

WAC 16-256-010 "Animal waste" and "processed" defined. "Animal wastes" means a material composed of excreta, with or without bedding materials and/or animal drugs, collected from poultry, ruminants or other animals except humans.

"**Lot identifier**" means a unique identifier for each lot, batch or production run that enables the manufacturer to accurately trace the complete manufacturing and distribution history of the product. A lot identifier is an individual lot, batch or production run number, code, date, or other suitable identification applied to the label, container, or package. In the case of bulk feed the lot identifier is on a label, invoice, or shipping document accompanying the feed.

"**Processed,**" as applied to animal waste, means thermally dehydrated, dry-stacked, ensiled, oxidized, chemically treated, microbiologically digested, chemically or physically fractionated, or treated by other processes that enable an animal waste product to comply with the standards established in this chapter.

Note: Commercial feed containing raw or unprocessed animal waste is considered adulterated under WAC 16-250-120(3).

[Statutory Authority: Chapters 15.53 and 34.05 RCW. WSR 03-23-131, § 16-256-010, filed 11/19/03, effective 7/1/04.]
