with acceptable quality by using your "type of support" score for question "D6" in WAC 388-828-4260 and multiplying it by 0.05418.

Example: A "type of support" score of 2 (verbal/gestural prompting) is multiplied by 0.05418 resulting in an employment acuity score for completing tasks with acceptable quality of 0.10836.

[Statutory Authority: RCW 71A.12.030, 71A.12.020(3), 71A.12.040(4), and 2009 c 564 §§ 103(7) and 205(c). WSR 11-13-039, § 388-828-9260, filed 6/8/11, effective 7/9/11.]

**WAC 388-828-9265 How does DDD determine your employment acuity scale score for medical support?** DDD determines your employment acuity scale score for medical support by multiplying your medical support needs level score (see WAC 388-828-5700) by 0.06750.

<b>If your medical support needs level in WAC 388-828-5700 is:</b>	<b>Then your medical support needs level score is:</b>
None	0
Low	1
Medium	2
High	3

Example: A medical support needs level score of 2 is multiplied by 0.06750 resulting in an employment acuity scale score for medical support of 0.135.

**WAC 388-828-9270 How does DDD determine your employment acuity scale score for seizure support?** DDD determines your employment acuity scale score for seizure support by multiplying your seizure support score in WAC 388-828-9275 by negative 0.05131.

Example: A seizure support score of 3 is multiplied by -0.05131 resulting in an employment acuity scale score for seizure support of -0.15393.

[Statutory Authority: RCW 71A.12.030, 71A.12.020(3), 71A.12.040(4), and 2009 c 564 §§ 103(7) and 205(c). WSR 11-13-039, § 388-828-9270, filed 6/8/11, effective 7/9/11.]

**WAC 388-828-9275 How does DDD determine your seizure support score?** DDD determines your seizure support score using the following table:

<b>If your assessment indicates the following:</b>	<b>Your seizure support level is:</b>	<b>And your seizure support score is:</b>
(1) Does the client have a history of seizures equals "no"	None	0
(2) Does the client have a history of seizures equals "yes"; and (3) Client does not meet requirements for seizure support level of "medium" or "high"	Low	1
(4) Client has convulsive seizures (tonic-clonic or atonic); and (5) Frequency is quarterly, monthly, weekly or multiple times per week; and (6) Seizure duration is 5 minutes or less	Medium	2
(7) Two ore more emergency room visits/911 calls in past year; or (8) Has convulsive seizures (tonic-clonic or atonic); and (9) Frequency is quarterly, monthly, weekly or multiple times per week; and (10) Seizure duration is greater than 5 minutes or requires medical intervention to stop	High	3

[Statutory Authority: RCW 71A.12.030, 71A.12.020(3), 71A.12.040(4), and 2009 c 564 §§ 103(7) and 205(c). WSR 11-13-039, § 388-828-9275, filed 6/8/11, effective 7/9/11.]

**WAC 388-828-9280 Why does DDD multiply your seizure support score by a negative factor?** DDD multiplies your seizure support score by a negative factor because the DDD employment acuity scale tends to over-predict employment support needs for persons with seizures. This is because seizures can often be controlled with medication and the relationship between a person's seizure acuity and employment support needs may have already been partially taken into account by other variables in the algorithm, such as the medical acuity scale.

**WAC 388-828-9300 What is the community access acuity scale?** The developmental disabilities administration (DDA's) community access acuity scale is an algorithm DDA uses to determine the number of sup-

port hours you may receive if you are approved for community access services.

**WAC 388-828-9310 How does DDA determine the number of community inclusion services hours you may receive each month?** (1) The number of hours of community inclusion services you may receive each month is based on your community inclusion service level.

(2) The developmental disabilities administration (DDA) determines your community inclusion service level based on your support intensity scale (SIS) support needs index percentile ranking. DDA determines your SIS support needs index percentile ranking under WAC 388-828-4440 and as detailed in the following table:

SIS support needs index percentile	Community inclusion service level	Maximum service hours per month
0 - 9th percentile	A	Up to 3 hours
10th - 19th percentile	B	Up to 6 hours
20th - 29th percentile	C	Up to 9 hours
30th - 44th percentile	D	Up to 12 hours
45th - 59th percentile	E	Up to 15 hours
60th - 74th percentile	F	Up to 18 hours
75th - 100th percentile	G	Up to 20 hours

#### **DDD EMPLOYMENT ACUITY SCALE**

**WAC 388-828-9325 How does DDD determine the number of hours you may receive for employment support services?** DDD determines the number of hours you may receive for employment services using information from the following:

(1) Your employment support level determined as described in WAC 388-828-9205;

(2) Your employment status determined as described in WAC 388-828-9330;

(3) Your employment service level and employment service hours determined as described in WAC 388-828-9335;

(4) Your employment service type;

(5) You meet one of the conditions identified as described in WAC 388-828-9345 and require add-on hours identified in WAC 388-828-9350.

