

WAC 504-49-510 How to determine if community solar or shared commercial solar projects located on the same property are one combined system or separate systems for determining the applicable limit?
In determining if a community solar or shared commercial solar project is within the applicable limit when more than one community solar or shared commercial solar project is located on one property, the energy program treats each project's system as separate from the other projects if there are separate production meters and separate certification applications have been submitted to the energy program.
