

WAC 51-11R-2020 Section R202.2—B.

BASEMENT WALL. See *above-grade wall* and *below-grade wall*.

BELOW-GRADE WALL. That portion of a wall in the building envelope that is entirely below the finish grade and in contact with the ground.

BUILDING. Any structure used or intended for supporting or sheltering any use or occupancy, including any mechanical systems, service water heating systems and electric power and lighting systems located on the building site and supporting the building.

BUILDING SITE. A contiguous area of land that is under the ownership or control of one entity.

BUILDING THERMAL ENVELOPE. The *below-grade walls, above-grade walls, floors, ceilings, roofs, and any other building element assemblies that enclose conditioned space* or provides a boundary between *conditioned space* and exempt or unconditioned space.
