

WAC 246-335-764 Maintenance facilities. A hospice care center applicant or licensee must:

(1) If planning a maintenance shop, ensure it is located and designed for easy delivery and removal of equipment and to minimize noise and dust to the rest of the hospice care center with:

- (a) Storage for solvents, flammable and combustible liquids; and
- (b) Storage for supplies and equipment.

(2) Provide a separate room or area specifically for repair, and testing of electronic or other medical equipment according to the functional program.
