

**WAC 468-95-29007 Traffic control devices for low-volume roads—  
One lane bridges.** Change the Guidance of MUTCD Section 5C.06, One  
Lane Bridges, to become an Option and amend to read:

A ONE LANE BRIDGE (W5-3) sign (see Figure 5C-2) may be used on low-  
volume two-way roadways in advance of any bridge or culvert:

A. Having a clear roadway width of less than 16 feet; or

B. Having a clear roadway width of less than 18 feet when commer-  
cial vehicles constitute a high proportion of the traffic; or

C. Having a clear roadway width of 18 feet or less where the ap-  
proach sight distance is limited on the approach to the structure.

Additional warning may be provided on the approach to a one lane  
bridge or culvert by the use of object markers and/or delineators.
