

WAC 110-148-1560 What are the requirements for obtaining consent for emergent and routine medical care? (1) The department is the legal custodian for children it places in care. We have the authority to consent to emergency and routine medical services on behalf of a child under the age of 18. Youth in care over the age of 18 must consent to their own medical care or have an identified person who has been granted the legal authority to consent on their behalf. We delegate some of the authority to providers. You must contact the child's DCYF case-worker or intake for specific information for each child.

(2) If you care for children in the custody of another agency, tribal court or other court, you must follow the direction of that agency or court regarding permission to provide consent for medical care.

(3) In case of medical emergency, contact the child's DCYF case-worker or DCYF intake as soon as possible.

(4) It is your responsibility to ensure that a child receives the necessary medical attention if injured or harmed. In the event of a life-threatening medical emergency, you must contact 911 prior to transporting the child to a medical facility.
