

WAC 352-66-140 Ranges. Ranges are aids to navigation systems employing dual beacons which, when the structures appear to be in line, assist the mariner in maintaining a safe course. The appropriate nautical chart must be consulted when using ranges to determine whether the range marks the centerline of the navigable channel and also to ascertain what section of the range may be safely traversed. Ranges are generally, but not always, lighted, and display rectangular day-marks of various colors.

[Statutory Authority: RCW 79A.05.070, 79A.05.030. WSR 21-20-006, § 352-66-140, filed 9/22/21, effective 10/23/21.]
