

WAC 392-140-609 Special education safety net—Standards and criteria—IEPs. A sample of individualized education programs will be reviewed for each applying local education agency (if the local education agency has not had individualized education programs reviewed through the Washington integrated system of monitoring (WISM) process within the last two years). Individualized education programs will be reviewed in areas to be determined by the office of superintendent of public instruction and published in the annual *Safety Net Bulletin*. Areas to be reviewed will be the same for all applications for the school year. Sample sizes will be determined based on data collected by the office of superintendent of public instruction demonstrating local education agency compliance history and statewide areas of needed improvement.
