

WAC 173-557-100 Regulation review. Ecology, after consultation with local, tribal, and state governments, may initiate a review, and if necessary amend this chapter, following the procedures of chapter 34.05 RCW, if: Significant new scientific information becomes available; a significant change in conditions occurs; anadromous fish are reintroduced; a large storage project is proposed in the area affected by this rule; or statutory changes are enacted, that are determined by the department to require review of this rule.

[Statutory Authority: Chapters 90.54, 90.22, 90.82, 90.03, 90.44, 18.104, and 43.27A RCW. WSR 15-04-033 (Order 13-11), § 173-557-100, filed 1/27/15, effective 2/27/15.]