**WAC 388-828-9330 How does DDA determine your employment status?**

(1) The developmental disabilities administration (DDA) considers your employment status "working" if:

(a) In the twelve months before your assessment:

(i) You have been employed for nine consecutive months; and

(ii) You have earned at least Washington state's minimum wage; or

(b) You are currently self-employed and:

(i) The activities of your employment meet the Internal Revenue Service (IRS) rules for a business;

(ii) You have a business plan demonstrating feasibility as determined by the division of vocational rehabilitation or an impartial, agreed upon, third-party business expert; and

(iii) You are licensed, if required, and follow all local, state, and federal regulations and rules.

(2) DDA considers your employment status "working at sub-minimum wage or in job development" if you do not meet the conditions in subsection (1) of this section.

**WAC 388-828-9335 How does DDA determine your employment service level?**

DDA determines your employment service level using the following table:

If your employment support level in WAC 388-828-9205 is:	And your employment status in WAC 388-828-9330 is:	Then your employment service level is:	And your employment service hours per month are:
None	Working	A	0
	Working at sub-minimum wage or in job development	B	0
Low	Working	C	4
	Working at sub-minimum wage or in job development	D	7
Medium	Working	E	7
	Working at sub-minimum wage or in job development	F	9
High	Working	G	11

If your employment support level in WAC 388-828-9205 is:	And your employment status in WAC 388-828-9330 is:	Then your employment service level is:	And your employment service hours per month are:

**WAC 388-828-9340 How does your employment service type affect how your employment service hours are used?** Your employment service type determines where and how your service hours are provided.

(1) Individual supported employment:

(a) Your employment services are provided in typical community-based settings;

(b) The focus of employment services is on obtaining and/or maintaining integrated employment at or above the state's minimum wage in the general workforce; and

(c) Your employment services are not shared with others.

(2) Group supported employment:

(a) Your employment services are provided in typical community-based settings;

**WAC 388-828-9345 Can you receive fewer than the number of hours allocated to you in your employment service level?** Yes. You may be authorized to receive fewer than the number of hours allocated if one or more of the following factors is detailed on your employment plan:

(1) You can independently find and maintain employment.

- (2) Your employment is stable and you need few support hours to maintain it.
- (3) You have natural supports from co-workers, family, friends, or others who support you in finding and maintaining a job.
- (4) Your job schedule does not require the full amount of supports allocated to your supported employment service level.
- (5) You choose to receive fewer hours of support than are allocated for your supported employment service level.
- (6) There are other factors in your employment plan which indicate you can find and maintain a job with fewer support hours.

**WAC 388-828-9350 Are there conditions when DDA will authorize additional hours to your monthly employment service hours?** The developmental disabilities administration (DDA) may authorize additional hours to your monthly employment service hours when your employment support plan identifies a need for additional service hours related to:

- (1) Your work schedule;
- (2) The number of jobs you have;
- (3) The appropriateness of your job match;
- (4) Natural supports available to you on the job;
- (5) Health limitations that affect your job;
- (6) The location of your job;
- (7) Behavioral or physical needs that may affect the safety of you and others while at work; or
- (8) Other factors in your employment plan that indicate a need for additional hours for a short-term volunteer opportunity, job development, or for you to maintain a job.

**WAC 388-828-9360 What is short-term employment support? (1)**

Short-term employment support is a service that allows DDA to approve service hours in addition to the amount of your employment service base hours under WAC 388-828-9335 and add-on hours under WAC 388-828-9345 when:

- (a) You are beginning a new job;
- (b) There is a planned or unexpected change in your job or job duties;
- (c) Your current employment is at risk and short-term supports are needed to assist you in maintaining your current job; or
- (d) You are stuck on your pathway to employment and need individualized technical assistance.

(2) Short-term employment support may be authorized for a maximum of six months at a time and may be reauthorized when:

- (a) The circumstances identified in subsection (1) of this section continue as evidenced by receipt of a current employment work plan or review describing the need; and
- (b) Both your employment provider and county recommend continuing the use of short-term employment support.

