

WAC 246-854-345 Special populations—Patients twenty-five years of age or under, pregnant patients, and aging populations. (1) Patients twenty-five years of age or under. In the treatment of pain for patients twenty-five years of age or under, the osteopathic physician assistant shall treat pain in a manner equal with that of an adult but must account for the weight of the patient and reduce the dosage prescribed accordingly.

(2) Pregnant patients. The osteopathic physician assistant shall not discontinue the use of MAT opioids, such as methadone or buprenorphine, by a pregnant patient without oversight by the MAT prescribing practitioner. The osteopathic physician assistant shall weigh carefully the risks and benefits of opioid detoxification during pregnancy.

(3) Aging populations. As people age, their tolerance and metabolizing of opioids may change. The osteopathic physician assistant shall consider the distinctive needs of patients who are sixty-five years of age or older and who have been on chronic opioid therapy or who are initiating opioid treatment.
