

**WAC 434-335-635 Signature verification system approval report.**

No more than fourteen days following the approval of an automated signature verification system, the secretary of state must issue a written approval report that specifies the approved use of the system and conditions of its use. The approval must include the prescribed setting for the confidence level for either accepting or rejecting signatures. Signature verification systems are only approved for use with election management systems included in the approval report.

[Statutory Authority: RCW 29A.04.611. WSR 07-12-032, § 434-335-635, filed 5/30/07, effective 6/30/07.]
