

WAC 388-829C-131 How does DDA determine the daily rate? (1) A companion home daily rate equals the sum of the client's support assessment scale scores multiplied by 14.2.

(2) The residential algorithm under chapter 388-828 WAC determines the level of services and supports a companion home client may receive.

(3) The CARE assessment assigns support levels of "none," "low," "medium," or "high" to each support assessment scale that correspond to the values below:

Category	None	Low	Medium	High
Activities of daily living	0	1	2	3
Behavior	0	1	2	3
Interpersonal support	0	1	2	3
Medical	0	1	2	3
Mobility	0	1	2	3
Protective supervision	0	1	2	3

(4) DDA assigns a behavior score of four if the client has a:

- (a) Behavior score of three on the support assessment scale;
- (b) Challenging behavior documented on form DSHS 10-234; and
- (c) Current positive behavior support plan.

(5) DDA reviews a companion home daily rate annually and if a significant change assessment occurs during the plan year.

(6) DDA may adjust a companion home daily rate if:

- (a) Any of the client's support assessment scale levels change;
- (b) The multiplier changes due to a vendor rate change; or
- (c) The annual cost of respite services increased because DDA approved additional respite hours under WAC 388-829C-234(3) and the client's assessed support needs remain unchanged since the most recent CARE assessment.
