

**WAC 246-926-110 Diagnostic radiologic technologist—Alternative training.** (1) Alternative training for a diagnostic radiologic technologist may be obtained with the following:

- (a) (i) A high school diploma or GED equivalent;
- (ii) Three clinical years supervised practice experience in radiography as provided in subsection (2) of this section; and
- (iii) Completed course content as provided in subsection (3) of this section; or
- (b) (i) An associate or higher degree in an allied health care profession; and
- (ii) Two clinical years supervised practice experience in radiography as provided in subsection (2) of this section; and
- (iii) Completed course content as provided in subsection (3) of this section; or
- (c) (i) Meet the requirements of this chapter for certification as a therapeutic radiologic technologist or nuclear medicine technologist; and
- (ii) Two clinical years supervised practice experience in radiography as provided in subsection (2) of this section; and
- (iii) Completed course content as provided in subsection (3) of this section.

(2) Verified supervised clinical practice experience must include the following:

- (a) Introduction to radiography;
- (b) Medical ethics and law;
- (c) Medical terminology;
- (d) Methods of patient care;
- (e) Radiographic procedures;
- (f) Radiographic film processing;
- (g) Evaluation of radiographs;
- (h) Radiographic pathology;
- (i) Introduction to quality assurance; and
- (j) Introduction to computer literacy.

(3) Verified formal education must include the following:

- (a) Human anatomy and physiology - 100 contact hours;
- (b) Principles of radiographic exposure - 45 contact hours;
- (c) Imaging equipment - 40 contact hours;
- (d) Radiation physics, principles of radiation protection, and principles of radiation biology - 40 contact hours; and
- (e) Sectional anatomy - 33 contact hours.

(4) Individuals participating in the diagnostic radiologic technologist alternative training program must annually report to the department the progress of their supervised clinical hours. Notification must be made in writing and must include the street and mailing address of their training program and the names of the individual's direct and indirect supervisors.

(5) Individuals educated or credentialed to practice as a diagnostic radiologic technologist in another country must provide official documentation of their education and training proving that they meet or exceed alternative training requirements.

(6) To meet the ARRT or NMTCB clinical experience requirements to sit for a computed tomography examination, a diagnostic radiologic technologist shall meet the following:

- (a) Hold a current diagnostic radiologic technology certification issued by the secretary;

(b) Notify the department in writing of their intent to begin a training program for the purposes of meeting the clinical experience requirements for either the ARRT or NMTCB computed tomography examination, which must include:

(i) The street and mailing address of the training program;

(ii) The names of the designated training program supervisor or supervisors; and

(iii) The designated time frame within which the individual is working to qualify for a computed tomography examination;

(c) Report annually to the department the progress of their training including the number of clinical hours dedicated to computed tomography training and the number of computed tomography procedures performed and reported to either the ARRT or NMTCB; and

(d) Complete the clinical experience requirements within the time period set by the ARRT or NMTCB as reported under (b)(iii) of this subsection. If the individual does not meet the clinical experience requirements within the designated time period, the training program is no longer valid and the individual must initiate a new training program.