**WAC 388-828-9540 What residential service levels of support does DDD use?** DDD uses the following residential service levels of support which correspond with your assessed support needs (see WAC 388-828-9530) :

Support Need Level	Typical Support Need Characteristics from the DDD Assessment	Expected Level of Support*
Weekly or less Support Level 1	Client requires supervision, training, or physical assistance in areas that typically occur weekly or less often, such as shopping, paying bills, or medical appointments. Client is generally independent in support areas that typically occur daily or every couple of days.	Clients assessed to need this level receive support on a weekly basis or less frequently.
Multiple times per week Support Level 2	Client is able to maintain health and safety for a full day or more at a time AND needs supervision, training, or physical assistance with tasks that typically occur every few days, such as light housekeeping, menu planning, or guidance and support with relationships. Client is generally independent in support areas that must occur daily.	Clients assessed to need this level receive support multiple times per week.
Intermittent daily - Low Support Level 3A	Client is able to maintain health and safety for short periods of time (i.e., hours, but not days) OR needs supervision, training, or physical assistance with activities that typically occur daily, such as bathing, dressing, or taking medications.	Clients assessed to need this level receive daily support.
Intermittent daily - Moderate Support Level 3B	Client requires supervision, training, or physical assistance with multiple tasks that typically occur daily OR requires frequent checks for health and safety or due to disruptions in routines.	Clients assessed to need this level receive daily support and may receive checks during nighttime hours as needed.
Close proximity Support Level 4	Client requires support with a large number of activities that typically occur daily OR is able to maintain health and safety for very short periods of time (i.e., less than 2 hours, if at all) AND requires occasional health and safety checks or support during overnight hours.	Clients assessed to need this level receive supports in close proximity 24 hours per day. Support hours may be shared with neighboring households.
Continuous day and continuous night Support Level 5	Client is generally unable to maintain health and safety OR requires support with a large number of activities that occur daily or almost every day AND requires nighttime staff typically within the household.	Clients assessed to need this level receive support 24 hours per day.
Community Protection Support Level 6	Client is enrolled in the community protection program.	Clients assessed to need this level of support will receive 24 hour per day supervision per community protection program policy.
*Emergency access to residential staff is available to all clients, 24-hours per day, regardless of the residential service level of support the assessment indicates.

	2 = At least once a week but not once a day	Less than daily
	3 = At least once a day but not once an hour	Daily or more frequently
	4 = Hourly or more frequently	Daily or more frequently
* Nighttime assistance needed means that the person wakes in the night and requires assistance with toileting, mobility, medical issues, behaviors, guidance through sleepwalking, or other support requiring intervention.		

(2)

	No	No

(4)

DDD Sleep Panel Question	If your answer to this question is:	Then your support needs score for this question is:
Wakes to toilet most nights?	Yes	Yes
	No	No

(5)

DDD Sleep Panel Question	If your answer to this question is:		Then your support needs score for this question is:
Nighttime behavioral/ anxiety issues?	None	Defined as: No behavioral or anxiety issues at night.	No
	Minor	Defined as: You experience low to medium behavioral or anxiety issues when left alone at night, but can manage the behaviors/anxiety with minimal or no intervention.	No
	Moderate	Defined as: You experience intense behavioral or anxiety issues when left alone at night, but you are managing to cope, even if only minimally, by yourself or with remote or occasional onsite help as needed.	No

**WAC 388-828-9690 How does the residential algorithm calculate your total critical support time (CST)?** The residential algorithm uses the following formula to calculate your total critical support time (CST):

$$\frac{\text{DailyCST}}{1} + \frac{\text{MidFreqCST}}{3} + \frac{\text{WeeklyCST}}{7} = \text{Total CST (hours per day)}$$

[WSR 08-15-091, recodified as § 388-828-9690, filed 7/17/08, effective 7/17/08. Statutory Authority: RCW 71A.12.30 [71A.12.030] and Title 71A RCW. WSR 08-12-037, § 388-828-10360, filed 5/30/08, effective 7/1/08.]

**WAC 388-828-9700 How does the residential algorithm use your assessed support needs scores to determine your residential service level of support?** (1) The residential algorithm uses your assessed support needs scores (as defined in WAC 388-828-9550 through 388-828-9690) to answer questions in a decision tree.

(2) The decision tree path determines your residential service level of support (WAC 388-828-9540).

(3) The decision tree is separated into the following three steps:

(a) Step 1 determines whether your residential support needs scores meet the criteria for less than daily support or the criteria for community protection.

(b) Step 2 determines whether your residential support needs scores meet the criteria for continuous day and night support.

**Step 2  
Level Identification**

(c) Step 3 determines whether your residential support needs scores meet the criteria for intermittent support.

### Step 3 – Level Identification
